This is more than a guide to portfolios; it's a practical, heart-centered framework for centering youth voice, safeguarding privacy, and aligning every layer of support around a hopeful path to stable, confident futures. You'll discover how to blend narrative and research so young people tell their stories on their own terms while boundaries, consent, and safety stay front and center across systems. Learn to craft portfolios with a clear narrative arc, identity threads, and meaningful artifacts; use timelines, artifacts, and elements responsibly; balance honesty with privacy, and use accessible platforms that welcome every participant. It lays out how to build a collaborative team—youth, families, therapists, caseworkers, educators, and peers—who uphold boundaries and cultivate resilience. With a strong focus on equity, cultural humility, and the realities of siblings and kin networks, this book shows how to ensure no voice is left unheard. Covered Wagon Women: 1851 Kenneth L. Holmes,David Duniway,1983-01-01 The wagon trains to California greatly decreased in 1851 as reports of deadly cholera on the trail the year before and strikeouts in gold prospecting became known. Those who did go west—about 2,160 men and 1,440 women—tended toward Oregon's rich Willamette Valley because of a new federal land law that awarded a husband and wife a full section. Volume 3 of Covered Wagon Women contains the diaries and letters of six Oregon-bound women, as well as the journal of an English Mormon woman who described her experience all the way from Liverpool to Salt Lake City. The words of these pioneer women convey their exhilaration, courage, exhaustion, and terror in traveling so far into the unknown.

Plural Action Hans Bernhard Schmid,2009-05-30 Collective Intentionality is a relatively new label for a basic social fact: the sharing of attitudes such as intentions, beliefs and emotions. This volume contributes to current research on collective

intentionality by pursuing three aims. First, some of the main conceptual problems in the received literature are introduced, and a number of new insights into basic questions in the philosophy of collective intentionality are developed (part 1). Second, examples are given for the use of the analysis of collective intentionality in the theory and philosophy of the social sciences (part 2). Third, it is shown that this line of research opens up new perspectives on classical topics in the history of social philosophy and social science, and that, conversely, an inquiry into the history of ideas can lead to further refinement of our conceptual tools in the analysis of collective intentionality (part 3).

Facets of Sociality Nikos Psarros, Katinka Schulte-Ostermann, 2013-05-02 The aim of this volume is to explore new approaches to the problem of the constitution of the various aspects of sociality and to confront these with received ideas. Therefore many of the contributions to this volume are devoted to a rather holistic and antireductionist conception of social objects, groups, joint actions and collective knowledge. The topics, that are dealt with are: a) the question of the ontological status of social objects and their relation to physical objects, b) collective agency and c) the question whether there can be shared knowledge and shared beliefs - a rather new topic in the discussion of the social aspects of personal life.
