**American Psycho** Bret Easton Ellis,2010-06-09 INTERNATIONAL BESTSELLER • In this modern classic, the acclaimed author of *The Shards* explores the incomprehensible depths of madness and captures the insanity of violence in our time or any other. A seminal book.” —The Washington Post One of The Atlantic’s Great American Novels of the Past 100 Years Patrick Bateman moves among the young and trendy in 1980s Manhattan. Young, handsome, and well educated, Bateman earns his fortune on Wall Street by day while spending his nights in ways we cannot begin to fathom. Expressing his true self through torture and murder, Bateman prefigures an apocalyptic horror that no society could bear to confront. “A masterful satire and a ferocious, hilarious, ambitious, inspiring piece of writing.... An important book.” —Katherine Dunn, bestselling author of *Geek Love*

*Copycat Killers* Eliza Toska,2022-01-25 Discover some of the most twisted, horrific true tales of murder that were inspired by movies and TV shows. In this book, you’ll discover the crimes, killings and macabre acts carried out by individuals who were inspired by their favourite characters from the big screen. From the teen who slaughtered his mother and sister carrying out a Halloween inspired murder to the two young girls who attempted to stab their friend to death in the name of a fictional online character, you’ll discover crimes you’ve never heard of, all carried out by people who took their love for fiction and turned it into a terrifying reality. There’s the tale of the man who took his love for *Taxi Driver* to a whole new level by trying to slaughter the President. You’ll also learn about the man who adored a fictional villain from a classic movie so much that he killed two wives 13 years apart, both in a brutal fashion. Then there’s the heartbreaking tale of the gang of youths who adored a horror franchise so much they tortured and mercilessly killed a young woman who thought they were her friends. *Copycat Killers* delves into the inspiration behind horrifying murders and tells the tales of inspiration gone awry; when life imitates art in the worst ways imaginable. Be warned - some stories include disturbing details.

**Dark Thoughts** Steven Jay Schneider,Daniel Shaw,2003 Is horror a fundamentally nihilistic genre? Why are those of us who enjoy horror films so attracted to watching things on screen that in real life we would almost certainly find repellent? Do

monster movies have a deleterious moral effect on their viewers? In seeking to answer such questions, as well as a host of related ones, *Dark Thoughts* reveals that our fascination with horror cinema, and the pleasure we take in it, is in the end simply a natural extension of a philosopher's inclination to wonder. This is a collection of highly engaging and provocative essays by top scholars in the increasingly interrelated fields of Philosophy, Film Studies, and Communication Arts that deal with the epistemology, aesthetics, ethics, metaphysics, and genre dynamics of horror cinema past and present. Contributors include Curtis Bowman, No l Carroll, Elizabeth Cowie, Angela Curran, Cynthia Freeland, Michael Grant, Matt Hills, Deborah Knight, George McKnight, Ken Mogg, Aaron Smuts, Robert C. Solomon, and J.P. Telotte. Over the past several years, one of the hottest topics in the realm of philosophical aesthetics has been cinematic horror. The emotional effects it has on audiences, the mysterious metaphysics of its impossible beings, the controversial ethics of its violent contents-these are just a few of the concerns to have drawn the attention of scholars and students alike. . .not to mention the genre's legions of fans. Since the publication of No l Carroll's groundbreaking study, *The Philosophy of Horror; or, Paradoxes of the Heart* (1990), and including most recently Cynthia Freeland's *The Naked and the Undead: Evil and the Appeal of Horror* (2000), a plethora of articles have been authored by seemingly normal philosophers about the decidedly abnormal activities of the antagonists of fright flicks.

**American Literature and the Free Market, 1945-2000** Michael W. Clune, 2010 This book considers the fascination with the free market and the economic world evident within postwar literature.

**The Space of Sex** Shelton Waldrep, 2021-05-20 As film and television become ever more focused on the pornographic gaze of the camera, the human body undergoes a metamorphosis, becoming both landscape and building, part of an architectonic design in which the erotics of the body spread beyond the body itself to influence the design of the film or televisual shot. The body becomes the *mise-en-scène* of contemporary moving imagery. Opening *The Space of Sex*, Shelton Waldrep sets up some important tropes for the book: the movement between high and low art; the emphasis on the body, looking, and framing; the general intermedial and interdisciplinary methodology of the book as a whole. *The Space of Sex*'s second half focuses on how sex, gender, and sexuality are represented in several recent films, including Paul Schrader's *The Canyons* (2013), Oliver Stone's *Savages* (2012), Steven Soderbergh's *Magic Mike* (2012), Lars Von Trier's *Nymphomaniac* (2013), and Joseph Gordon-Levitt's *Don Jon* (2013). Each of these mainstream or independent movies, and several more, are examined for the ways they have attempted to absorb pornography, if not the pornography industry specifically, into their plot. According to Waldrep, the utopian elements of seventies porn get reprocessed in a complex way in the twenty-first century as both a utopian impulse-the desire to have sex on the screen, to re-eroticize sex as something positive and lacking in shame-with a mixed feeling about pornography itself, with an industry that can be seen in a dystopian light. In other words, sex, in our contemporary world, still does not come without compromise.

