Este trabajo, escrito por un equipo que enfoca diferentes áreas de la salud, representa un intento por armonizar la espiritualidad y la ciencia como elemento clave para preservar la salud del ser humano en mundo en que el estrés postraumático se convierte en detonante de diversas enfermedades.

Dile adiós a la T.I.A. José D. Batista,2020-06-24 Prepárate para decirle adiós a la compañera más espantosa que pueda existir. Toda persona tiene la capacidad de aprender a enfrentar los cambios en la vida, solo hay que reconocer y aplicar esa capacidad. La T.I.A. (tristeza, ira y amargura) es el trío del factor de riesgo que puede derivar en depresión, violencia y apatía social. Los sentimientos asociados a las emociones de tristeza, ira y amargura pueden ser buenos cuando los consideramos un modo de aprendizaje o enfermizos cuando nos hundimos en la autocompasión, la culpa y la desesperanza. El propósito de Dile adiós a la T.I.A. es analizar y descubrir las causas de problemas como la ansiedad, la violencia de género, el maltrato infantil, la delincuencia, el suicidio, la adicción, la deserción escolar y la falta de conocimiento en materia de relaciones familiares y de educación. Sin lugar a dudas, desconocer la diferencia que existe entre las emociones y los sentimientos ha facilitado la respuesta incorrecta a los estímulos externos que causan tristeza, ira y amargura (la T.I.A.).

Curación Digital y Género en la Ciencia de la Información: acceso y preservación Clara Sainz de Baranda Andújar,Jordi Ribeira Planella,María-Antonia Ovalle-Perandones,Mirelys Puerta-Díaz,Daniel Martínez-Ávila,Marian Blanco-

En el contexto de la comunicación digital-virtual, y a partir de las recientes transformaciones en sus soportes, las colecciones multimodales de información pasan a un estado en el que el acceso de los sujetos informacionales a la información se puede facilitar y ampliar. En tal universo, la información y los datos representados necesitan tratamientos conceptuales y técnicos que respeten la naturaleza y las particularidades de los medios y de los lenguajes que transitan por ellos. Además, al ser procesados en un medio frágil como es el digital, la información codificada para medios electrónicos también requiere de procedimientos y cuidados dirigidos a su preservación integral. En la Ciencia de la Información, el conjunto de procedimientos continuos e iterativos destinados a satisfacer las demandas de atención para optimizar el acceso y la preservación se denomina Curación Digital: un complejo de procesos que van desde el diseño inicial y conceptualización hasta la designación de metadatos, la evaluación de decisiones de preservación o descarte, la transformación, el acceso, el intercambio y la reevaluación de objetos digitales. En temas relacionados con el género, la necesidad de la Curación Digital de la información presentada en medios electrónicos se torna urgente, dados los dramáticos hechos que preocupan por la falta de información, o por la desinformación, en los múltiples territorios que abarca el concepto. En ellos, la información debe ser procesada con el propósito sociocultural de realizar la creación de estrategias e instrumentos para superar los innumerables desafíos e injusticias presentes.

La morfología de las ciudades. Tomo I Capel, Horacio,2002-02-07 Las ciudades son artefactos complejos, admirables. Lugares maravillosos para vivir. Han sido siempre los espacios en que los pobres han podido encontrar oportunidades de mejora social. Y también los lugares de la libertad. Pero son también frágiles, con peligros de ruptura y de desorganización. Construir, o edificar, es una de las actividades esenciales del proceso de humanización. Edificar y construir son acciones que se relacionan con el proceso de humanización de la tierra y dan como resultado la erección de todo aquello que sirve para la vida humana, desde casas y templos a caminos, escuelas y otras estructuras materiales. Dichas cuestiones se abordan en esta obra de 1.110 páginas en 2 volúmenes con una perspectiva histórica, centrando la atención en los cambios sociales que se han producido y en las transformaciones de la edificación. Resumen del índice: Presentación.- El desarrollo de los estudios de morfología urbana: hacia una convergencia interdisciplinaria.- El análisis morfológico y los elementos del plano de la ciudad.- El crecimiento no reglado y los planos irregulares.- La influencia de la organización militar en el desarrollo urbano.- La trama ortogonal y su difusión.- El jardín formal y su incidencia en el urbanismo.- El jardín como espacio natural o el hombre imita la naturaleza.- Paraíso abierto para todos.- El jardín paisajista y su influencia en el diseño urbano: el camino hacia la ciudad jardín.- Los principios del urbanismo racionalista y su incidencia en la configuración de la ciudad.- Aplicación y crítica de los principios del urbanismo racionalista.- Los tejidos urbanos.- Bibliografía.

