**Race and Environmental Justice in the Era of Climate Change and COVID-19** Tatiana Konrad, 2025-08-01

Informed by transdisciplinary research in social and environmental justice, *Race and Environmental Justice in the Era of Climate Change and COVID-19* is a contribution to the scholarly discourse as well as a form of activism for environmental, climate, and health justice. Using race and Indigeneity as an analytical lens, the book explores how justice in the era of climate change and COVID-19 is envisioned, depicted, and achieved. With a focus largely on humans and environments, its explorations of (in)justice illustrate the wide health and safety gaps between individuals, communities, and even nations living under different environmental conditions. The volume also moves beyond the human toward justice for all beings. This book foregrounds voices from world communities, provides solutions to environmental and health crises, and advances environmental justice.

International Encyclopedia of Linguistics William J. Frawley, 2003-05-01 The *International Encyclopedia of Linguistics*, 2nd Edition encompasses the full range of the contemporary field of linguistics, including historical, comparative, formal, mathematical, functional, and philosophical linguistics with special attention given to interrelations within branches of linguistics and to relations of linguistics with other disciplines. Areas of intersection with the social and behavioral sciences--ethnolinguistics, sociolinguistics, psycholinguistics, and behavioral linguistics--receive major coverage, along with interdisciplinary work in language and literature, mathematical linguistics, computational linguistics, and applied linguistics. Longer entries in the *International Encyclopedia of Linguistics*, ranging up to four thousand words, survey the major fields of study--for example, anthropological linguistics, history of linguistics, semantics, and phonetics. Shorter entries treat specific topics within these fields, such as code switching, sound symbolism, and syntactic features. Other short entries define and discuss technical terms used within the various subfields or provide sketches of the careers of important scholars in the history of linguistics, such as Leonard Bloomfield, Roman Jakobson, and Edward Sapir. A major portion of the work is its extensive coverage of languages and language families. From those as familiar as English, Japanese, and the Romance

languages to Hittite, Yoruba, and Nahuatl, all corners of the world receive treatment. Languages that are the subject of independent entries are analyzed in terms of their phonology, grammatical features, syntax, and writing systems. Lists attached to each article on a language group or family enumerate all languages, extinct or still spoken, within that group and provide detailed information on the number of known speakers, geographical range, and degree of intelligibility with other languages in the group. In this way, virtually every known language receives coverage. For ease of reference and to aid research, the articles are alphabetically arranged, each signed by the contributor, supported by up-to-date bibliographies, line drawings, maps, tables, and diagrams, and readily accessible via a system of cross-references and a detailed index and synoptic outline. Authoritative, comprehensive, and innovative, the 2nd edition of the International Encyclopedia of Linguistics will be an indispensable addition to personal, public, academic, and research libraries and will introduce a new generation of readers to the complexities and concerns of this field of study.

**Indigenous Language Education in Critical Times** Julieta Briseño-Roa,Paulina Griño,Vanessa Anthony-Stevens,José Antonio Flores Farfán,2025-05-28 This book builds a space in which a diversity of voices – Indigenous teachers, activists and committed academics – are foregrounded in the processes of Indigenous education with the goal of Indigenous language reclamation. It decenters state systems of education (e.g. schooling) and instead considers the efforts of teachers (defined broadly), community activists and scholars who are developing initiatives to support Indigenous language practices in, around and beyond schooling, thereby emphasizing diverse processes of language reclamation in complex and varied settings. The authors invite the reader to reconsider language reclamation in the face of climate change and neocolonial exploitation, offering a source of radical hope for the future. Central to the book are narratives regarding community-based collaborations, which subvert the asymmetrical power relations between academia and educational practitioners and activists, and call into question the categories constructed by a top-down approach, as well as the colonial relationships that linguistic anthropology and linguistics have constructed within the spaces and people they ‘study’.

