**Someone To Believe In** Susie Bunt,2020-05-19 In this book, I wanted to give you, the reader, a different perspective on Jesus's life and resurrection through the four gospels. My perspective is coming from a prodigal child of God someone who grew up going to church and knowing about the Bible but never truly knowing what it really meant. In the last few years of my life, I have come to know God through Jesus, and I wanted to share that knowledge. I have found similar books, but they are from professional pastors, evangelists, theologians, and so on. I have yet to find a book on Jesus's life, death, and resurrection from a simple Christian in simple language. Throughout this book, I have gone through Matthew, Mark, Luke, and John and gave you my understanding of Jesus's teachings. Everything is biblical. My hope is for the reader to have that aha! moment while reading this book. I pray that the reader gets a better understanding of who Jesus is and what He has done for us (His lambs), for He is truly the Son of God, the Messiah and our Savior!

The Hanging Gardens of Babylon never existed. Gandhi was a horrible human being.

**I Can't Believe It's Not Buddha!** Bodhipaksa,2018-11-06 Quotes from the Buddha are everywhere: on Facebook, Instagram, coffee mugs, posters. There's only one problem: the Buddha didn't actually say most of them. This humorous and informative book takes these fake Buddha quotes as a launching point for a discussion on what the Buddha really did say, and is a great entry point for those interested in learning more about Buddhism--what it is, and what it isn't. Bodhipaksa, a well-known Buddhist teacher and the founder of fakebuddhaquotes.com, takes a look at some of the quotes that are erroneously attributed to the Buddha, explains the ways in which these disagree (or sometimes agree) with Buddhist teachings, and offers

some genuine examples of the Buddha's words. The perfect gift for the Buddhist in your life and an essential addition to any Buddhist library, *I Can't Believe It's Not Buddha!* is at once humorous and scholarly, and a timely antidote to the fake news that can surround some of the Buddha's teachings.

**The A Priori in Philosophy** Albert Casullo,Joshua C. Thurow,2013-10-24 For much of the past two millennia philosophers have embraced a priori knowledge and have thought that the a priori plays an important role in philosophy itself.

Philosophers from Plato to Descartes, Kant to Kripke, all endorse the a priori and engage in a priori reasoning in their philosophical discussions. Recent work in epistemology and experimental philosophy, however, has raised questions about both the existence of a priori knowledge and the centrality of the a priori for philosophy. This collection of essays aims to advance the discussion of the a priori and its role in philosophy by addressing four issues. The first is whether intuitions provide evidence for philosophical propositions, whether that evidence is a priori, and whether the results of experimental philosophy affect the evidential and a priori status of intuitions. The second is whether there are explanations of the a priori and what range of propositions can be justified and known a priori. The third is whether a priori justified beliefs are needed in order to avoid some skeptical worries. The fourth is whether certain recent challenges to the existence or significance of the a priori are successful. The contributors include a mix of young and established philosophers, including some of the most prominent voices in philosophy today.

**To Believe or Not to Believe** Jack Perkins, DMin. LADC, 2022-10-12 Research has shown there is a great divide between the church and the unaffiliated, to include those who tend toward atheism. This concern inspired the author to step away from full-time ministry to work as a counselor in a state-owned and -operated residential facility to better understand the thought processes of those who are not invested in Christianity. He became aware of an us-versus -them mindset held by some Christians; this attitude has resulted in Christians drawing a tight circle around themselves that has created a barrier for reaching those not affiliated with the church. There are several consequences. First, it has resulted in a deep decline in baptisms and church affiliation for churches; less than 50 percent of Americans surveyed are members of a church. Second, it has resulted in Christians believing there is no hope for those outside the church. Third, the gospel presentation utilized by many is to continually make jabs at the unaffiliated, bordering on a scare tactic. Too many churches have attempted to use revival-era styles of evangelism, contemporary approaches, and/or a social perspective; however, the chasm has widened. This book takes an in-depth look at the philosophical systems that keep people from embracing Christianity. The author also provides a theological model for helping others understand a theological base for the Christian worldview. The greatest contribution of the book is the way it offers hope for reaching the unaffiliated and provides practical ways of connecting with those outside the church.

