Terence Lovat, Amir Moghadam

The History of Islam Terence Lovat, Amir Moghadam, 2017-09-05 This book applies philosophical and critical textual scholarship to the traditional Islamic narrative in an attempt to distinguish between its historical and interpretive elements. It allows the narrative to be preserved with due respect for its significance and distinctiveness, but in a way that frees it from the ease with which it can slip into the hands of literalists and fundamentalists in order to serve a purpose which is at odds with its original spirit and intention. When radical Islamists use social media to try and convert young followers to a Jihadist cause, they refer often to the narrative about the Prophet, the original Islamic community (Ummah), and the holy book (Qur'an). The references usually imply that these are under threat by infidels, either non-Muslim Westerners or Muslims themselves who follow allegedly errant forms of Islam. The narrative itself is, however, never questioned; it is taken as merely factual with every word to be taken literally, including words that appear intolerant of difference and given to violence. As such, it can serve well the forms of fundamentalism that lie at the heart of radical Islamism and Jihadism. Because of a shortage of critical scholarship about Islam's central narrative, the radical Islamist understanding of it differs too little from that of mainstream Muslims. Neither tends to take sufficient account of the context of the writing, its original purpose or the many interpretive elements that have been overlain. This makes it difficult for mainstream Islamic authorities to counter effectively the radical Islamist discourse or to distinguish moderate and liberal forms of religious practice from radical breakaway forms. In turn, this causes confusion among Muslims, who know the radical Islamists are in error but find it hard to say just why, and even greater confusion and angst among non-Muslims, for whom the allegation that all of Islam is inherently violent and to be feared is clearly being heard by an increasing number. This book sets out to address this problem by applying forms of scholarship that can preserve the best of the Islamic narrative while, at the same time, illustrating just how errant is the radical Islamist understanding of it.

Asabiyya and State Kamal Mirawdeli, 2015-07-10 Ibn Khaldun's chief contribution lies in philosophy of history and sociology. He sought to write a world history pre-ambled by a first volume aimed at offering a theoretical analysis of historical events. This volume, commonly known as *Muqaddimah* or *Prolegomena*, was based on Ibn Khaldun's unique theoretical approach and original scientific contribution and became a masterpiece in literature on philosophy of history and sociology. In this book Dr Kamal Mirawdeli reconstructs Ibn Khaldun's theory of history in a clear systematic way grasping

not only his original themes and innovative ideas but also offering a very accessible analytical context which helps the reader to understand the conditions of the possibility of Ibn Khalduns philosophy of history, its mode of existence and its political function as a tool for explaining the relationship between knowledge and power.

Tectonic Evolution, Collision, and Seismicity of Southwest Asia Rasoul Sorkhabi,2017-12-21 Southwest Asia is one of the most remarkable regions on Earth in terms of active faulting and folding, large-magnitude earthquakes, volcanic landscapes, petroliferous foreland basins, historical civilizations as well as geologic outcrops that display the protracted and complex 540 m.y. stratigraphic record of Earth's Phanerozoic Era. Emerged from the birth and demise of the Paleo-Tethys and Neo-Tethys oceans, southwest Asia is currently the locus of ongoing tectonic collision between the Eurasia-Arabia continental plates. The region is characterized by the high plateaus of Iran and Anatolia fringed by the lofty ranges of Zagros, Alborz, Caucasus, Taurus, and Pontic mountains; the region also includes the strategic marine domains of the Persian Gulf, Gulf of Oman, Caspian, and Mediterranean. This 19-chapter volume, published in honor of Manuel Berberian, a preeminent geologist from the region, brings together a wealth of new data, analyses, and frontier research on the geologic evolution, collisional tectonics, active deformation, and historical and modern seismicity of key areas in southwest Asia.

The History of al-Ṭabarī Vol. 1 Abū Ja'far Muḥammad ibn Jarīr al-Ṭabarī,1988-01-01 Volume I of the thirty-eight volume translation of Ṭabarī's great History begins with the creation of the world and ends with the time of Noah and the Flood. It not only brings a vast amount of speculation about the early history of mankind into sharp Muslim focus, but it also synchronizes ancient Iranian ideas about the prehistory of mankind with those inspired by the Qur'an and the Bible. The volume is thus an excellent guide to the cosmological views of many of Ṭabarī's contemporaries. The translator, Franz Rosenthal, one of the world's foremost scholars of Arabic, has also written an extensive introduction to the volume that presents all the facts known about Ṭabarī's personal and professional life. Professor Rosenthal's meticulous and original scholarship has yielded a valuable bibliography and chronology of Ṭabarī's writings, both those preserved in manuscript and those alluded to by other authors. The introduction and first volume of the translation of the History form a ground-breaking contribution to Islamic historiography in English and will prove to be an invaluable source of information for those who are interested in Middle Eastern history but are unable to read the basic works in Arabic.

