Bangladesh Cinema and National Identity Zakir Hossain Raju, 2014-12-17 Throughout the twentieth and early twenty-first centuries, cinema has been adopted as a popular cultural institution in Bangladesh. At the same time, this has been the period for the articulation of modern nationhood and cultural identity of Bengali Muslims in Bangladesh. This book analyses the relationship between cinema and modernity in Bangladesh, providing a narrative of the uneven process that produced the idea of Bangladesh cinema. This book investigates the roles of a non-Western national film industry in Asia in constructing nationhood and identity within colonial and postcolonial predicaments. Drawing on the idea of cinema as public sphere and the postcolonial notion of formation of the Bangladesh nation, interactions between cinema and middle-class Bengali Muslims in different social and political matrices are analyzed. The author explores how the conflict among different social groups turned Bangladesh cinema into a site of contesting identities. In particular, he illustrates the connections between film production and reception in Bangladesh and a variety of nationalist constructions of Bengali Muslim identity. Questioning and debunking the usual notions of Bangladesh and cinema, this book positions the cinema of Bangladesh within a transnational frame. Starting with how to locate the beginning of the second Bengali language cinema in colonial Bengal, the author completes the investigation by identifying a global Bangladeshi cinema in the early twenty-first century. The first major academic study on this large and vibrant national cinema, this book demonstrates that Bangladesh cinema worked as different public spheres for different publics throughout the twentieth century and beyond. Filling a niche in Global Film and Media Studies and South Asian Studies, it will be of interest to scholars and students of these disciplines.

Identification Revolution Alan Gelb, Anna Diofasi Metz, 2018-01-16 Some 600 million children worldwide do not legally exist. Without verifiable identification, they—and unregistered adults—could face serious difficulties in proving their identity, whether to open a bank account, purchase a SIM card, or cast a vote. Lack of identification is a barrier to full economic and social inclusion. Recent advances in the reach and technological sophistication of identification systems have been nothing less than revolutionary. Since 2000, over 60 developing countries have established national ID programs. Digital technology, particularly biometrics such as fingerprints and iris scans, has dramatically expanded the capabilities of these programs.

Individuals can now be uniquely identified and reliably authenticated against their claimed identities. By enabling governments to work more effectively and transparently, identification is becoming a tool for accelerating development progress. Not only is provision of legal identity for all a target under the Sustainable Development Goals, but this book shows how it is also central to achieving numerous other SDG targets. Yet, challenges remain. Identification systems can fail to include the poor, leaving them still unable to exercise their rights, access essential services, or fully participate in political and economic life. The possible erosion of privacy and the misuse of personal data, especially in countries that lack data privacy laws or the capacity to enforce them, is another challenge. Yet another is ensuring that investments in identification systems deliver a development payoff. There are all too many examples where large expenditures—sometimes supported by donor governments or agencies—appear to have had little impact. *Identification Revolution: Can Digital ID be Harnessed for Development?* offers a balanced perspective on this new area, covering both the benefits and the risks of the identification revolution, as well as pinpointing opportunities to mitigate those risks.

Electronic Government and the Information Systems Perspective Kim Normann Andersen, Enrico Francesconi, Ake Grönlund, Tom M van Engers, 2010-08-17 In front of you are the proceedings of the First International Conference on Electronic Government and Information Systems Perspective, EGOVIS. This conference builds on the tradition of its predecessors, the Electronic Government Conferences (EGOV) under the DEXA umbrella, which have been ongoing for nine years, but it also - cluded some innovations. In view of the large number of electronic government c- ferences, we found it important to focus the scope of the conference a little and to increase the quality requirements. Hence this year's conference featured a tougher review process and a smaller set of accepted papers. As a result, these proceedings contain the very best papers of 2010 covering various important aspects of electronic government and information systems used in the public sector. With an acceptance rate of less than 20% EGOVIS belongs to the top ten conferences in the world. The Program Committee accepted 13 full papers and 11 short papers, covering the most recent research trends in electronic government implementations, such as ICT for eGovernment services and monitoring, knowledge and content management systems for temporal and geo-spatial applications, interoperability for electronic government integrated architectures, decision and support tools for eDemocracy and direct parti- pation of citizens in the policy-making strategies, and Web 2. 0 and 3. 0 approaches for collaborative and transparent public sector services.

Transforming Bangladesh Raquib Ahmed, Abdullah Al-Maruf, J. Craig Jenkins, 2023-11-14 This book focuses on the transformation of Bangladesh in respect to its people, geography, economy and environment. The authors discuss current problems such as vulnerability caused by environmental degradation in Bangladesh but also opportunities of this rapidly changing country. The book explains how the country is rapidly transforming from a rural subsistence agrarian based economic system to a new economic partner contributing to global processes. Bangladesh is presented as an example for the

changes in the Global South, where a mismatch is often observed in linking resources and activities with environmental sustainability, possibly due to insufficient base-line knowledge. As faster growth is marginalizing resources to increase the GDP, the sustainability of resource exploitation is being questioned. The authors describe the vulnerable situation caused by possible sea-level rise, soil degradation, biodiversity loss, climate extremities, urbanization, and population displacement. This volume offers comprehensive knowledge about the geography and environment of Bangladesh and aims to help readers further investigate the issues and work on solutions. The book appeals to academics, professionals and students at all levels interested in Bangladesh as well as environmental problems and geographical issues in a rapidly transforming country.

