Potty training shouldn't be hard or difficult. As a busy dad who is constantly on-the-go, I searched everywhere for an easy way to potty train my toddler. It wasn't easy. Many of them I've read didn't work and many even traumatized the child so they feel anxious every time they need to go to the bathroom. We didn't want this for our child. One day while my wife and I had a Japanese couple over for dinner. We have shared our frustrations with them. That's when they've shared an interesting technique. Something that made sense and lot less aggressive without sacrificing swiftness. And we tried it and it worked! We had a bit of hiccups along the road but after a single weekend, our boy was completely off of his diapers! We were delighted and pleasantly surprised. That's when we began to share this method with our friends who have kids. And it worked surprisingly well for them also. I've honed the method and named it the Japanese Easy-Free Potty Training Method. And I'd like to share it with you too. Now I'm going to be honest and say that this method doesn't work for all boys and girls. It works for 83%. But I can assure you if you don't have a lot of time, this method may possibly be one of the easiest, simplest, and fastest ways for your toddler to get off of diapers. I know how nerve-wrecking this situation can be, so I'm going to include a 911 Troubleshooting Help resource where you'll be able to contract one of my friends to get some hand-holding help when you most need it - for Free!
