Mysteries of the French Countryside: Bruno, Chief of Police; The Dark Vineyard; Black Diamond Martin

Walker, 2023-01-17 From internationally acclaimed author Martin Walker comes the first three books in Mysteries of the French Countryside and an introduction to the world of Bruno, Chief of Police Benoît Courrèges, aka Bruno, is a policeman in St. Denis, a small town in the Périgord region of France. When trouble arises, Bruno is on the case, settling local disputes, tracking down lawbreakers, and solving tantalizing mysteries. From a disturbance in the wine business and threats against the truffle trade to murders of national and even international scale, Bruno deals with it all. In story after story, Walker weaves in familiar characters from past novels, whether they are helping Bruno on a case or helping him prepare a delicious meal. Mystery readers will delight in Bruno's adventures, and hunger for more! "With Bruno in charge, there's always time for one of those classic feasts that makes this series such a mouthwatering treat."—The New York Times Book Review "Whether he's preparing a gourmet dinner, enjoying a glass of wine, or solving a murder, it's a pleasure to be in Bruno's company."—Publishers Weekly

The Chocolate War Martin Walker, 2018-05-15 Early on summer mornings, police chief Bruno enjoys wandering the stalls of the weekly market in the village of St. Denis as they are being loaded with wares—ducks, oysters, wooden toys, used books, exotic teas and now, even miniskirts and cellphone cases. St. Denis is changing. But when Bruno's old friend Léopold from Senegal and his young nephew Cali start selling African coffee and chocolate more cheaply than Bruno's old friend Fauquet at his café across the square—Fauquet starts to lose his clientele and a competition erupts between the vendors. As a local taxpayer, Fauquet seeks protection against unfair competition while Leopold and Cali seek the right to do business fairly and protection from the anti-immigrant café-owners in nearby towns. As the rivalry escalates, it's up to Bruno to find a

way for the neighbors of St. Denis to make peace. A Vintage Shorts original. An ebook short.

Accounting for the Holocaust Warwick Funnell,Michele Bigoni,Erin Twyford,2024-06-28 Accounting for the Holocaust:

Enabling the Final Solution reveals how accounting practices allowed the attempted annihilation of Jews by the German Nazis and the Italian Fascists to be carried out with machine-like efficiency and devoid of any moral considerations. This largely hidden aspect of the Holocaust will allow a wide range of readers, both academic and across many sectors of the general population, to understand how the systematic murder of more than six million Jews was expedited by accounting practices and the information that these produced by allowing the humanity of those killed to be denied when they became mere numbers in a process. Readers will gain a new understanding of how the enactment of the scale of the Holocaust was made possible by the way in which accounting practices as “technologies of death” were used to reduce Jews to a life without value. The numerical calculations, techniques, and reports that constitute accounting practices allowed the systematic murder of Jews to be drained of any considerations that would imply that the numbers and costings were related to prescient human beings. These technologies of death also allowed those who managed and organised the murder of Jews to absolve themselves of the actual killings.