Icebergs, Zombies, and the Ultra-Thin Matthew Soules, 2021-05-04 Soules's excellent book makes sense of the capitalist forces we all feel but cannot always name... Icebergs, Zombies, and the Ultra Thin arms architects and the general public with an essential understanding of how capitalism makes property. Required reading for those who think tomorrow can be different from today.— Jack Self, coeditor of *Real Estates: Life Without Debt* In *Icebergs, Zombies, and the Ultra Thin*, Matthew Soules issues an indictment of how finance capitalism dramatically alters not only architectural forms but also the very nature of our cities and societies. We rarely consider architecture to be an important factor in contemporary economic and political debates, yet sparsely occupied ultra-thin pencil towers develop in our cities, functioning as speculative wealth storage for the superrich, and cavernous iceberg homes extend architectural assets many stories below street level. Meanwhile, communities around the globe are blighted by zombie and ghost urbanism, marked by unoccupied neighborhoods and abandoned housing developments. Learn how the use of architecture as an investment tool has accelerated in recent years, heightening inequality and contributing to worldwide financial instability: • See how investment imperatives shape what and how we build, changing the very structure of our communities • Delve into high-profile projects, like the luxury apartments of architect Rafael Viñoly's 432 Park Avenue • Understand the convergence of technology, finance, and spirituality, which together are configuring the financialized walls within which we eat, sleep, and work Includes dozens of photos and drawings of architectural phenomena that have changed the way we live. Essential reading for anyone interested in architecture, design, economics, and understanding the way our world is formed.

Truly Madly Deeply L J Shen , 2025-08-18 “LJ Shen has a gift for writing the hottest, grumpiest heroes you just can’t help but fall for, and Row is no exception. I couldn’t put this book down.” - Author Jessica Prince This old flame just might set them on fire. Conceited, unattainable, and downright delicious, renowned Michelin-starred chef Ambrose Casablanca has

one passion in life—food. Women are a distraction, and he doesn't do those. Especially Cal Litvin, his baby sister's best friend. Her entire existence is a complication; she's awkward, eccentric, infuriating... And, much to his chagrin, hotter than his kitchen. Ambrose has a lot on his plate: a new restaurant to open, a multimillion-dollar property deal to execute, and a violent stalker to tame. Then Cal shows up at his doorstep, looking for both a job and salvation after their messy goodbye. His resolve, like his patience, is ebbing each day she works at his restaurant. Because Cal is no longer a doe-eyed girl. Now? She's the woman he'll do anything to conquer. \*\*\* Quirky, compassionate ball of sunshine Calla Litvin can't catch a break, and not just because she swore off running. Back in her hometown to nurse her mother's broken heart after losing her father, she finds herself jobless, hopeless, and penniless. She hopes to rekindle her friendship with her former BFF, but Dylan is attached at the hip to her cruel brother—the one Cal's been secretly crushing on since middle school. Falling for the bad boy the second time around would be a mistake of gargantuan proportions. Too bad she's always been clumsy. Truly, Madly, Deeply, is a grumpy x sunshine, enemies to lovers romance. It is the first in the Forbidden Love series, but can be read as a standalone.

Education and Its Discontents Mark Moss, 2011-11-21 Education and Its Discontents: Teaching, the Humanities, and the Importance of a Liberal Education in the Age of Mass Information, by Mark Moss, is an exploration of how the traditional educational environment, particularly in the post-secondary world, is changing as a consequence of the influx of new technology. Students come to the classroom or lecture hall expecting to have their habits and tastes, gleaned from the online world, replicated in an Educational environment. Faculty who do not adapt face enormous obstacles, and faculty that do adapt run the risk of eroding the integrity of what they have been trained to teach. Students now have access to myriad of technologies that instead of supplementing the educational process, have actually taken it over. Issues that run from plagiarism to the erosion of the humanities are now rampant concerns in the post secondary world. Behavior issues, YouTube videos, cell phones, and the incessant clicking of the computer keys are just a few of the technologies altering the educational landscape. Moss discusses that it is now not only how we learn, but what we continue to teach, and how that enormously important legacy is protected. Education and Its Discontents: Teaching, the Humanities, and the Importance of a Liberal Education in the Age of Mass Information, by Mark Moss, argues that education has changed and the supremacy of the book and the lecture is now open for debate. What has been gained over the last five hundred years is now susceptible to the vagaries of technology, which compel us to question their continuing relevance.

**A Quantum City** Ludger Hovestadt, Vera Bühlmann, 2015-06-16 We know the specific strengths of various cities, are aware of their ranking, are able to discuss their density and growth. But what do all cities have in common, what do we know about the “lowest common denominator”? The “city as a species”, the “primal genetic material of the city”: this is the subject of A Quantum City. This colossal work is a love letter to the city and intellectual culture. We follow the fictional narrative

figure, Orlando, beginning in 320 BC, on his odyssey through the Western world up to the present time. The book is divided into four interrelated chapters and can be read page by page in a discursive manner, however randomly browsing through the book also offers new and multi-faceted interpretations. Great intellectual achievements are compared with obscure and mundane events. A Quantum City offers an inspiring view of the city that is in us and around us.

He's good people--he's written novels (Ripper, Dead Mann Walking) and lotsa comics (X-Files, Nancy Drew, Power Rangers). But here's the problem: This book is about puppies.
