A Distant Mirror Barbara W. Tuchman, 1987-07-12 A “marvelous history”\* of medieval Europe, from the bubonic plague and the Papal Schism to the Hundred Years’ War, by the Pulitzer Prize-winning author of *The Guns of August* \*Lawrence Wright, author of *The End of October*, in *The Wall Street Journal* The fourteenth century reflects two contradictory images: on the one hand, a glittering age of crusades, cathedrals, and chivalry; on the other, a world plunged into chaos and spiritual agony. In this revelatory work, Barbara W. Tuchman examines not only the great rhythms of history but the grain and texture of domestic life: what childhood was like; what marriage meant; how money, taxes, and war dominated the lives of serf, noble, and clergy alike. Granting her subjects their loyalties, treacheries, and guilty passions, Tuchman re-creates the lives of proud cardinals, university scholars, grocers and clerks, saints and mystics, lawyers and mercenaries, and, dominating all, the knight—in all his valor and “furious follies,” a “terrible worm in an iron cocoon.” Praise for *A Distant Mirror* “Beautifully written, careful and thorough in its scholarship . . . What Ms. Tuchman does superbly is to tell how it was. . . . No one has ever done this better.”—*The New York Review of Books* “A beautiful, extraordinary book . . . Tuchman at the top of her powers . . . She has done nothing finer.”—*The Wall Street Journal* “Wise, witty, and wonderful . . . a great book, in a great historical tradition.”—*Commentary*

Distant Mirror. The Calamitous 14th Century Barbara W. TUCHMAN,1988

*A Distant Mirror* Barbara Wertheim Tuchman,1979-11-01 Wise, witty, and wonderful . . . A great book, in a great historical tradition. CommentaryThe 14th century gives us back two contradictory images: a glittering time of crusades and castles, cathedrals and chivalry, and a dark time of ferocity and spiritual agony, a world plunged into a chaos of war, fear and the Plague. Barbara Tuchman anatomizes the century, revealing both the great rhythms of history and the grain and texture of domestic life as it was lived.

Chaucer Janet Hubbard-Brown,2009 Provides a look at the life, works, and times of fourteenth century English poet Geoffrey Chaucer.

**The Gutenberg Revolution** Richard Abel,2017-07-12 One of the most puzzling lapses in accounts of the rise of the West following the decline of the Roman Empire is the casual way historians have dealt with Gutenberg's invention of printing. The cultural achievements that followed the fifteenth century, when the West moved from relative backwardness to remarkable, robust cultural achievement, would have been impossible without Gutenberg's gift and its subsequent widespread adoption across most of the world. Richard Abel follows the radical cultural impact of the printing revolution from the eighth century to the Renaissance, addressing the viability of the new Christian/Classical culture. Although this culture proved too fragile to endure, those who salvaged it managed to preserve elements of the Classical substance together with the Bible and all the writings of the Church Fathers. The cultural upsurge of the Renaissance (fourteenth to seventeenth centuries), which resulted in part from Gutenberg's invention, is a major focus of this book. Abel aims to delineate how the cultural revolution was shaped by the invention of printing. He evaluates its impact on the rapid reorientation and acceleration of the cultural evolution in the West. This book provides insight into the history of the printed word, the roots of modern-day mass book production, and the promise of the electronic revolution. It is an essential work in the history of ideas.

*The Covid-19 Pandemic and Global Bioethics* Henk ten Have,2022-05-16 This book demonstrates that the COVID 19 pandemic asks for a a global approach to bioethics. it describes how the pandemic affects the experience of being in a world

that is intrinsically characterized by global connectivity. It demonstrates that a moral vision is necessary to articulate this experience of connectedness. Subsequently, a perspective of global bioethics is introduced, which provides a broader framework than mainstream bioethics, since it highlights the significance of both vulnerability and solidarity. Through a unique global perspective the book addresses the moral challenges of the pandemic, and places the confrontation with death, disease and disability within a wider framework of ethical concerns. This book is of important in the public debate on infectious diseases, and of relevance to health professionals, global health educators, public health experts, as well as policy makers.

**Twenty Battles That Shaped Medieval Europe** Georgios Theotokis, 2019-07-31 Warfare has been central to European history for millennia; *Twenty Battles that Shaped Medieval Europe* examines the strategy, military and equipment and battle-tactics of European armies in the Middle Ages. Its fundamental aim is to stimulate the reader's interest in the importance of pitched battles in war, and to explain the geo-political gravity of twenty of them from the Battle of Frigidus in AD394 to the Battle of Varna in 1444, taking in such key battles as Hastings in 1066 and Bouvines in 1214.