Ao longo dos anos de 2020 a 2022, fomos severamente afetados em âmbito mundial pelo advento da pandemia do Coronavírus, tendo por consequência inúmeras transformações nas relações sociais, econômicas, políticas, tecnológicas e culturais, com peculiares repercussões em diversas áreas do Direito. Nesse contexto, o advento da Covid-19 causou grande impacto nas relações humanas, e, por conseguinte, nas relações jurídicas estabelecidas na sociedade contemporânea, especialmente, pelo incremento de novos avanços tecnológicos, pelo processo de digitalização do mundo, pela criação de regimes jurídicos transitórios e emergenciais, surgimento de novos danos, bem como pela necessária ressistematização dos modelos jurídicos vigentes nos diversos ordenamentos jurídicos. Nesse cenário distópico, que fomos lançados abruptamente, propôs-se a realização de um estudo internacional, sistematizado e multidisciplinar, que tivesse como escopo a análise crítica, dialógica e discursiva dos impactos do Coronavírus na perspectiva das Américas, África, Ásia e Europa. A presente obra pretende, por meio do contributo de diversos autores nacionais e internacionais, lançar luzes sobre os inúmeros impactos da pandemia no Direito, notadamente, as repercussões do coronavírus no Direito Público, permeando-se por meio de uma interlocução que promova diálogos interdisciplinares, apresentando reflexões e possíveis perspectivas de estudo aos diversos conflitos sociais enfrentados no

cenário pandêmico. Prof. Dr. Michael César Silva Coordenador do Programa de Pesquisa da Escola de Direito do Centro Universitário Newton Paiva

La invención de Cuba José Luis Ferrer, 2018-03-28 Cuándo y cómo se creó la nación cubana? ¿Quiénes la crearon, y con qué miras? ¿Cómo contribuyeron la esclavitud, el azúcar, la política colonial española y la literatura a la invención de la nación? Esta obra explora la creación y evolución de la primera imagen de la nación cubana desde que empezó a conformarse en el discurso histórico –hacia la última década del siglo XVIII–, hasta el momento en que pudo concretarse en la narrativa de ficción que surgió y se desarrolló en la isla entre 1837 y 1846. Un apasionante recorrido histórico mira a los acontecimientos que sacudieron el mundo de la burguesía azucarera cubana entre 1792 y 1845, y la llevaron a apoyar activamente la creación de un cuerpo de ficción narrativa capaz no sólo de objetivar por primera vez la nación, sino además de disseminar esa poderosa imagen entre importantes sectores de la población de la isla. El estudio del proceso creador de esa imagen nacional conduce a una relectura de los textos de ficción y del contexto sociocultural en el que paso a paso se produjeron. Entre las narraciones revisitadas están «El espétón de oro», «Una excursión a Vueltasabajo», «El guajiro», «Cecilia Valdés (1839)», «La joven de la flecha de oro», «La peineta calada», «Dos Amores», «La vendedora de sombreros de yarey», «El penitente» y «Sucesos del siglo XVIII en La Habana», de Cirilo Villaverde; «Matanzas y Yumurí» y «Una pascua en San Marcos», de Ramón de Palma; «Petrona y Rosalía», de Félix Tanco; «Antonelli», de José Antonio Echeverría; Francisco, de Anselmo Suárez y Romero, etc. Esta obra demuestra cómo el acontecer histórico y la imaginación literaria convergieron efectivamente para crear una nación en Cuba más de medio siglo antes de que la colonia lograra alcanzar su independencia política.

