

The Ship Poem About Death

Bethan Jones

The Last Poems of D.H. Lawrence Bethan Jones, 2016-03-03 In the first book to take D. H. Lawrence's Last Poems as its starting point, Bethan Jones adopts a broadly intertextual approach to explore key aspects of Lawrence's late style. The evolution and meaning of the poems are considered in relation to Lawrence's prose works of this period, including *Sketches of Etruscan Places*, *Lady Chatterley's Lover*, and *Apocalypse*. More broadly, Jones shows that Lawrence's late works are products of a complex process of textual assimilation, as she uncovers the importance of Lawrence's reading in mythology, cosmology, primitivism, mysticism, astronomy, and astrology. The result is a book that highlights the richness and diversity of his poetic output, also prioritizing the masterpieces of Lawrence's mature style which are as accomplished as anything produced by his Modernist contemporaries.

Passage to the Center Daniel Tobin, 2014-07-11 Nobel Laureate Seamus Heaney, author of nine collections of poetry and three volumes of influential essays, is regarded by many as the greatest Irish poet since Yeats. *Passage to the Center* is the most comprehensive critical treatment to date on Heaney's poetry and the first to study Heaney's body of work up to *Seeing Things* and *The Spirit Level*. It is also the first to examine the poems from the perspective of religion, one of Heaney's guiding preoccupations. According to Tobin, the growth of Heaney's poetry may be charted through the recurrent figure of the center, a key image in the relationship that evolved over time between the poet and his inherited place, an evolution that involved the continual re-evaluation and re-vision of imaginative boundaries. In a way that previous studies have not, Tobin's work examines Heaney's poetry in the context of modernist and postmodernist concerns about the desacralizing of civilization and provides a challenging engagement with the work of a living master.

Complete Poems D. H. Lawrence, 1994-01-01 This collection includes all the poems from the incomplete *Collected Poems* of 1929 and from the separate smaller volumes issued during Lawrence's lifetime; uncollected poems; an appendix of juvenilia and another containing variants and early drafts; and all Lawrence's critical introductions to his poems. It also includes full textual and explanatory notes. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. D.H. Lawrence, the Poet who was Not Wrong Douglas A. Mackey, 1986-01-01 Although D. H. Lawrence is justly celebrated as the author of such seminal novels as *The Rainbow*, *Sons and Lovers*, *Women in Love*, *The Plumed Serpent*, and *Lady Chatterley's Lover*, he also produced a considerable body of poetry, collected together in a thousand-page volume in 1928. The overall quality of the writer's verse is superb. It is permeated with the Lawrencean voice, the incandescent language, the recurrent symbology, the sense of wonder at nature, the subtle portrayals of human relationships, and the metaphysical thrust. Mackey provides the first lengthy examination of Lawrence's poems. Complete with Chronology, Bibliography, and Index.

The Francis Daniel Pastorius Reader Patrick Erben, Alfred Brophy, Margo Lambert, 2019-08-02 Francis Daniel Pastorius was one of the first German settlers to Pennsylvania and a touchstone figure of German-American cultural heritage. This monumental anthology presents a selection of his many writings in one volume. Pastorius sailed to North America as a Pietist but found a unique home among the Quakers in Pennsylvania. Within this early modern religious context, he was a lawyer, educator, and community leader; a polymath; and a prolific writer and collector of knowledge. At the turn of the eighteenth century, Pastorius held one of the largest manuscript collections in North America and wrote voluminously in multiple languages. His collecting, curation, and dissemination represents a unique look at the ways information was stored, processed, and utilized during the seventeenth and eighteenth centuries in both North America and Europe. This rich selection of Pastorius's writings on religion, education, gardening, law and community, and the colony of Pennsylvania—as well as letters, poems, and numerous encyclopedic and bibliographic works—shows the mind of a true humanist in action. Pastorius's works have long been important to the archival study of early German settlement and the Atlantic world. Now available together, transcribed, translated, and annotated, his writings will have widespread significance to the study of early American literature and history.

