**Lungs** Duncan Macmillan,2011-10-01 'I could fly to New York and back every day for seven years and still not leave a carbon footprint as big as if I have a child. Ten thousand tonnes of CO2. That's the weight of the Eiffel Tower. I'd be giving birth to the Eiffel Tower.' In a time of global anxiety, terrorism, erratic weather and political unrest, a young couple want a child but are running out of time. If they over think it, they'll never do it. But if they rush, it could be a disaster.They want to have a child for the right reasons. Except, what exactly are the right reasons? And what will be the first to destruct – the planet or the relationship?

**The Composer on Screen** Paul Fryer,2018-05-15 This collection of new essays explores the many ways in which composers have been depicted in film and what audiences have taken away from such depictions. Beginning with some of the earliest silent film examples--including some of the first feature-length bio-pics ever produced--these essays range from the 12th century abbess Hildegard of Bingen to the great classical and romantic eras of Verdi, Wagner, Berlioz and Strauss, up to the 20th century's Elgar, Delius, Gershwin and Blitzstein.

**I Got Superpowers For My Birthday** Katie Douglas, 2016-10-15 Nothing like being attacked by a slug then held captive by a dragon to put you off your jelly and ice-cream. Ethan, William and Fiona are about as different as three almost-teens can be. The only thing they have in common is that tomorrow is their birthday. And they've just discovered they have superpowers. Which is lucky because someone needs to protect the world from The Darkness. An evil overlord with plans to turn everything to ice. Join our three heroes on an epic quest to save the planet in this new play for ages 7+ from award-winning writer Katie Douglas. I Got Superpowers For My Birthday received its world premiere on 19 July 2016 at Hackney Showroom, London, before transferring to the Edinburgh Festival Fringe in a production by Paines Plough.

**The Effect** Lucy Prebble, Luckstar Enterprises, 2016-09-08 I can tell the difference between who I am and a side effect. The Effect is a clinical romance. Two young volunteers, Tristan and Connie, agree to take part in a clinical drug trial. Succumbing to the gravitational pull of attraction and love, however, Tristan and Connie manage to throw the trial off-course, much to the frustration of the clinicians involved. This funny, moving and perhaps surprisingly human play explores questions of sanity, neurology and the limits of medicine, alongside ideas of fate, loyalty and the inevitability of physical attraction. Following on from the critical and commercial success of Enron, The Effect offers a vibrant theatrical exploration into the human brain via the heart. It received its world premiere at the National Theatre's Cottesloe Theatre in November 2012, starring Billie Piper and Jonjo O'Neill. It is published here in the Modern Classics series alongside an introduction by Miriam Gillinson.

**Wasted** Kate Tempest, 2013-04-11 Wasted is the first play by renowned performance poet Kate Tempest, featuring her

trademark lyrical ferocity in a dynamic theatrical work.

*Straight* DC Moore,2013-12-02 Based on the motion picture *Humpday* (written & directed in 2009 by Lynn Shelton), *Straight* is a razor-sharp new comedy from acclaimed writer D. C. Moore about male friendship, sexuality and how the two things can be blurred more easily than one might think . . . Lewis and Waldorf were inseparable at university. Ten years on and a lot has changed. In the middle of a drunken night out, they make a bet that will take their friendship to whole new level. You'll never look at your best friend in the same way again . . . Adapted for the stage by award-winning writer D. C. Moore, author of *Town*, *Honest*, *Alaska*, and *The Empire* (all published by Methuen Drama) *Straight* premieres in the Crucible Lyceum Studio, directed by Richard Wilson.

*The Cambridge Companion to Theatre and Science* Kirsten E. Shepherd-Barr,2020-12-03 Theatre has engaged with science since its beginnings in Ancient Greece. The intersection of the two disciplines has been the focus of increasing interest to scholars and students. The *Cambridge Companion to Theatre and Science* gives readers a sense of this dynamic field, using detailed analyses of plays and performances covering a wide range of areas including climate change and the environment, technology, animal studies, disease and contagion, mental health, and performance and cognition. Identifying historical tendencies that have dominated theatre's relationship with science, the volume traces many periods of theatre history across a wide geographical range. It follows a simple and clear structure of pairs and triads of chapters that cluster around a given theme so that readers get a clear sense of the current debates and perspectives.

