Twenty-First Century Musicals George Rodosthenous, 2017-08-14 *Twenty-First Century Musicals* stakes a place for the musical in today's cinematic landscape, taking a look at leading contemporary shows from their stage origins to their big-screen adaptations. Each chapter offers a new perspective on a single musical, challenging populist narratives and exploring underlying narratives and sub-texts in depth. Themes of national identity; race, class and gender; the 'voice' and 'singing live' on film; authenticity; camp sensibilities; and the celebration of failure are addressed in a series of questions including: How does the film adaptation provide a different viewing experience from the stage version? What themes are highlighted in the film adaptation? What does the new casting bring to the work? Do camera angles dictate a different reading from the stage version? What is lost/gained in the process of adaptation to film? Re-interpreting the contemporary film musical as a compelling art form, *Twenty-First Century Musicals* is a must-read for any student or scholar keen to broaden their understanding of musical performance.

An Introduction to Global Media for the Twenty-First Century Ole J. Mjøs, 2022-12-01 *An Introduction to Global Media for the Twenty-First Century* provides a thorough introduction to the field of global media today. The book presents the key changes taking place as the global media landscape evolves, and the main theories of the field, that explain these developments. Tracing, first, the formative development of an international and global media landscape throughout the 20th century from the telegraph, television and film export, and transnational television to the Internet, the book then focuses on developments in the 21st century. This includes: the digitization of the global media and communications sector; the popularization of the Internet and digital infrastructure such as the smartphone and platforms; the emergence of global online media and services; the production and distribution of digital media content; and the exploitation of user data. Case studies illustrate key developments throughout the book. The book shows how the field is characterized by a continuity of critical concerns in relation to power, influence, and domination; media user empowerment and exploitation; and social and sustainable development and democratic conditions, as well as geopolitical shifts, in a global context.

Film Marketing into the Twenty-First Century Nolwenn Mingant, Cecilia Tirtaine, Joël Augros, 2019-07-25 How do you sell British humour to a French audience? Could piracy actually be good for the film business? Why are *The Hobbit*'s revolutionary technologies not mentioned in some adverts? Exploring these questions and many more, *Film Marketing into*

the Twenty-First Century draws on insights from renowned film academics and leading industry professionals to chart the evolution of modern film marketing. The first part of the book focuses on geographical considerations, showing how marketers have to adapt their strategies locally as films travel across borders. The second covers new marketing possibilities offered by the Internet, as Vine, Facebook and other participative websites open new venues for big distributors and independents alike. Straddling practical and theoretical concerns and including case studies that take us from Nollywood to Peru, this book provides an accessible introduction to the key issues at stake for film marketing in a global era.

Technology, Monstrosity, and Reproduction in Twenty-first Century Horror K. Jackson, 2013-11-19 Through a wide spectrum of horror sub-genres, this book examines how the current state of horror reflects the anxieties in Western culture. Horror films bring them to a mass audience and offer new figures for the nameless faceless 'antagonist' that plagues us and provides material with which to build a different understanding of ourselves.

Blowing the Roof off the Twenty-First Century Robert W. McChesney, 2014-10-22 In the United States and much of the world there is a palpable depression about the prospect of overcoming the downward spiral created by the tyranny of wealth and privilege and establishing a truly democratic and sustainable society. It threatens to become self-fulfilling. In this trailblazing new book, award-winning author Robert W. McChesney argues that the weight of the present is blinding people to the changing nature and the tremendous possibilities of the historical moment we inhabit. In *Blowing the Roof off the Twenty-First Century*, he uses a sophisticated political economic analysis to delineate the recent trajectory of capitalism and its ongoing degeneration. In exciting new research McChesney reveals how notions of democratic media are becoming central to activists around the world seeking to establish post-capitalist democracies. *Blowing the Roof off the Twenty-First Century* also takes a fresh look at recent progressive political campaigns in the United States. While conveying complex ideas in a lively and accessible manner, McChesney demonstrates a very different and far superior world is not only necessary, but possible.

The Life and Times of Martha Washington in the Twenty-first Century Frank Miller, 2017 Our story begins in the squalid corridors of a maximum-security housing project, where a young girl will rise from the war-torn streets of Chicago to battle injustice in a world insane with corruption. She will be called a hero, a traitor, and nearly everything in between, but all along the way, her courage, her integrity, and her unwavering commitment to that most valuable of right - liberty - will inspire a movement that will never surrender. A masterpiece nearly twenty years in the making, this archival volume contains the complete life story of freedom-fighter Martha Washington.