Complejo ideológico cultural del maíz ,2023-10-08 Referirnos al maíz en México es hablar de un binomio indisoluble entre el maíz y el ser humano que lo cultiva; ambos, en una relación recíproca y dialéctica, han perfilado su ser en el devenir

del tiempo. El maíz es piedra nodal en las culturas indígenas mesoamericanas, definitivamente agrícolas, y esta actividad campesina en derredor de la milpa se ha convertido en un anclaje de su identidad por medio de los numerosos y profundos cambios sociales que han sufrido a partir de la colonización e integración a proyectos occidentales de corte modernizador. Entonces, el maíz se valora como personaje vivo en la intimidad cultural de estos pueblos agrícolas y se convierte en sustento personificado como padre, alimento sagrado que une —desde su cosmovisión— las esferas humana, natural y divina en una interacción recíproca de responsabilidades compartidas en el mundo como espacio de vecindad común.

Enseñanza superior en tiempos de pandemia Ramón Abraham Mena Farrera,Sergio Iván Navarro Martínez,Dora Elia Ramos Muñoz,Antonio Saldívar Moreno,2023-05-28 El libro Enseñanza superior en tiempos de pandemia presenta las experiencias de acción y cambio en los procesos de formación en la educación superior y de posgrado durante la pandemia producto del contagio por el coronavirus SARS-CoV-2. La obra registra el testimonio del compromiso de la comunidad académica y estudiantil, que no detuvo su labor de enseñanza e investigación en los tiempos más aciagos de la crisis sanitaria. Los trece capítulos y el seminario académico titulado Transformación de los procesos de educación superior y de

posgrado Innovación en tiempos de pandemia dan cuenta de los efectos provocados por la COVID-19 en el modelo de Educación Superior en México, el cual se vio obligado a transformarse desde lo más profundo de las comunidades originarias hasta las masificadas universidades en México. Los autores presentan, analizan y ofrecen su opinión acerca de los retos enfrentados para transformar la estructura y organización educativa y de investigación con el fin de reaccionar ante la contingencia sanitaria y las políticas de confinamiento social en donde se improvisaron, fortalecieron e innovaron procesos de educación y comunicación basados en el uso de Internet para continuar las clases, cursos y seminarios.

**La virgen, los santos y el orbe agrícola en el valle de Toluca** María Teresa Jarquín Ortega, Antonio de Jesús Enríquez Sánchez, 2024-02-15 Los autores, abordan las distintas facetas del ciclo agrícola del maíz verificado en el valle de Toluca, así como la relación que guardan con el ciclo de fiestas católicas. A partir del material etnográfico reportado en diversas localidades del valle de Toluca, los estudios que aquí se presentan intentan dar cuenta de la persistencia de la actividad agrícola y de los cambios que experimentaría en el orden ideológico y ritual a raíz de la introducción del catolicismo en el valle de Toluca, destacando como punto notable la relación que adquiere la virgen María y los santos en la actividad agrícola. Lejos de dar por hecho que el catolicismo desarticuló y suprimió las expresiones religiosas y agrícolas que caracterizaban a la otrora religión mesoamericana y de suponer que ésta se mantuvo intacta, analizan la complejidad de la constitución del fenómeno religioso gestado en el orbe rural, agrario e indígena a partir del siglo XVI, cuando la religión de signo mesoamericano y el catolicismo se vieron inmersos en un proceso de reelaboración simbólica, alimentado gracias a los paralelismos y los distinguos de ambos credos religiosos, por un lado, y conformado a partir de la resistencia y las negociaciones que experimentó la religión en el seno del mundo indígena, por el otro. Enfatizan que las fiestas y el culto a los santos hunden sus raíces en una dimensión económica, sustentada en la labor agrícola, matriz que definió a Mesoamérica en el pasado y subsiste en distintos espacios del valle de Toluca bajo diversas manifestaciones.

**The Lienzo of Tlapiltepec** Arni Brownstone,2015-02-06 In four chapters, a foreword, preface, and two appendices accompanied by detailed, full-color illustrations, scholars Arni Brownstone, Nicholas Johnson, Bas van Doesburg, Eckehard Dolinski, Michael Swanton, and Elizabeth Hill Boone describe what a lienzo is and how it was made. They also explain the particular origin, format, and content of the Lienzo of Tlapiltepec—as well as its place within the larger world of Mexican painted history. The contributors furthermore explore the artistry and visual experience of the work. A final essay documents past illustrations of the lienzo including the one rendered for this book, which employed innovative processes to recover long faded colors.