**Guillaume de Machaut** Lawrence Earp, 2013-08-21 This book provides an overview of the current state of research on Machaut, the major figure of 14th-century French music and poetry, giving fair representation to the many areas of Machaut research that are pursued in fields outside music. Coverage of the current state of knowledge on each of the manuscripts includes the newly discovered Aberystwyth manuscript, described in detail here for the first time. A section on the large narrative poems pulls together recent research of several scholars and offers new views. An up-to-date concordance of the miniatures in all of the illustrated Machaut manuscripts gives information on where published studies and facsimiles may be found. The discography is the most complete list of Machaut recordings yet compiled and provides critical evaluations of recordings most valuable for instruction, according to our latest conception of performance practice in the 14th-century. A biography section organizes the documentary material in a way that will facilitate further research. The bibliography of secondary works cites books, editions, articles, and dissertations (including forthcoming works) from 1740 to 1991, in French, English, the other western European languages, Polish, Russian, and Japanese. The volume is fully indexed.

He introduces us to some of the greatest thinkers of the Western tradition including Abelard, Anselm, Aquinas, Hildegard of Bingen, and Julian of Norwich.

**The Lady Queen** Nancy Goldstone, 2009-11-03 On March 15, 1348, Joanna I, the queen of Naples, stood trial for her life before the Pope and his court in Avignon. She was 20, and accused of murdering her cousin and husband, Hungarian prince Andrew. That she won her acquittal--arguing her own case in Latin--was remarkable in its own right; that she would go on to rule over one of Europe's most glittering courts for more than 30 years was extraordinary. For the first time, Nancy Goldstone tells the full story of one of the most courageous and accomplished women in history, who challenged the powers of her time, and whose life highlights the dynastic rivalries and alliances across Europe in the dramatic 14th century. She was the only woman in her time to rule in her own name. Dedicated to the welfare of her subjects and realm, Joanna reduced crime, built hospitals and churches, encouraged the licensing of women physicians, and lured some of the most important writers and artists of the century to her glamorous, elegant court, which rivaled that of Elizabeth I of England in power and scope. Around her also swirled war, plague, and the intrigue and treachery that would ultimately be her downfall. As Nancy Goldstone reveals, in Joanna's legacy are found the seeds of both the Renaissance and the Reformation. For anyone who has enjoyed the works of Alison Weir, Amanda Foreman, and Antonia Fraser, *The Lady Queen* will be must reading.

**Lonergan and Historiography** Thomas J. McPartland, 2010-04-15 Although Bernard Lonergan is known primarily for

his cognitional theory and theological methodology, he long sought to formulate a modern philosophy of history free of progressive and Marxist biases. Yet he never addressed this in any single work, and his reflections on the subject are scattered in various writings. In this pioneering work, Thomas McPartland shows how Lonergan's overall philosophical position offers a fresh and comprehensive basis for considering historiography. Taking Lonergan's philosophy of historical existence into the realm of an epistemological philosophy of history, he demonstrates how the philosopher's approach builds on the actual performance of historians and, as a result, integrates the insights of historical specialists into a framework of functional complementarity. McPartland draws on all of Lonergan's philosophical writing—as well as on the vast literature of historiography—to detail Lonergan's notions of historical method, historical objectivity, and historical knowledge. Along the way, he explains what Lonergan means by hermeneutics; by historical description, explanation, ideal-types, and narrative; by evaluative and dialectical analyses; and how these elements are all functionally related to each other. He also delineates the defining features of psychohistory, cultural history, intellectual history, history of ideas, and history of philosophy, indicating how these disciplines play complementary roles in the critical encounter with the past. Ultimately, McPartland argues that Lonergan has established the principles of a historical discipline—the history of consciousness—that weaves together a philosophy of consciousness with rigorous historical research to grasp long-term trends resulting from “differentiations of consciousness.” His work offers a distinct perspective on historical method that takes historical objectivity seriously while providing new insight into the thought of this important philosopher.

**Contesting the Middle Ages** John Aberth, 2018-10-03 Contesting the Middle Ages is a thorough exploration of recent arguments surrounding nine hotly debated topics: the decline and fall of Rome, the Viking invasions, the Crusades, the persecution of minorities, sexuality in the Middle Ages, women within medieval society, intellectual and environmental history, the Black Death, and, lastly, the waning of the Middle Ages. The historiography of the Middle Ages, a term in itself controversial amongst medieval historians, has been continuously debated and rewritten for centuries. In each chapter, John Aberth sets out key historiographical debates in an engaging and informative way, encouraging students to consider the process of writing about history and prompting them to ask questions even of already thoroughly debated subjects, such as why the Roman Empire fell, or what significance the Black Death had both in the late Middle Ages and beyond. Sparking discussion and inspiring examination of the past and its ongoing significance in modern life, Contesting the Middle Ages is essential reading for students of medieval history and historiography.