Bangladesh Ali Riaz, 2016-06-08 Bangladesh is a country of paradoxes. The eighth most populous country of the world, it has attracted considerable attention from the international media and western policy-makers in recent years, often for the wrong reasons: corruption, natural disasters caused by its precarious geographical location, and volatile political situations with several military coups, following its independence from Pakistan in 1971. Institutional corruption, growing religious intolerance and Islamist militancy have reflected the weakness of the state and undermined its capacity. Yet the country has demonstrated significant economic potential and has achieved successes in areas such as female education, population control and reductions in child mortality. Ali Riaz here examines the political processes which engendered these paradoxical tendencies, taking into account the problems of democratization and the effects this has had, and will continue to have, in the wider South Asian region. This comprehensive and unique overview of political and historical developments in Bangladesh since 1971 will provide essential reading for observers of Bangladesh and South Asia.

Cyber Law in Bangladesh Mohammad Ershadul Karim, 2022-05-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to cyber law – the law affecting information and communication technology (ICT) – in the Bangladesh covers every aspect of the subject, including intellectual property rights in the ICT sector, relevant competition rules, drafting and negotiating ICT-related contracts, electronic transactions, privacy issues, and computer crime. Lawyers who handle transnational matters will appreciate the detailed explanation of specific characteristics of practice and procedure. Following a general introduction, the book assembles its information and guidance in seven main areas of practice: the regulatory framework of the electronic communications market; software protection, legal protection of databases or chips, and other intellectual property matters; contracts with regard to software licensing and network services, with special attention to case law in this area; rules with regard to electronic evidence, regulation of electronic signatures, electronic banking, and electronic commerce; specific laws and regulations with respect to the liability of network operators and service providers and related product liability; protection of individual persons in the context of the processing of personal data and confidentiality; and the application of substantive criminal law in the area of ICT. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool

for business and legal professionals alike. Lawyers representing parties with interests in the Bangladesh will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field.

India's Bangladesh Problem Navine Murshid, 2023-04-06 In recent years, Bengali Muslims in India have faced harassment and scapegoating as the trope of the illegal Bangladeshi has gained political currency. India's Bangladesh Problem explores the experience of Bengali Muslims on the Indian side of the India-Bangladesh border in the context of neoliberal policies, unequal bilateral relations, labor migration, contested citizenship, and increasingly xenophobic government rhetoric. Drawing on extensive research in the borderlands and hinterlands of both countries, Navine Murshid argues that ever-deepening neoliberal policies across the border have shaped how certain ethnic groups are valued and have reconfigured social hierarchies. She provides new insights into the strategic inclusion, exclusion, and invisibility that characterizes Bengali Muslims' lives, rendering them a group susceptible to manipulation by virtue of their ethnic kinship to the majority of Bangladeshis. In turn, Bengali Muslims simultaneously resist and utilize received neoliberal ideas to sustain their lives and livelihoods at a time when neoliberal development has largely bypassed them.

Muslims in Motion Nazli Kibria, 2011 In *Muslims in Motion*, Nazli Kibria provides a comparative look at Bangladeshi Muslims in different global contexts—including Britain, the U.S., the Middle East, and Malaysia. Kibria examines international migrant flows from Bangladesh, and considers how such migrations continue to shape Islamization in these areas. Having conducted more than 200 in-depth interviews, she explores how, in societies as different as these, migrant Muslims, in their everyday lives, strive to achieve economic gains, sustain community and family life, and realize a sense of dignity and honor. *Muslims in Motion* offers fresh insights into the prominence of Islam in these communities, especially an Islam defined by

fundamentalist movements and ideologies. Kibria also focuses on the complex significance of nationality--with rich analyses of the diaspora, the role of gender and class, and the multiple identities of the migrants, she shows how nationality can be both a critical source of support and also of difficulty for many in their efforts to attain lives of dignity. By bringing to life a vast range of experiences, this book challenges prevailing stereotypes of Muslims.