Islam and the Infidels David Bukay,2017-07-12 This book discusses Islam, its relationship with the world, and how Muslims perceive the world and their role within it. Using Islamic scriptures and the works of important Muslim clerics, the author explores the Islamic notion that Muslims represent the best of humanity, and as such, have the duty and the right to propagate their faith throughout the world by any means, including violence. Islam and the Infidels warns of the dangers Muslim immigration poses to free societies. Using a diplomacy of deceit, Islamists immigrate to Western societies. Having

done so, they establish closed ethnic communities that are estranged from their host countries, and are breeding grounds for native-born malcontents who may attack and destroy Western nations from within. The author is especially critical of Western apologists who not only pretend that Islam is not inherently aggressive and dangerous, but also denigrate those who point out the threat to liberal values posed by fundamentalist Islamic ideology. Bukay argues that to meet the Islamic threat, the West must understand Islam's true nature, and the best way of doing so is by analysing its scriptures and history. Bukay argues that Western societies should embrace the Judeo-Christian tradition, which is the root of their cultural heritage. In light of the mounting Muslim threat to liberalism in Western societies, citizens should resist oppressive Islamic practices and doctrines rather than accept them.

Rome, Persia, and Arabia Greg Fisher, 2019-11-27 Rome, Persia, and Arabia traces the enormous impact that the Great Powers of antiquity exerted on Arabia and the Arabs, between the arrival of Roman forces in the Middle East in 63 BC and the death of the Prophet Muhammad in AD 632. Richly illustrated and covering a vast area from the fertile lands of South Arabia to the bleak deserts of Iraq and Syria, this book provides a detailed and captivating narrative of the way that the empires of antiquity affected the politics, culture, and religion of the Arabs. It examines Rome's first tentative contacts in the Syrian steppe and the controversial mission of Aelius Gallus to Yemen, and takes in the city states, kingdoms, and tribes caught up in the struggle for supremacy between Rome and Persia, including the city state of Hatra, one of the many archaeological sites in the Middle East that have suffered deliberate vandalism at the hands of the 'Islamic State'. The development of an Arab Christianity spanning the Middle East, the emergence of Arab fiefdoms at the edges of imperial power, and the crucial appearance of strong Arab leadership in the century before Islam provide a clear picture of the importance of pre-Islamic Arabia and the Arabs to understanding world and regional history. Rome, Persia, and Arabia includes discussions of heritage destruction in the Middle East, the emergence of Islam, and modern research into the anthropology of ancient tribal societies and their relationship with the states around them. This comprehensive and wide-ranging book delivers an authoritative chronicle of a crucial but little known era in world history, and is for any reader with an interest in the ancient Middle East, Arabia, and the Roman and Persian empires.

Persepolis Ali Mousavi, 2012-04-19 Persepolis: Discovery and Afterlife of a World Wonder presents the first full study of the history of archaeological exploration at Persepolis after its destruction in 330 BC. Based in part on archival evidence, anecdotal information, and unpublished documents, this book describes in detail the history of archaeological exploration, visual documentation, and excavations at one of the most celebrated sites of the ancient world. The book addresses a broad audience of readers ranging from students of the archaeology, history, and art history of ancient, medieval, and modern Iran to scholars in Classical Studies and Ancient Near Eastern Studies.

The Commentary on the Qur'ān Ṭabarī, 1987 In Islam, the word Tafsir means commentary on the Qur'an, the science of interpreting the sacred book. Of the many commentaries undertaken throughout history, the most famous is unquestionably al-Tabari's Tafsir, written in the 3rd century of Islam. This edition, here abridged from thirty to five volumes and including the full text of the Qur'an in both Arabic and English, is the first English translation of a work considered second only to the Qur'an itself as a sacred Islamic text.