*The Oxford Handbook of Politics and Performance* Shirin Rai,Milija Gluhovic,Silvija Jestrovic,Michael Seward,2021 While political scientists and political theorists have long been interested in social and political performance, and theatre and performance researchers have often focused on the political dimensions of the live arts, the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored. This volume brings together leading scholars in the fields of Politics and Performance--drawing on experts across the fields of literature, law, anthropology, sociology, psychology, and media and communication, as well as politics and theatre and performance--to map out and deepen the evolving interdisciplinary engagement. Organized into seven thematic sections, the volume investigates the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines--and that to a large extent they also share a common communicational base and language.

**Life, Re-Scaled** Liliane Campos,Pierre-Louis Patoine,2022-10-11 This edited volume explores new engagements with the life sciences in contemporary fiction, poetry, comics and performance. The gathered case studies investigate how recent creative work reframes the human within microscopic or macroscopic scales, from cellular biology to systems ecology, and engages with the ethical, philosophical, and political issues raised by the twenty-first century's shifting views of life. The collection thus examines literature and performance as spaces that shape our contemporary biological imagination.

Comprised of thirteen chapters by an international group of academics, *Life, Re-Scaled: The Biological Imagination in Twenty-First-Century Literature and Performance* engages with four main areas of biological study: 'Invisible scales: cells, microbes and mycelium', 'Neuro-medical imaging and diagnosis', 'Pandemic imaginaries', and 'Ecological scales'. The authors examine these concepts in emerging forms such as plant theatre, climate change art, ecofiction and pandemic fiction, including the work of Jeff Vandermeer, Jon McGregor, Jeff Lemire, and Extinction Rebellion's Red Rebel Brigade performances. This valuable resource moves beyond the biological paradigms that were central to the nineteenth and twentieth centuries, to outline the specificity of a contemporary imagination. *Life, Re-Scaled* is crucial reading for academics, scholars, and authors alike, as it proposes an unprecedented overview of the relationship between literature, performance and the life sciences in the twenty-first century.

*The Theatre of Anxiety* Leila Michelle Vaziri, 2024-10-21 We are living in times when populism, war and climate change are all sources of anxiety caused by overlapping crises. Anxiety is a phenomenon that is not just reflected everywhere around us but is also increasingly manifesting itself in contemporary drama: particularly in the last five to ten years many new British dramas and theatre productions have given a stage to anxiety. Given this central role of anxiety, the aim of this study is to outline the interplay of theatre and anxiety on both a thematic and aesthetic level. It argues that a strand of contemporary theatre that combines topics of social, ecological, technological and pandemic importance with investigations into the philosophical and aesthetic implications of anxiety has come to prominence in recent years: the theatre of anxiety. This is traced across exemplary readings of a number of contemporary British plays by playwrights such as Caryl Churchill, Zinnie Harris, Alistair McDowall and others. They show that contemporary drama and performance both aesthetically and thematically reflect and comment on global crises and catastrophes through the lens of anxiety as a feeling that 'colours' the perception of and reaction to these social and political conditions.

Forms of Emotion Peta Tait, 2021-11-29 *Forms of Emotion* analyses how drama, theatre and contemporary performance present emotion and its human and nonhuman diversity. This book explores the emotions, emotional feelings, mood, and affect, which make up a spectrum of 'emotion', to illuminate theatrical knowledge and practice and reflect the distinctions and debates in philosophy, neuroscience, psychology, and other disciplines. This study asserts that specific forms of emotion are intentionally unified in drama, theatre, and performance to convey meaning, counteract separation and subversively champion emotional freedom. The book progressively shows that the dramatic and theatrical representation of the nonhuman reveals how human dominance is offset by emotional connection with birds, animals, and the natural environment. This book will be of great interest to students and researchers interested in the emotions and affect in dramatic literature, theatre studies, performance studies, psychology, and philosophy as well as artists working with emotionally expressive performance.