Coming After Alice Notley, 2010-03-10 *Coming After* gathers critical pieces by acclaimed poet Alice Notley, author of *Mysteries of Small Houses* and *Disobedience*. Notley explores the work of second-generation New York School poets and their allies: Ted Berrigan, Anne Waldman, Joanne Kyger, Ron Padgett, Lorenzo Thomas, and others. These essays and reviews are among the first to deal with a generation of poets notorious for their refusal to criticize and theorize, assuming the stance that only the poems matter. The essays are characterized by Notley's strong, compelling voice, which transfixes the reader even in the midst of professional detail. *Coming After* revives the possibility of the readable book of criticism.

The Life of Metrical and Free Verse in Twentieth-Century Poetry Jon Silkin, 2016-07-27 In a wide-ranging and compelling account of the life of metrical and free verse in the twentieth century, poet and critic Jon Silkin deepens our understanding of the way poetry works on us. He begins from the premiss that two modes of verse, free and metrical, engage the creative energies of poetry now, creating a rich, fertile environment capable of yielding work valuable to poetry itself and to the society which has given it life. With a practitioner's empathy Silkin reads the poetry of Whitman, Hopkins, Eliot, Pound, Lawrence, Dylan Thomas, Bunting and eight British poets from the post-second World War period to illustrate how free and metrical verse create, separately or together, a poetic harmony. Additionally, he includes crucial statements on modern poetry from poets themselves, concluding with a fine memoir of Basil Bunting by Connie Pickard, published in book-form for the first time.

The Poetics of Otherness J. Hart, 2015-03-04 Using the concept of otherness as an entry point into a discussion of poetry, Jonathan Hart's study explores the role of history and theory in relation to literature and culture. Chapters range from trauma in Shakespeare to Bartolomé de Las Casas' representation of the Americas to the trench poets to voices from the Holocaust.

Petronius the Poet Catherine Connors, Catherine M. Connors, 1998-01-15 The ancient novel, previously relegated to the margins of literary study, has recently taken its place at centre stage. Petronius' *Satyricon*, the oldest surviving work of prose fiction, is in many respects an arrestingly modern ancient novel but the inclusion within it of thirty short poems and two long ones introduces an alien feature in need of investigation. In this study, Catherine Connors draws on developments in Latin literary criticism to take a comprehensive approach to the *Satyricon*'s poems, reminiscences of poetic texts, and the figure of the poet, assessing the ways in which they fragment and refashion established literary forms into a new amalgam of prose fiction. This book will be of interest to students of Latin literature, Neronian culture, and the early history of the novel. All Latin and Greek is translated.

Beautiful Enemies Andrew Epstein, 2006-09-21 Although it has long been commonplace to imagine the archetypal American poet singing a solitary Song of Myself, much of the most enduring American poetry has actually been preoccupied with the drama of friendship. In this lucid and absorbing study, Andrew Epstein argues that an obsession with both the pleasures and problems of friendship erupts in the New American Poetry that emerges after the Second World War. By focusing on some of the most significant postmodernist American poets--the New York School poets John Ashbery, Frank O'Hara, and their close contemporary Amiri Baraka--*Beautiful Enemies* reveals a fundamental paradox at the heart of postwar American poetry and culture: the avant-garde's commitment to individualism and nonconformity runs directly counter to its own valorization of community and collaboration. In fact, Epstein demonstrates that the clash between friendship and nonconformity complicates the legendary alliances forged by postwar poets, becomes a predominant theme in the poetry they created, and leaves contemporary writers with a complicated legacy to negotiate. Rather than simply celebrating friendship and poetic community as nurturing and inspiring, these poets represent friendship as a kind of exhilarating, maddening contradiction, a site of attraction and repulsion, affinity and rivalry. Challenging both the reductive critiques of American individualism and the idealized, heavily biographical celebrations of literary camaraderie one finds in much critical discussion, this book provides a new interpretation of the peculiar dynamics of American avant-garde poetic communities and the role of the individual within them. By situating his extensive and revealing readings of these highly influential poets against the backdrop of Cold War cultural politics and within the context of American pragmatist thought, Epstein uncovers the collision between radical self-reliance and the siren call of the interpersonal at the core of postwar American poetry.
