Corporate Entrepreneurship and Innovation Paul Burns,2020-02-15 Written by a highly regarded expert on entrepreneurship, this bestselling textbook provides an engaging and comprehensive overview of corporate entrepreneurship. Now in its fourth edition and fully revised throughout, this accessible text is structured in four key parts that cover everything a student needs to know about the topic. After an initial consideration of what constitutes corporate entrepreneurship and innovation, the author then guides students through the four pillars of entrepreneurial architecture: culture, structure, leadership and strategy. The third section focusses on the entrepreneurial mind-set, including how to encourage creativity, business ideas and developing concepts. Finally, the book draws attention to corporate venturing, examining venture teams, intrapreneurs, market development and the role of shareholder value. To achieve true success, organisations must avoid an ageing product or service portfolio to bring new, innovative ideas to market. Corporate entrepreneurship is inherently risky and therefore requires a fresh approach to strategy.
