*Conflicto y convivencia en el discurso pedagógico oficial durante el tardofranquismo y la transición democrática española (1965-1982)* MILITO BARONE Cecilia Cristina ,2021-05-17 En el seno del Departamento de Historia de la Educación y Educación Comparada de la UNED se lleva a cabo desde 1992 una amplia investigación sobre los manuales escolares de los siglos XIX y XX —Proyecto MANES—, proyecto de carácter interdisciplinar e interuniversitario en el que colaboran diversas universidades e instituciones españolas, europeas y latinoamericanas. En la actualidad este grupo de investigación está integrado en el Centro de Investigación MANES. Fruto del trabajo de todos estos años son los diversos títulos que han visto la luz en esta colección. La obra *Conflicto y convivencia en el discurso pedagógico oficial durante el tardofranquismo y la transición democrática española (1965-1982)* intenta dilucidar bajo qué parámetros se trataron las problemáticas de conflicto y convivencia —tanto a nivel escolar como social— en el discurso pedagógico oficial del tardofranquismo y la transición a la democracia en España. La investigación utiliza como fuentes primarias los enunciados curriculares (el currículum prescrito), los manuales escolares y las revistas pedagógicas de la época, debiendo destacarse de manera muy especial la aportación metodológica que supone la aplicación del Análisis Crítico del Discurso (ACD) al estudio de los manuales escolares. La autora pone en evidencia que en toda época de cambio hay continuidades y discontinuidades, de manera que, a pesar de los cambios operados en el discurso pedagógico oficial de la Transición, persisten en este periodo importantes aspectos de una visión armónico-funcionalista propia de los años del franquismo.

**Disaster Risk Reduction for Resilience** Saeid Eslamian, Faezeh Eslamian, 2023-03-29 This book is part of a six-volume series on Disaster Risk Reduction and Resilience. The series aims to fill in gaps in theory and practice in the Sendai Framework, and provides additional resources, methodologies, and communication strategies to enhance the plan for action

and targets proposed by the Sendai Framework. The series will appeal to a broad range of researchers, academics, students, policy makers, and practitioners in engineering, environmental science and geography, geoscience, emergency management, finance, community adaptation, atmospheric science, and information technology. This volume offers indigenous approaches to disaster risk reduction, community sustainability and climate change resilience, as well as agro-ecological innovations for improving resilience to climate change. The focus is on adaptation strategies for sustainable terrestrial and marine ecosystems to reduce the impacts of anthropogenic factors that exacerbate disaster risk, including hydro-meteorological services for climate resilience, food security measures in agriculture and livestock, flood mitigation plans, and increased climate change education and awareness. The book concludes with three case studies in Africa detailing the impacts of strengthened climate change resilience measures, adaptive social protections, and improved water availability through hydro-electric technologies.

*The Development of Social Knowledge* José Antonio Castorina, Alicia Barreiro, 2023-08-01 The result of a deep research work sustained for more than two decades, this book studies the construction of social knowledge from a constructivist perspective inherited from Piagetian thought. It thus advances in a process of revision and discussion, while maintaining crucial aspects of this current for the approach to the construction of the subject and the object of knowledge, in the search for the elaboration of an explanatory theory for the formation of new knowledge. A collaborative proposal between different disciplines of potential interest for the different actors who study and intervene in this field.

### **Costa Rica y los libros ,1994**

Threatening Others Carlos Sandoval-Garcia, 2014-08-27 During the last two decades, a decline in public investment has undermined some of the national values and institutions of Costa Rica. The resulting sense of dislocation and loss is usually projected onto Nicaraguan “immigrants.” *Threatening Others: Nicaraguans and the Formation of National Identities in Costa Rica* explores the representation of the Nicaraguan “other” in the Costa Rican imagery. It also seeks to address more generally why the sense of national belonging constitutes a crucial identification in contemporary societies. Interdisciplinary and based on extensive fieldwork, it looks critically at the “exceptionalism” that Costa Ricans take for granted and view as a part of their national identity. Carlos Sandoval-García argues that Nicaraguan immigrants, once perceived as a “communist threat,” are now victims of an invigorated, racialized politics in which the Nicaraguan nationality has become an offense in itself. *Threatening Others* is a deeply searching book that will interest scholars and students in Latin American studies and politics, cultural studies, and ethnic studies.