**The Playwright's Manifesto** Paul Sirett, 2022-09-08 Shortlisted for the STR Theatre Book Prize 2023 A manifesto for the future of playwriting, this book challenges you to be a part of that future in the belief that it is fundamentally important to write plays. Plays help us understand ourselves, others, and the world around us. Reading this book, you will be challenged to learn your craft, explode what you know, prioritise what is important to you, and write in the way that only you can write. Most books on playwriting explain how to create a believable character in a story driven by plot. This book, however, goes even further in its exploration of the playwright's most valuable tool: theatricality. By learning from the past, and the present, the playwrights of tomorrow can create new, vivid, theatrical drama for the future. This manifesto also examines the process of writing, the art of collaboration, and the impact of writing on a playwright's mental health. It identifies the highs and lows, as well as the trials and tribulations, of life as a playwright in today's world. Theatre is a living artform. It is time for playwrights to acknowledge that fact and to celebrate the unique, primal thrill that a live theatre experience offers us. The future of playwriting is in your hands. Do you accept the challenge?

*Lockdown Shakespeare* Gemma Kate Allred, Benjamin Broadribb, Erin Sullivan, 2022-06-16 This edited collection offers the first in-depth analysis and sourcebook for 'Lockdown Shakespeare'. It brings together scholars of stage, screen, early modern and adaptation studies to examine the work that emerged during the Covid-19 pandemic and considers issues of form, liveness, reception, presence and community. Interviews with theatre makers and artists illuminate the challenges and benefits of creating new work online, while educators consider how digital tools have facilitated the teaching of Shakespeare through performance. Together, the chapters in this book offer readers the definitive work on the performance and adaptation of Shakespeare online during the pandemic. From *The Show Must Go Online*, which presented Shakespeare's First Folio via YouTube, to Creation Theatre and Big Telly's interactive *The Tempest* and *Macbeth*, which used Zoom as their stage, the book documents the variety and richness of work that emerged during the pandemic. It reveals how, by taking Shakespeare online in new and innovative ways, the theatre industry sparked the evolution of new forms of performance with their own conventions, aesthetics and notions of liveness. Among the other productions discussed are Arden Theatre Company's *A Midsummer Night's Dream*, Tender Claws' 'The Under Presents: *Tempest*', The Shakespeare Ensemble's *What You Will*, Merced Shakespearefest's *Ricardo II*, CtrlAltRepeat's *Midsummer Night Stream*, Sally McLean's *Shakespeare Republic: #AllTheWebsAStage* (The Lockdown Chronicles) and Justina Taft Mattos's *Moore - A Pacific Island Othello*.

**The Environment on Stage** Julie Hudson, 2019-08-08 *The Environment on Stage: Scenery or Shapeshifter?* investigates a pertinent voice of theatrical performance within the production and reception of ecotheatre. Theatre ecologies, unavoidably enmeshed in the environment, describe the system of sometimes perverse feedback loops running through theatrical events, productions, performances and installations. This volume applies an ecoaware spectatorial lens to explore live theatre as a living ecosystem in a literal sense. The vibrant chemistry between production and reception, and the spiralling ideas and

emotions this generates in some conditions, are unavoidably driven by flows of matter and energy, thus, by the natural environment, even when human perspectives seem to dominate. The Environment on Stage is an intentionally eclectic mix of observation, close reading and qualitative research, undertaken with the aim of exploring ecocritical ideas embedded in ecotheatre from a range of perspectives. Individual chapters identify productions, performances and installations in which the environment is palpably present on stage, as it is in natural disasters such as floods, storms, famine, conflict and climate change. These themes and others are explored in the context of site-specificity, subversive spectators, frugal modes of narrative, the shifting 'stuff' of theatre productions, and imaginative substitutions. Ecotheatre is nothing less than vibrant matter that lets the environment speak for itself
