**1,600 Quotes & Pieces of Wisdom That Just Might Help You Out When You're Stuck in a Moment (and Can't Get Out of It!)** Gary P. Guthrie,2003-03 John Lennon said, Life is what happens to you while you're busy making other plans.

Sometime today while you're busy following your plan, something may happen that puts you in a funk or motivates you to make a change. Something that could leave you stuck in a moment. But, Marie Curie contended, Nothing in life is to be feared. It is only to be understood. When those moments sneak up on you, you can run to counseling, look yourself in the mirror, crawl over to your favorite self-pity corner or you can open *Stuck in a Moment* and find wisdom to help you understand and, possibly, turn your mood around. Precise in nature, *Stuck...* takes you straight to the heart of life's customary stumbling blocks: your relationships, your job life, your frame of mind and your desire to have the life you dream of. To some, it's an express self-help book; to others, a travel guide for their life. Whether you're following the 12 Steps, looking for an honest, encouraging companion or a fan of inspirational quotes, you'll find 1,600 opportunities to gain new insights in this book - a book of rationale and challenge that you will want to keep handy or gift to someone for those everyday moments.

The Perfection Deception Jane Bluestein, 2015-08-25 When Dr. Bluestein would tell someone that she just finished writing a book on perfectionism, she would often hear a whole tirade on shoddy workmanship and terrible customer service. *You Are a Frequency* Debbie Anne Sellwood, 2024-03-29 A transformation in human consciousness is taking place. And it's generating a growing interest in how subtle elements of the human constitution play a part in the maintenance of our health and wellbeing. *You Are a Frequency* introduces a new paradigm for health and healing based on the whole person, not the physical body on which traditional medicine focuses. In this book, Debbie Sellwood describes the human being's various energy systems, indicating that everything - animal, vegetable and mineral - has its own unique vibration. She explains how these energy bodies influence our health and wellbeing, that the physical body is a medium for the consciousness of the energy bodies. *You Are a Frequency* explains that how we perceive and react to life events determine what experiences we attract into our lives, including health. Our reactions also impact the frequency of our vibrations, and by raising our vibrations, we become more empowered, able to take responsibility for ourselves. It is the author's belief that understanding ourselves as energetic beings will ultimately inspire a future health paradigm and lead to the transformation of the medical system. This book will appeal to the increasing number of people who are aware of a spiritual component to their existence,

who want to understand who they really are, and their potential, at a more holistic level. The times in which we live are causing us to acknowledge that there is more to life, and to ourselves, than meets the eye - you are more than you think!

EXCERPT FROM THE BOOK *The Secret* is a self-help book about the power of positive thinking by Rhonda Byrne. The book is based on a pseudo-scientific theory called the law of attraction the principle that like attracts like. Specifically, Byrne focuses on the idea that your dreams do in fact come true thinking about money and wealth will attract these very things, causing them to manifest in your life. Likewise, fretting over a worst-case scenario will only cause your fears to be realized. Hence the importance of positive thinking. There are no accidents and bad luck. Instead Byrne writes, Your life right now is a reflection of your past thoughts. Throughout the book, Byrne intersperses quotes from proponents of the law of attraction, such as Jack Canfield, creator of the *Chicken Soup for the Soul* series. These experts believe the law to be supported by quantum physics, arguing that it is a law of nature like gravity. According to Byrne, the mind is a magnet, emitting and receiving frequencies to and from the Universe. Each thought sends out a signal, which in turn gathers similar frequencies due to the law of attraction before returning back to you. In this fashion, your mind can bring you anything you desire dream of a new house, and somehow, somehow, it will come to you. On the flip side, dwelling on war and poverty will only perpetuate these evils. Byrne even proposes that too much negative thinking can put you in the path of a natural disaster or terrorist attack. The rest of the book explores different methods of using the law of attraction to

your advantage. The primary technique is ask, believe, receive. This process involves imagining what you desire and pretending that you already have it. For example, Byrne suggests filling out a fake check and pretending to buy all the things you've always wanted. Doing so, she says, will make you wealthy. Buy a copy to keep reading! **"For the Good of the Children" Racism, Red Tape and the Myth of Family Reunification** Dianne Dietrich Lyday, 2015 The book is a narrative of one family's entanglement with the child welfare system. The manuscript chronicles the day-to-day, mind-boggling decisions of child welfare
