Kenneth Glyn Jones, Webb Society

Sky Watchers Vicki C. Hayes, 2014-09-01 Hi-Lo Chapter Books for Children. This series of short novels was designed to engage a broad spectrum of struggling readers. No longer will upper-elementary students have to read material junior to their maturity and interests. Characters are age appropriate and come from diverse cultures and backgrounds. Science fiction, sports, paranormal, realistic life, historical fiction, and fantasy are just a few of the many genres. Books are no higher than a 1.5 reading level, with illustrations on every spread that support visual literacy and draw kids into the text. Dez and Jax are both in the sixth grade. Now they can be Sky Watchers, kids who patrol the sky path to school on their sky bikes. The Sky Watchers protect their schoolmates from spinners, little flat disks that have been programmed to steal bike packs and take them to the ground below. Nobody but the gang kids go below the tree line. It's polluted down there.

Enoch and Metatron Collection Scriptural Research Institute, 2020-06-11 The five books of Enoch are a collection of books written in Semitic languages, and often grouped together as the 'Book of Enoch,' or '1st Enoch.' The books were likely written at different points in time and different Semitic languages. The first book was the Book of the Watchers, which is generally considered to be the oldest book in the collection, however, the age of the book is debated. The book is now known to have originated long before Christianity since the discovery of the Dead Sea Scrolls, however, was lost for well over a thousand years to Europeans, and assumed to be a Christian-era work when the Europeans rediscovered it in Ethiopia. The five books of Enoch only survive in Ge'ez, the classical language of Ethiopia, however, do not survive intact, and some sections of text do not survive. Other books attributed to Enoch, including the Secrets of Enoch, which is also called the 2nd Book of Enoch, however, is not the same text as the Semitic 2nd Book of Enoch. The Secrets of Enoch has only survived in the Old Slavonic language in the Balkan Peninsula and may be a partial paraphrase of the Book of the Watchers. Another text attributed to Enoch is the Revelation of Metatron, also called the Revelation of Metatron, Book of the Palaces, Book of Rabbi

Ishmael the High Priest, or the 3rd Book of Enoch, however, is not the same text as the Ethiopian 3rd Book of Enoch, or any section of the Semitic books of Enoch. The Revelation of Metatron is written as a sequel to the first five books of Enoch and is written from the perspective of Enoch in the sky, where his angelic name was Metatron. The Revelation of Metatron appears to have been written in Hebrew but includes several Greek and Latin words that have led scholars to assume the text is a Jewish text written in the Christian era. The Revelation of Metatron is a medieval Jewish work, that claims to have been written in the late-2nd century AD by Rabbi Ishmael 'the High Priest.' It is known by various names, including the Sepher Hekhalot (Book of the Palaces), the 3rd Book of Enoch, and the Book of Rabbi Ishmael the High Priest, although its most common name, is the Revelation of Metatron. The earliest name for the work was likely the Sepher Hekhalot (Book of the Palaces), however, all copies have been so reworked that it cannot be known for sure. It is clear that Rabbi Ishmael did not write it, and his name, which is in almost every verse, was inserted to replace another name that the medieval publisher did not want associated with the book. Rabbi Ishmael was the author of the book called Hekhalot Rabbati (Greater Palaces) sometime between 100 and 130 AD, and his name was later used as a pseudonym by many authors of Merkabah literature between 200 and 1000 AD.

The Sky Atlas Edward Brooke-Hitching,2020-02-25 The Sky Atlas unveils some of the most beautiful maps and charts ever created during humankind's quest to map the skies above us. This richly illustrated treasury showcases the finest examples of celestial cartography—a glorious art often overlooked by modern map books—as well as medieval manuscripts, masterpiece paintings, ancient star catalogs, antique instruments, and other curiosities. This is the sky as it has never been

presented before: the realm of stars and planets, but also of gods, devils, weather wizards, flying sailors, ancient aliens, mythological animals, and rampaging spirits. • Packed with celestial maps, illustrations, and stories of places, people, and creatures that different cultures throughout history have observed or imagined in the heavens • Readers are taken on a tour of star-obsessed cultures around the world, learning about Tibetan sky burials, star-covered Inuit dancing coats, Mongolian astral prophets and Sir William Herschel's 1781 discovery of Uranus, the first planet to be found since antiquity. • A gorgeous book that delights stargazers and map lovers alike With thrilling stories and gorgeous artwork, this remarkable atlas explores our fascination with the sky across time and cultures to form an extraordinary chronicle of cosmic imagination and discovery. The Sky Atlas is a wonderful book for map lovers, history buffs, and stargazers, but also for those who are intrigued by the many wonderful and bizarre ways in which humans have sought to understand the cosmos and our place in it. • A unique map book that expands beyond the terrestrial and into the celestial • A wonderful book for map lovers, obscure-history fans, mythology buffs, and astrology and astronomy lovers • Great for those who enjoyed What We See in the Stars: An Illustrated Tour of the Night Sky by Kelsey Oseid, Maps by Aleksandra Mizielinska and Daniel Mizielinski, and Atlas of Remote Islands: Fifty Islands I Have Never Set Foot On and Never Will by Judith Schalansky

Sky Wolf's Call Eldon Yellowhorn,Kathy Lowinger,2022-04-05 From healing to astronomy to our connection to the natural world, the lessons from Indigenous knowledge inform our learning and practices today. How do knowledge systems get passed down over generations? Through the knowledge inherited from their Elders and ancestors, Indigenous Peoples throughout North America have observed, practiced, experimented, and interacted with plants, animals, the sky, and the waters over millennia. Knowledge keepers have shared their wisdom with younger people through oral history, stories, ceremonies, and records that took many forms. In Sky Wolf's Call, award-winning author team of Eldon Yellowhorn and Kathy Lowinger reveal how Indigenous knowledge comes from centuries of practices, experiences, and ideas gathered by people who have a long history with the natural world. Indigenous knowledge is explored through the use of fire and water, the acquisition of food, the study of astronomy, and healing practices. *A Junior Library Guild Gold Standard Selection
