Mudejarismo and Moorish Revival in Europe, 2021-03-22 Mudejarismo and Moorish Revival in Europe examines key aspects related to the reception of Ibero-Islamic architecture in medieval Iberia and 19th-century Europe. It challenges prevalent readings of architecture and interiors whose creation was the result of cultural encounters. As Mudéjar and neo-Moorish architecture are closely connected to the Islamic world, concepts of identity, nationalism, religious and ethnic belonging, as well as Orientalism and Islamoscepticism significantly shaped the way in which they have been perceived over time. This volume offers art historical and socio-cultural analysis of selected case studies from Spain to Russia and opens the door to a better understanding of interconnected cultural and artistic phenomena. Contributors are (in order of appearance) Francine Giese, Ariane Varela Braga, Michael A. Conrad, Katrin Kaufmann, Sarah Keller, Elena Paulino Montero, Luis Araus Ballesteros, Ekaterina Savinova, Christian Schweizer, Alejandro Jiménez Hernández and Laura Álvarez Acosta.

The Visual Culture of al-Andalus in the Christian Kingdoms of Iberia Inés Monteiro, 2024-10-11 This book addresses the reception of Islamic visual culture by the northern Iberian kingdoms, by systematically comparing works of art from both sides and fleshing out their historical context. This study includes figurative and iconographic motifs, architectural forms, and even the spolia from constructions and Arabic inscriptions that were embedded in Christian buildings. The Islamic visual culture of al-Andalus was often transformed as it was recreated by Christian hands, bringing to the fore various nuances in the relationship between the two religious communities. Artistic transfer was conditioned by social coexistence between Christians and Muslims—both in the caliphate al-Andalus and in the northern realms—and military conflict. To approach the different ways in which Andalusí visual culture was received in the northern kingdoms, while embracing the vast diversity of case studies available, this book is divided into three thematic sections: Reinterpretation, Appropriation, and

Artistic Transfers. This book will be of interest to scholars working in art history, visual culture, and medieval studies.
