

Manuel De Lithothérapie Gratuit

Murielle Toussaint

Manuel de lithothérapie Michael Gienger, 2005 Pour la première fois, la lithothérapie est présentée comme une méthode de guérison à part entière. La première partie du livre expose les principes de base qui donnent, une fois qu'ils ont été compris, la clé avec laquelle chacun peut ensuite travailler sur les effets thérapeutiques de chaque pierre. La deuxième partie de l'ouvrage présente les pierres une à une, avec des explications détaillées et de très belles illustrations en couleurs. Les informations transmises ne se basent pas sur des sensations subjectives ou des découvertes isolées mais sont toutes le fruit d'un travail de recherche systématique et décrivent uniquement des effets reproductibles. Les descriptions des pierres sont cohérentes, pertinentes et toutes fondées sur leurs propriétés minéralogiques. Les effets des pierres sont décrits sur quatre plans : spirituel, psychique, mental et physique. L'auteur rappelle par ailleurs l'utilisation traditionnelle de chaque pierre et en indique les meilleures applications. Déjà connu par ses nombreuses conférences et formations, Michael Gienger présente ici d'une manière convaincante les fondements de la lithothérapie en expliquant, par une approche scientifique rigoureuse, pourquoi les minéraux sont capables de guérir.

Manuel de lithothérapie Ange-Jacques Séno, 2004-07-12 La lithothérapie est l'application thérapeutique de l'énergie émise par les minéraux. Les pierres ont des pouvoirs énergétiques. Belles et rares, elles sont, en général, associées aux bijoux, mais on connaît moins leurs mystérieuses, mais bien réelles, influences sur notre bien-être. Elles nous protègent, voire nous guérissent. Elles méritent, en tout cas, que l'on s'intéresse de près à leur univers fascinant. Ce traité, clair et concret, va vous permettre de comprendre et de mettre en application, sur vous-même ou un proche, l'extraordinaire pouvoir thérapeutique des pierres et des cristaux. Comment rééquilibrer le système énergétique ? Vaincre le stress ? L'anxiété ? Comment prévenir ou soulager les rhumatismes, une migraine, une arthrose ? Comment éliminer les toxines du corps ou réduire les calculs ? Comment maigrir ? Comment arrêter de fumer ? Des solutions concrètes vous sont ici données, avec l'étude des propriétés énergétiques de 240 pierres et cristaux, ainsi qu'un index thérapeutique de 197 affections regroupant l'essentiel des perturbations énergétiques rencontrées tous les jours. Explorer, comprendre et bénéficier des bienfaits des

énergies des pierres et des cristaux constituent la garantie d'un système énergétique puissant. Ce dernier est très important puisque c'est lui qui provoque certaines pathologies quand il est fragilisé par la vie quotidienne, le stress, les pollutions électromagnétiques, atmosphériques et alimentaires. L'énergie des pierres agit sur trois plans : le physique, le mental, le spirituel. En fonction de nos besoins, de nos faiblesses et de nos désirs, chacune d'entre elles peut répondre à nos attentes. Plus qu'un ouvrage sur la lithothérapie, ce traité est un véritable manuel d'art du bien-être. En somme, un trésor d'informations concrètes, inédites et destinées aussi bien au profane désirant s'informer qu'au professionnel.

Manuel de lithothérapie - Rituels pour purifier, recharger et protéger les cristaux Michael Gienger, 2021-12-02 Les cristaux, nous le savons, sont merveilleusement vivants ! Ils absorbent les messages qu'ils reçoivent, tels que l'humeur ou l'état de santé de ceux qui les portent, c'est pourquoi les chamanes les considèrent comme des cellules de mémoire . Mais si ces informations énergétiques sont négatives, celles-ci peuvent provoquer des sensations désagréables, voire perturber et altérer nos fonctions physiques et psychiques. Dans ce manuel illustré, Michael Gienger présente une série de rituels puissants pour purifier les cristaux en y effaçant toute trace négative. Il nous apprend également à les recharger en énergie positive et à les protéger de toute intrusion énergétique qui pourrait altérer leur efficacité thérapeutique.

Manuel de lithothérapie, ou, L'art du bien-être avec les pierres Michael Gienger, 2022

Manuel pratique de lithothérapie Christian Valentin, 2003 Agate, aigue-marine, ambre, améthyste, azurite, citrine, corail, cornaline, cristal de roche, émeraude, grenat, hématite, jade, lapis-lazuli, magnétite, malachite, oeil de tigre, onyx, pyrite, quartz, rubis, saphir, topaze, tourmaline, turquoise... Plus de 50 pierres précieuses et semiprécieuses sont ainsi répertoriées dans ce manuel pratique qui vous indique comment bénéficier simplement et quotidiennement de leurs vertus. En effet, pour chaque pierre, une fiche indique ses propriétés et influences sur le physique comme sur le mental, et donne des informations précises et précieuses sur ses vertus : comment l'appliquer, sur quelles régions du corps et chakras, à quelle fréquence et pendant combien de temps... Pour certaines de ces pierres semi-précieuses et précieuses, qui font partie de la terre depuis son origine et dont on ne connaît pas encore tous les secrets, leurs vertus ont été attestées maintes fois par les médecines traditionnelles. Et la science moderne confirme souvent la justesse de ces approches. Vous soigner par les pierres, rééquilibrer votre corps et votre mental, harmoniser vos énergies : la lithothérapie ouvre la voie à une connaissance plus intime et profonde de votre corps, des flux d'énergie qui le font vivre et donne ainsi plus de force intérieure et de confiance en vos propres pouvoirs de guérison. Outre une thérapie de santé physique et psychique, la lithothérapie est aussi un langage de beauté et d'harmonie, du seul fait de la beauté de ces pierres. Autre avantage : celles-ci restent pour la majorité bon marché. En les portant, elles vous rappelleront que la santé c'est aussi votre affaire ! Avec ce manuel, vous trouverez rapidement la pierre dont vous avez besoin et saurez comment l'appliquer.

Le sens caché des minéraux, leur vrai pouvoir Judith Tedesco, 2018-07-09 La Voie lactée abrite des milliards d'étoiles formant la cosmogonie parfaite pour relier entre chacune de ces étoiles des énergies interconnectées. Nous sommes, nous, Terriens, des vecteurs de ces connexions qui engendrent la vie elle-même pour une évolution à l'échelle cosmique. Cette vision de l'univers est semblable à celle que l'on peut avoir d'un minéral. Il est formé d'ions, de protons et de neutrons qui s'interconnectent pour faire circuler la vie, l'énergie. C'est de cette énergie dont nous parlons dans ce livre, celle-là même qui forme l'univers et qui nous fait vivre aussi. Une énergie divine certes, mais inhérente à chaque chose vivante sur Terre et dont nous, les hommes, sommes les porteurs vivants. Comment utiliser cette énergie minérale pour nous soigner est le but de ce livre, directement inspiré par l'énergie même des pierres, et traduit par Judith Tedesco, véritable canal cosmique du vivant sur Terre. Les pierres n'ont plus de secrets pour elle car elles lui transmettent leur savoir et leur but pour aider l'homme dans sa tâche d'expansion morale et physique. Laissons-nous pénétrer dans cet univers rayonnant d'énergie cosmique pour accepter d'aller mieux grâce à ces chères magnifiques et extraordinaires pierres qui sont en fait des instruments de bien-être et d'élévation.