*Virilidad nacional* Noblet, Bertrand, 2021-02-08 Los historiadores han subrayado la importancia, para el régimen franquista, de la (re)construcción de una virilidad nacional que se suponía en decadencia. En cambio, poco se ha estudiado acerca de la recepción por parte de la sociedad civil de los modelos viriles oficialmente proclamados. Este novedoso trabajo

muestra la conquista en 1939 de los manuales de historia por héroes guerreros, cercanos a los conceptos de género oficiales, así como la paralela marginación de las mujeres en el relato histórico. Pero también muestra que los docentes que los redactaron nunca renunciaron totalmente a sus propios ideales masculinos y nos lleva a examinar diferentemente la conformación de la sociedad española de la época franquista.

Dialógica y praxis: Explorando Intersecciones en Ciencia, Tecnología y Sociedad en el Siglo XXI Gómez-Jiménez, Óscar, Ávila Rodríguez de Mier, Belén, Martínez-Heredia, Nazaret, 2025-01-03 En las intersecciones vibrantes entre la ciencia, la tecnología y la sociedad, emerge un compendio de conocimientos valiosos que desentrañan los misterios y complejidades de nuestro tiempo. *Dialógica y praxis: Explorando Intersecciones en Ciencia, Tecnología y Sociedad en el Siglo XXI* es una obra que nos sumerge en un vasto océano de conocimiento, donde cada capítulo se convierte en una pieza crucial que contribuye a un rompecabezas en constante evolución. Las páginas de este libro nos invitan a explorar las tendencias y comportamientos que definen nuestra sociedad. Desde el activismo de marca, que deja una huella indeleble en los valores y tendencias de consumo de la Generación Z, hasta la mirada crítica sobre la comunicación engañosa y su incidencia en la salud infantil, los autores nos desafían a comprender las fuerzas sutiles que dan forma a nuestro comportamiento colectivo. A medida que avanzamos, nos adentramos en el terreno de la ciencia y la tecnología aplicada. La neurociencia se convierte en una herramienta esencial para desentrañar los efectos de los medios de comunicación, mientras que la aplicación efectiva del role play emerge como una estrategia enriquecedora en el aprendizaje del vocabulario médico de la COVID-19. Estos capítulos reflejan la aplicación concreta de la investigación en la resolución de desafíos específicos. Inmersos en la narrativa de innovación y desarrollo sostenible, esta obra nos lleva a través de la conexión colaborativa en comunidades específicas y

la producción sostenible de empresas como estrategia de competitividad. Aquí, la investigación no solo analiza el estado actual, sino que también apunta hacia soluciones que equilibran las necesidades actuales con las del futuro. Finalmente, este libro profundiza en las complejidades de las políticas y las relaciones internacionales, donde la ciencia y la tecnología desempeñan un papel decisivo. La diplomacia silenciosa de Japón y la política turística española en el horizonte 2030 ilustran cómo las decisiones a nivel estatal y global son moldeadas por las fuerzas de la ciencia y la tecnología.

**¿CUAL GUERRA?** Laurie E. Levinger, 2012-04-01 En *¿Cuál Guerra? Testimonios de Sobrevivientes Maya*, algunos j—venes que fueron v'ctimas de la violencia relatan sus historias. En sus propias palabras, nos cuentan c—mo sus vidas fueron devastadas por el trauma, el terror y la muerte. La violencia es colocada en contexto hist—rico con cap'tulos espec'ficos que enfocan en el exilio forzado, las experiencias œnicas sobrellevadas por mujeres y ni—os, el impacto en la vida familiar, la lucha por mantener la identidad maya y el efecto de los Acuerdos de Paz. La realidad es que se necesita de un profundo coraje para romper el silencio y hablar de esta dolorosa historia personal. Estos sobrevivientes estñ comprometidos a decir la verdad de sus propias experiencias. Aqu' lidian con el futuro, rehacen sus vidas y tienen el compromiso de crear una nueva Guatemala.