Brazilian Horror Cinema in the Twenty-First Century Stephanie Dennison, Laura Loguercio Cánepa, 2025-02-25 Brazil's pressing socio-political questions as seen through the country's horror-film-influenced audio-visual production between 2008 and 2022. Since the 2008 release of *Embodiment of Evil*, the third instalment in the Coffin Joe trilogy, which

began with *At Midnight I'll Take Your Soul*, Brazil's audiovisual industry has been producing an increasing number of unsettling, often violent and frequently dystopian films, reflecting the wide-ranging social, cultural, environmental and economic problems the country is facing. This edited volume by scholars from Brazil, the United Kingdom and the United States discusses a broad selection of Brazilian audio-visual productions released between 2008 and 2022 which, through their use of aesthetic and narrative devices borrowed from horror cinema, shed light on the country's pressing socio-political questions. Mostly by first-time directors, these productions bear witness to a second 'Golden Age' of Brazilian horror cinema (reflected in new, specialised festivals such as CineFantasy, RioFan, CRASH and Fantaspoa) and ultimately serve to illustrate, in audio-visual form, the tensions at the heart of Brazilian society in the second decade of the twenty-first century.

The Evolution of Horror in the Twenty-First Century Simon Bacon, 2023-03-15 *The Evolution of Horror in the Twenty-First Century* examines the intimate connections between the horror genre and its audience's experience of being in the world at a particular historical and cultural moment. This book not only provides frameworks with which to understand contemporary horror, but it also speaks to the changes wrought by technological development in creation, production, and distribution, as well as the ways in which those who are traditionally underrepresented positively within the genre- women, LGBTQ+, indigenous, and BAME communities - are finally being seen and finding space to speak.

Latinx Ciné in the Twenty-First Century Frederick Luis Aldama, 2019-09-24 Today's Latinx motion pictures are built on the struggles—and victories—of prior decades. Earlier filmmakers threw open doors and cleared new paths for those of the twenty-first century to willfully reconstruct Latinx epics as well as the daily tragedies and triumphs of Latinx lives. Twenty-first-century Latinx film offers much to celebrate, but as noted pop culture critic Frederick Luis Aldama writes, there's still room to be purposefully critical. In *Latinx Ciné in the Twenty-First Century* contributors offer groundbreaking scholarship that does both, bringing together a comprehensive presentation of contemporary film and filmmakers from all corners of Latinx culture. The book's seven sections cover production techniques and evolving genres, profile those behind and in front of the camera, and explore the distribution and consumption of contemporary Latinx films. Chapters delve into issues that are timely, relevant, and influential, including representation or the lack thereof, identity and stereotypes, hybridity, immigration and detention, historical recuperation, and historical amnesia. With its capacious range and depth of vision, this timeless volume of cutting-edge scholarship blazes new paths in understanding the full complexities of twenty-first century Latinx filmmaking. Chilean Cinema in the Twenty-First-Century World Carl Fischer,Vania Barraza,2020-10-20 Intended for scholars, students, and researchers of film and Latin American studies, *Chilean Cinema in the Twenty-First-Century World* evaluates an active and emergent film movement that has yet to receive sufficient attention in global cinema studies.

Postmodernism, Twenty-First Century Culture, and American Fiction Matt Graham,2024-07-19 Postmodernism's 'end' is a complex and contentious topic. Yet, one overarching consensus emerges: the postmodern has been surpassed. This book poses a thought experiment challenging this position – what if postmodernism persists within the twenty-first century? Rather than designate a new epoch or coherent movement, this book interrogates the fragmented, contradictory, and counterintuitive endurance of postmodern aesthetics within post-Cold War America. An alternative use of postmodern aesthetics becomes possible when they are decoupled from their twentieth-century historical location. Collectively, these repetitions posit a postmodern continuum, contrasting the widely called-for succession of postmodernism via this decoupling. When postmodern aesthetics are no longer unconsciously repeated within their cultural moment, this emergent shift within a period 'after' postmodernism presents an alternative historical positioning and use. After their cultural vanguard, postmodern aesthetics become a confrontation of the chaotic realism of an inescapable post-Cold War capitalism, tapping into this cultural zeitgeist through literature.

Time in Twenty-First-Century British and American Literature Sonia Front,2025-06-20 This book investigates representations of time in twenty-first-century Anglo-American literature. In the digital era, characterized by a new regime of time, fiction offers revisions of prevalent, oppressive notions of time that can serve as productive political strategies to reclaim the agency of the subject. This book discusses literary texts that craft innovative temporal structures out of sync with the new time logic: suspended temporality (Chapter 1); time as a conflation of phenomenological experience and cosmological laws (Chapter 2); previewing the future (Chapter 3); and networked memory (Chapter 4). The proposed politically productive temporalities, such as deep presence or resonance, compatibilism, contingency, and the use of narrative as a chronologizing strategy, ground a vision of change and suggest a way out of the crisis of time. Identifying new timeframes in twenty-first-century fiction by an array of writers, this book demonstrates that literature remains a valid medium for theorizing and representing time.

