Putting Meaning Into Your Moments Robert Hoff, 2022-11-03 God bless the churches that hear the truth, obey the truth, and teach the truth to others! But there are some churches that seem to be competing with the world to see who can self-destruct first! Hoff, in his book, Put Meaning Into Your Moments calls them the New Age church. He defines their errors as corruption and shows how their leaders are like King Saul, who was afraid of the people and did what they demanded. Entertainment-oriented church programs are like new movies that attract people into a theater. After they've seen it a few times, they lose interest. Kids who were initially attracted by drums and amps are now losing interest in the church. Let's just say it, Liberal Christianity does not last. It's a fraud! The message of the cross of Jesus Christ has the power of God in it, and the New Age church isn't preaching it! They're just making stuff up. Hoff suggests the problem is with their view of the Bible as an inaccurate narrative of creation, sin, and self. To them, Jesus is a two-thousand-year-old senior who knows nothing about cell phones, so how could He know anything about people today. It would be hard to prove this, but people who used to attend church are, no doubt, still yearning for what they didn't find when they were there. The largest church in the world would be the reassembling of these precious souls. If you can imagine yourself overcoming the frustration that is currently stifling your effect on the world around you, then Put Meaning Into Your Moments is your kind of book.

Between Distant Modernities Brittany Powell Kennedy, 2015-02-12 For centuries, Spain and the South have stood out as the exceptional other within US and European nationalisms. During Franco's regime and the Jim Crow era both violently asserted a haunting brand of national selfhood. Both areas shared a loss of splendor and a fraught relation with modernization and retained a sense of defeat. Brittany Powell Kennedy explores this paradox not simply to compare two apparently similar cultures but to reveal how we construct difference around this self/other dichotomy. She charts a transatlantic link between two cultures whose performances of otherness as assertions of selfhood enact and subvert their claims to exceptionality. Perhaps the greatest example of this transatlantic link remains the War of 1898, when the South tried to extract itself from but was implicated in US imperial expansion and nation-building. Simultaneously, the South participated in the end of Spain as an imperial power. Given the War of 1898 as a climactic moment, Kennedy explores the writings of those who come directly after this period and who attempted to regenerate what was perceived as traditional in an agrarian past. That desire recurs over the century in novels from writers as diverse as William Faulkner, Camilo José Cela, Walker Percy, Eudora Welty, Federico García Lorca, and Ralph Ellison. As these writers wrestle with ideas of Spain and the South, they also engage questions of how national identity is affirmed and contested. Kennedy compares these cultures across the twentieth century to show the ways in which they express national authenticity. Thus she explores not only Francoism and Jim Crow, but varied attempts to define nationhood via exceptionalism, suggesting a model of performativity that relates to other exceptional geographies.