Institutionalization of the Parliament in Bangladesh A. T. M. Obaidullah, 2018-07-11 This book explores the institutionalization process with regard to the Parliament in Bangladesh, and seeks to identify the main constraints that hinder the Parliament from serving as the uppermost representative body for all segments of society. This book sheds valuable new light on key reform initiatives carried out by donor communities in collaboration with the Bangladesh Parliament between the years 1991 and 2015 by presenting an extensive selection of donor proposals to make the Parliament a more potent political institution. The book also focused on the barriers of strengthening oversight, fiscal oversight in particular, resourcing parliament and its secretariat, hindering gender equality and gender responsiveness, counteracting forces that are weakening rule of law, civil liberty of the citizens, constitutionalism and democratic consolidation in the country. The book presents a comparative picture of the pre- and post-reform Bangladesh Parliament, highlighting on the issue of how much the donor assistance can help promote institutionalization of the parliament and democratic consolidation of a developing country. The book will be of immense value to all scholars interested in democratic governance, administrative reforms, policy studies and the role of parliament as a watchdog ensuring accountability, transparency and national integrity.

Tortuous Evolution Of South Asian Regional Cooperation, The: Bangladesh's Travails For Sub-regional Cooperation Ambassador Tariq Karim, 2024-08-16 The dramatic shift of the Indian subcontinent, once highly integrated for a millennium until its Partition in 1947, into one of the world's least integrated regions, raises questions about this swift transformation. The formation of the South Asian Association for Regional Cooperation (SAARC) by the newly partitioned states aimed at fostering collaboration. However, initial efforts proved futile, prompting a comparison with the successful dynamics of the European Union (EU) and the Association of Southeast Asian Nations (ASEAN). Drawing on his experience in the Bangladesh foreign ministry and as a World Bank consultant, Ambassador Tariq Karim's book provides insights into South Asian regional cooperation. It traverses history, analyses cooperation models, examines various dimensions of collaboration, and envisions extending sub-regional cooperation to the broader Bay of Bengal region. Ambassador Karim's narrative highlights contrasts between SAARC's challenges and the achievements of the EU and ASEAN, emphasising key factors that differentiate successful regional initiatives. This book not only serves as a documentation of historical shifts but also envisages a future where the Indian subcontinent and its neighbouring regions embrace enhanced collaboration for mutual benefit.

Legal Aspects of Implementing the Cartagena Protocol on Biosafety Marie-Claire Cordonier Segger, Frederic Perron-Welch, Christine Frison, 2013-01-28 This book, the first in a series that focuses on treaty implementation for sustainable development, examines key legal aspects of implementing the Cartagena Protocol on Biosafety to the UN Convention on Biological Diversity (CBD) at national and international levels. The volume provides a serious contribution to the current legal and political academic debates on biosafety by discussing key issues under the Cartagena Protocol on Biosafety that affect the further design of national and international law on biosafety, and analyzing progress in the development of domestic regulatory regimes for biosafety. In the year of the fifth UN Meeting of the Parties to the Cartagena Protocol on Biosafety, at the signature of a new Nagoya-Kuala Lumpur Protocol on Liability and Redress, this timely book examines developments in biosafety law and policy.

The Right to Privacy Revisited Özgür Heval Çınar, Aysem Diker Vanberg, 2021-12-21 This book focuses on the right to privacy in the digital age with a view to see how it is implemented across the globe in different jurisdictions. Social Studies Education in South and South East Asian Contexts Kerry J Kennedy, 2021-07-22 The education of young people is context bound. This edited volume explores the contexts that characterise South and South East Asia and their influence on social studies education. There is not a single context across this broad geographical expanse, rather different religions, different political systems and different values exert influences that create distinctive programmes that characterise different countries. Yet there are also commonalities such as the post-colonial nature of most of the countries portrayed in this book, determined efforts at establishing new national communities and multiple value systems that lead to distinctive local priorities. There are also voices of resistance in these chapters, recognising the realities of local contexts but also recognising the need for change. Social studies education in these contexts may well be descended from its origins in North America, but in South and South Asian contexts, it has taken on new purposes, new forms and new values. Education researchers, policymakers and postgraduate students in comparative education will find the volume useful in its exploration and comparison of the social studies curricular and reforms that shaped them.

Paradoxes of the Popular Nusrat Sabina Chowdhury, 2019-08-27 Few places are as politically precarious as Bangladesh, even fewer as crowded. Its 57,000 or so square miles are some of the world's most inhabited. Often described as a definitive case of the bankruptcy of postcolonial governance, it is also one of the poorest among the most densely populated nations. In spite of an overriding anxiety of exhaustion, there are a few important caveats to the familiar feelings of despair—a growing economy, and an uneven, yet robust, nationalist sentiment—which, together, generate revealing paradoxes. In this book, Nusrat Sabina Chowdhury offers insight into what she calls the paradoxes of the popular, or the constitutive contradictions of popular politics. The focus here is on mass protests, long considered the primary medium of meaningful change in this part of the world. Chowdhury writes provocatively about political life in Bangladesh in a rich ethnography that studies some of the most consequential protests of the last decade, spanning both rural and urban Bangladesh. By making the crowd its starting point and analytical locus, this book tacks between multiple sites of public political gatherings and pays attention to the ephemeral and often accidental configurations of the crowd. Ultimately, Chowdhury makes an original case for the crowd as a defining feature and a foundational force of democratic practices in South Asia and beyond.