**Freedom to Believe** Ol'ga Sedakova, 2010 Olga Sedakova, one of Russia's great living poets, is also a deep and brilliant thinker. This collection of essays, her first in English, demonstrates that the legacy of such poet-essayists as Osip Mandelstam and Joseph Brodsky lives on in Russian culture. Andrew Wachtel, Bertha and Max Dressler Professor of the Humanities Northwestern University --

**Aging Families and Use of Proverbs for Values Enrichment** Vera R Jackson, 2014-05-12 Those providing services to older persons must develop intervention strategies that are relevant to their clients' life experiences. Aging Families and Use

of Proverbs for Values Enrichment presents administrators, practitioners, educators, researchers, and students with intervention models that acknowledge and build upon the proverbs orientation of the older client. This insightful book offers information from contributing authors who have professional and personal experience with the use of proverbs. Proverbs, pithy sayings that underline basic life truths, are shown in this book to work as transmitters of values and as assessment tools. To improve the ability of service programs addressing the needs of older persons, *Aging Families and Use of Proverbs for Values Enrichment* delineates existing approaches that are low-cost or no cost to the service provider and beneficial to older persons. Moreover, these practices are considered within the context of a conceptual model of proverbs intervention programs for older persons that takes into consideration principles of care, cultural diversity, and family traditions. Contributors examine human competencies, coping mechanisms, and limitations, as well as other more general topics: *Rehabilitation*: Dispels the myth that older persons can not break long-term habits and learn new things that will improve their lives. *Intergenerational Transmission*: Discusses family-oriented and cultural values that are passed down from generation to generation via oral tradition. *Coping with Life Events*: Addresses proverbs as coping mechanisms for surviving the social transitions of life. *Health and Health Care*: Dispels the myth that some health care practices are taboo among older persons. *Cultural and Family Ties*: Discusses proverbs as the cornerstone of family sharing regarding life's lessons. *Spirituality*: Contrasts African American religiosity with spirituality. Discusses proverbs as messages of faith and hope. Any person who provides services to older persons--social workers, counselors, physicians, nurses, ministers and other members of the clergy, speech and physical therapists, rehabilitation counselors, and family therapists--can benefit from using proverbs, as shown in this book, in their care approach.

**What Do Christians Believe?** Malcolm Guite, 2020-03-31 A lucid summary and interpretation of the Christian faith from one of the leading Christian poets of our time ( Jeremy Begbie, Duke University). I give you a new commandment, that you love one another. Just as I have loved you, you also should love one another.—Jesus Christ Christianity began as a minor sect within Judaism and has become one of the major world religions. What started as a small group of people who shared the same language, lifestyle and background is now a movement which embraces many different languages and cultures, giving rise to an astonishing variety of practices and interpretations—yet all with a common basis of shared faith inspired by the teaching, life, death and new life of a carpenter from Nazareth. How did this happen? *What Do Christians Believe?* was written for the reader looking for quick practical insights into the beliefs and practices of Christianity. Jesus himself identified love as the essential element in both worship and daily life. Using this teaching, and the core Christian belief that Jesus was God's way of opening himself to humanity, theologian, poet, and songwriter Malcolm Guite explains the inner meaning of such key Christian teachings as atonement, redemption and the concept of God as Trinity.

*Find What You Believe* Thomas Nelson, 2013-04-08 *Find What You Believe* combines the best features of a concordance,

topical Bible, and dictionary. Entries on everything from people and places to theological concepts and biblical principles appear in one convenient volume. With more than 8,000 entries, no other A to Z guide offers such a wide range of topics.

**Educating People of Faith** John H. Van Engen, 2004 A much-needed addition to the emerging literature on the formative power of religious practices, *Educating People of Faith* creates a vivid portrait of the lived practices that shaped the faith of Jews and Christians in synagogues and churches from antiquity up to the seventeenth century. This significant book is the work of Jewish, Roman Catholic, Orthodox, and Protestant scholars who wished to discover and describe how Jews and Christians through history have been formed in religious ways of thinking and acting. Rather than focusing solely on either intellectual or social life, the authors all use the concept of practices as they attend to the embodied, contextual character of religious formation. Their studies of religious figures, community life, and traditional practices such as preaching, sacraments, and catechesis are colorful, detailed, and revealing. The authors are also careful to cover the nature of religious education across all social levels, from the textual formation of highly literate rabbis and monks engaged in Scripture study to the local formation of illiterate medieval Christians for whom the veneration of saints' shrines, street performances of religious dramas, and public preaching by wandering preachers were profoundly formative. *Educating People of Faith* will benefit scholars and teachers desiring a fuller perspective on how lived practices have historically formed people in religious faith. It will also be useful to practical theologians and pastors who wish to make the resources of the past available to practitioners in the present. Contributors: John C. Cavadini Anne L. *Who's Got God?* Jeremy Seely, 2011-06-01 A spirited and respectful conversation about two different faiths--Christianity and New Thought--between two colleagues. Along the way the authors discover that, although profound differences do exist, common ground can be found more often than expected. Readers may find their own dormant spirituality re-awakened, or even be persuaded to one or the other world-views presented here. Where will you end up? God only knows...