Race and Contention in Twenty-First Century U.S. Media Jason A. Smith,Bhoomi K. Thakore,2016-04-20 This volume explores and clarifies the complex intersection of race and media in the contemporary United States. Due to the changing dynamics of how racial politics are played out in the contemporary US (as seen with debates of the post-racial society), as well as the changing dynamics of the media itself (new vs. old media debates), an interrogation of the role of the media and its various institutions within this area of social inquiry is necessary. Contributors contend that race in the United States is dynamic, connected to social, economic, and political structures which are continually altering themselves. The book seeks to

highlight the contested space that the media provides for changing dimensions of race, examining the ways that various representations can both hinder or promote positive racial views, considering media in relation to other institutions, and moving beyond thinking of media as a passive and singular institution. Chapters 3 and 13 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

The Post-Apocalyptic Novel in the Twenty-First Century H. Hicks, 2016-04-08 Since the beginning of the twenty-first century, major Anglophone authors have flocked to a literary form once considered lowbrow 'genre fiction': the post-apocalyptic novel. Calling on her broad knowledge of the history of apocalyptic literature, Hicks examines the most influential post-apocalyptic novels written since the beginning of the new millennium, including works by Margaret Atwood, David Mitchell, Cormac McCarthy, Jeanette Winterson, Colson Whitehead, and Paolo Bacigalupi. Situating her careful readings in relationship to the scholarship of a wide range of historians, theorists, and literary critics, she argues that these texts use the post-apocalyptic form to reevaluate modernity in the context of the new century's political, economic, and ecological challenges. In the immediate wake of disaster, the characters in these novels desperately scavenge the scraps of the modern world. But what happens to modernity beyond these first moments of salvage? In a period when postmodernism no longer defines cultural production, Hicks convincingly demonstrates that these writers employ conventions of post-apocalyptic genre fiction to reengage with key features of modernity, from historical thinking and the institution of nationhood to rationality and the practices of literacy itself.

The Routledge Companion to Global Literary Adaptation in the Twenty-First Century Brandon Chua, Elizabeth Ho, 2023-03-10 The Routledge Companion to Global Literary Adaptation in the Twenty-First Century offers new perspectives on contemporary literary adaptation as a dynamically global field. Featuring contributions from an international team of established and emerging scholars, this volume considers literary adaptation to be a complex global network of influences, appropriations, and audiences across a diversity of media. It offers site-specific case studies that situate literary adaptation within global market forces while challenging the homogenizing effects of globalization on local literatures and adaptation practices. The collection also provides a multi-disciplinary and transnational discussion around a wide array of topics in literary adaptation in a global context, such as soft power, decolonization, global justice, the posthuman, eco criticism, and forms of activism. This Companion provides scholars, researchers, and students with a survey of key methodologies, current debates, and ideologies emerging from a new and exciting phase in literary adaptation.

The Crusades and the Far-Right in the Twenty-First Century Charlotte Gauthier, 2024-09-04 Engaging the Crusades is a series of concise volumes (up to 50,000 words) which offer initial windows into the ways in which the crusades have been used in the last two centuries, demonstrating that the memory of the crusades is an important and emerging subject.

Together these studies suggest that the memory of the crusades, in the modern period, is a productive, exciting, and much-needed area of investigation. This volume explores how crusading rhetoric, iconography, and historiography have been purposed by far-right, nationalist, and related groups in the recent past through case studies as varied as Brenton Tarrant, who killed 51 people at a mosque and Islamic centre in New Zealand in March 2019; a modern American 'military order' that uses memes to recruit members and spread its ideology; and the bestselling video game Assassin's Creed. As nationalist and far-right ideologies have gained adherents in Europe and the Americas, understanding how ideologues have misused the crusading past for their own ends is more important than ever. *The Crusades and the Far-Right in the Twenty-First Century* is useful for all students and scholars interested in the intersection between the history of the crusades and far-right ideology in the modern age.

Digital Online Culture, Identity, and Schooling in the Twenty-First Century K. Rosenfeld, 2015-01-15 Digital Online Culture, Identity and Schooling in the Twenty-First Century provides a cultural, ideological critique of identity construction in the context of virtualization. Kimberly Rosenfeld explores the growing number of people who no longer reside in one physical reality but live, work, and play in multiple realities. Rosenfeld's critique of neo-liberal practices in the digital environment brings to light the on-going hegemonic and counter-hegemonic battles over control of education in the digital age. Rosenfeld draws conclusions for empowering the population through schooling, and how it should understand, respond to, and help individuals live out the information revolution.

Economics for the Twenty-first Century: The Economics of the Economist-fox Andrew M. Kamarck, 2017-09-08 This title was first published in 2001. To be effective, economics must take into consideration the complex nature of human beings and the contextual, institutional, social and historical factors at play. This text is designed to help economists to be economic foxes by increasing the range of economists' tools, drawing on the knowledge and experience of other disciplines, to cope

better with the extraordinary complexity of the modern economy. The objective is to provide the same kind of revelation in understanding an economy that an artist possesses in the visual arts. A beginner looking at a still life sees a green bottle, a red apple and a yellow cloth on a table top. An artist, however, can point out to him all the nuances of colour. Following a rapid dissection of the canonical hypotheses of contemporary economic theory, different sectors of the real economy are explored: the corporation; corporate governance; services; the public sector; civil society; professions; social capital; national cultures; and the tropics.