**Teaching the Violent Past** Elizabeth A. **TRABAJO SOCIAL: CONCEPTO Y METODOLOGÍA. Colección CGTS / Paraninfo** AGUILAR IDÁÑEZ, MARÍA JOSÉ, *Populist Nationalism in Europe and the Americas* Fernando López-Alves, Diane E. Johnson, 2018-10-10 Populist nationalism fuses beliefs that citizens are being exploited by a privileged elite with claims that the national culture and interests are under threat from enemies within or without. Ideologically fluid, populist nationalists decry “out-of-touch” institutions such as political parties and the mainstream press while extolling the virtues of the “people.” They claim that only populists can truly represent the nation and solve its problems, and often call for unorthodox solutions that appeal to the common people. The recent spread of populist nationalism throughout the world has triggered a growing interest in the subject, led mainly by journalists. The Brexit vote and the election of Donald Trump in the US have provoked a flurry of media coverage in Europe and the Americas, along with parliamentary debates. Some social scientists have sought to explain the resurgence of nationalism and the spread of populism in recent decades, but important questions remain and most of the scholarship has not adequately addressed the fusion of nationalism and populism. It fails to examine the combination of populism and nationalism comparatively, especially the contrast between the more progressive and leftist versions such as those in Latin America, and the more traditional conservative varieties that are gaining strength in Germany, the United

Kingdom, and the United States. This interdisciplinary collection by experts on Europe and the Americas fills this void. The volume examines various experiences with populist nationalism, and offers theoretical tools to assess its future. Some chapters are in-depth country case studies and others take a broader perspective, but all open the door for meaningful comparison.

The Presented Past B. L. Molyneux, P. G. Stone, 2003-09-02 The Presented Past is concerned with the differences between the comparatively static, well-understood way in which the past is presented in schools, museums and at historic sites compared to the approaches currently being explored in contemporary archaeology. It challenges the all-too-frequent representation of the past as something finished, understood and objective, rather than something that is 'constructed' and therefore open to co-existing interpretations and constant re-interpretation. Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non-documentary sources derived from archaeological study and oral histories. The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught. The Presented Past will be of interest to teachers, archaeologists, cultural resource managers, in fact anyone who is concerned with how the past is presented.

**El Libro Escolar, Reflejo de Intenciones Políticas E Influencias Pedagógicas** Alejandro TIANA FERRER, 2008-10-13 Esta obra recoge una selección de los trabajos presentados en el I Simposio MANES, celebrado en Madrid en el año 1996. En esa primera reunión científica organizada por el proyecto se presentaron diversos trabajos centrados en el estudio histórico de los manuales escolares. En este volumen se recogen veintitrés de dichos trabajos, una vez revisados por sus autores a la luz de los debates mantenidos en el encuentro. La obra se organiza en tres partes, dedicada cada una de ellas a un ámbito de investigación de especial relevancia. Con este volumen se abre una nueva línea dentro de la colección, tendente a ofrecer a los investigadores y estudiosos los resultados que va arrojando el Proyecto MANES.

*School Memories* Cristina Yanes-Cabrera, Juri Meda, Antonio Viñao, 2016-09-15 This book reveals how school memories offer not only a tool for accessing the school of the past, but also a key to understanding what people today know (or think they know) about the school of the past. It describes, in fact, how historians' work does not purely and simply consist in exploring school as it really was, but also in the complex process of defining the memory of school as one developed and revisited over time at both the individual and collective level. Further, it investigates the extent to which what people "know" reflects the reality or is in fact a product of stereotypes that are deeply rooted in common perceptions and thus exceedingly difficult to do away with. The book includes fifteen peer-reviewed contributions that were presented and discussed during the International Symposium "School Memories. New Trends in Historical Research into Education: Heuristic Perspectives and

Methodological Issues” (Seville, 22-23 September, 2015).
