*Facing Our Mortality Without Fear: Advice from the Great Philosophers* Robert Bonser,2011-08-01 The fear of our mortality is a common and natural fear among humans. There is a proud tradition in philosophy of being able to offer consolation and comfort for the trials and tribulations of life, including the greatest and final trial - death. Socrates said that whether death is extinction or the persistence of the soul in an afterlife, it is nothing to fear. The first half of the book Montaigne on the Fear of Death shows how we can overcome our fear even if death is extinction, and the second half, A Philosopher's View of Heaven presents a positive portrayal of heaven based on reason rather than revelation, and one which helps to make sense of our earthly life.

*Why Do Good People Suffer Bad Things* TR Williams, 2018-10-23 You are not alone if you struggle to understand why unwanted, unexplainable, and inconceivable bad things happen to innocent people! Never before have there been so many questions like: How could a loving God permit good people to suffer bad things and often make it appear as though the guilty are rewarded or go scot free? Why are there so many things in the world that seem unfair or unjust? Why does God seemingly hide his face from much of the horrific evil, pain and destruction? Does God really care? Is it fair for humans to be

angry with God about their misfortune or suffering? Why are there so many good people accused falsely for their suffering? What defence mechanisms can I put in place to minimize evil, suffering, pain, misfortune, and the devil's influence in my own life? What purpose does suffering, and pain serve in human life? These are some of the most thought-provoking, spiritually intuitive, deeply agitating, and most frequent questions asked by countless individuals, especially by those who believe that there is a God.

*The Triad of Solomon* R.I. Johnston, 2015-01-30 A stimulating treasury for those who would like to consider the relationship between the wisdom books of the Bible (chiefly Canticles, Proverbs, and Ecclesiastes) and the stages of their spheres of life, with the opportunity for profitable self-examination and improvement. The reader will journey through some of the highlights of the history of thought, covering such fascinating subjects on the way as how logic was twisted to make way for totalitarianism, how much truth is subjective and relates to the individual, never totally propositional, why people cannot be thought of as machines, how the theory of phenomenology casts light on the fall, and how living in the present is the best cure for the mentally wounded. All this is centered on one of the most misunderstood thinkers of all time, Kierkegaard.