Tutela Jurídica dos Torcedores Joseane Suzart Lopes da Silva, 2024-10-09 A Lei n.o 14.597/2023 revogou o Estatuto de Defesa do Torcedor, reunindo parte deste diploma legal com outros conjuntos normativos concernentes à temática. Além de dificultar a compreensão do povo dada a confluência de várias normas, eliminou importantíssimos dispositivos no que tange à proteção da incolumidade dos espectadores e do direito de se inteirar de relevantes aspectos das competições. Conflita a Lei Geral do Esporte com a Lei n.o 8.078/90, cuja essência assenta-se na prevenção de vícios, que possam causar acidentes, e na transparência. Destina-se a presente obra a contribuir para a efetiva proteção de todos aqueles que sejam destinatários finais das competições. A intensificação das apostas esportivas e o interesse por tal nicho mercadológico têm sido constatados no Brasil diante do aumento do número de empresas no ramo e da presença de uma multiplicidade de consumidores. Em face deste cenário, em 29 de dezembro de 2023, foi editada a Lei n.o 14.790, que propiciou o encerramento dos efeitos da MP n.o 1182/2023. O governo federal implementou alterações na Lei n.o 13.756/2018, possibilitando o ingresso de pessoas jurídicas de direito privado nesta seara, eis que, anteriormente, era explorada, de forma exclusiva, pelo poder público. Objetiva-se apontar as alterações que foram benéficas para a população e os avanços não colimados com a atual estrutura normativa,

alertando-a sobre os instrumentos para a sua devida tutela.

Canibalia Carlos A. Jáuregui,2008 A través de un recorrido que va desde el Renacimiento hasta la posmodernidad, de las bellas letras a la cultura popular, y de la antropología a los discursos visuales, recorre el tropo del caníbal como símbolo de la condición de América Latina.

Tecnologia indígena em Mato Grosso José Afonso Botura Portocarrero,2023-04-05 [...] Talvez uma das mais importantes contribuições de um intelectual comprometido com o mundo em que vive seja colocar a sua energia criadora à disposição do entendimento entre as pessoas, considerando as mais diferentes culturas e as mais diferentes condições materiais de existência. Esse é o grande desafio que tem invadido de modo intenso as reflexões e a prática profissional do Prof. Dr. José Afonso Botura Portocarrero, ao longo de pelo menos mais de duas décadas [...]. Este trabalho [...] está integrado em um conjunto de propostas que vêm sendo desenvolvidas desde 2002, em torno de um núcleo de pesquisas denominado Tecnoíndia, que é registrado no Conselho Nacional de Pesquisa (CNPq) e certificado pela Universidade Federal de Mato Grosso (UFMT), onde tem uma sede. Em sua tese de doutorado [...] o autor assumiu uma postura etnográfica no levantamento dos desenhos das casas indígenas, buscando suas fontes nos registros bibliográficos e no extenso trabalho de campo entre os Paresí, Bakairi, Myky, Irantxe, Xavante, Bororo, Umutina e os índios do Parque Nacional do Xingu (Yawalapiti e Kamayurá). O levantamento dos desenhos é uma de suas contribuições mais importantes, que se incorpora ao conjunto de trabalhos que são referências consolidadas no campo da própria arquitetura [...]. O material de campo compõe um acervo inédito, contemplando habitações que pela primeira vez são registradas na perspectiva arquitetônica, em suas técnicas construtivas, o que leva também a uma contribuição substancial para os próprios índios, colaborando no registro da sua própria memória.
