Manzoni Piero Manzoni,2007 Le circa 250 opere esposte documentano l'attività di Piero Manzoni, partendo dai catrami del 1956-57, per passare dal 1958 agli Achrome (in francese, incolore), nei quali l'utilizzo di materiali inediti in pittura si unisce alla ricerca di rigorose strutture formali, mentre scorre parallela la sua produzione di oggetti che coinvolgono la fisicità del corpo umano, come i Fiati d'artista. Il percorso espositivo è arricchito con la presentazione del contesto storico-artistico internazionale in cui Manzoni si è trovato ad operare e con cui si è confrontato, mettendo così in evidenza il suo contributo.

Italian Prints, 1875-1975 Martin Hopkinson,2007 The catalogue begins with an introduction tracing the history of Italian

printmaking from the years in which the country achieved its independence, discussing the parts played by exhibiting organisations, critics and publishers as well as by the artists themselves. Many of the printmakers were also writers, and the links between them and contemporary poets and novelists is also discussed. Italian printmakers made distinctive contributions to European art in the years covered by this exhibition, beginning with the 'realist' Giovanni Fattori, contemporary with the Impressionists, and the symbolist landscapes and imaginative subjects of turn-of-the-century artists. The publication will also discuss prints by artists such as Boccioni, which immediately preceded their adherence to Futurism. The interwar years were notable for the etchings of Morandi, perhaps the greatest still-life artist of the twentieth century, which will be set in the context of the works of his contemporaries.
