Challenges of Information Technology Management in the 21st Century Information Resources Management Association. International Conference,2000 As the 21st century begins, we are faced with opportunities and challenges of available technology as well as pressured to create strategic and tactical plans for future technology. Worldwide, IT professionals are sharing and trading concepts and ideas for effective IT management, and this co-operation is what leads to solid IT management practices. This volume is a collection of papers that present IT management perspectives from professionals around the world. The papers seek to offer new ideas, refine old ones, and pose interesting scenarios to help the reader develop company-sensitive management strategies.

Australian Autobiographical Narratives: 1850-1900 Kay Walsh,Joy W. Hooton,1993 Australian Autobiographical Narratives Volume 2 and its partner Volume 1 provide researchers with detailed annotations of published Australian autobiographical writing. Both volumes are a rich resource of the European settlement of Australia. Theis selection concentrates on the post-gold rush period, providing portraits of 533 individuals, from amateur explorers to politicians, from pioneer settlers to sportsmen. Like Volume 1, it offers an intimate and absorbing insight into nineteenth-century Australia.

Organising Knowledge in a Global Society Philip Hider,Ross Harvey,2008-06-01 Organising Knowledge in a Global Society updates the successful first edition, which has been widely used as an introduction to the field of information organisation, both in Australia and overseas. The work reflects current practice and trends, paying particular attention to how libraries and other information services provide intellectual access to digital information resources through metadata. In this revision, the various information organisation components of the Web 2.0 phenomenon are discussed, including social tagging and folksonomies. The new edition also covers the latest developments in metadata standards, such as Resource Description and Access, and information retrieval systems such as the increasing support for faceted navigation. Examples

and case studies have been updated throughout.

World Libraries on the Information Superhighway: Preparing for the Challenges of the New Millennium Bertot, John Carlo,Fletcher, Patricia Diamond,1999-07-01 Currently, little is known about library experience and success in providing Internet-based services to library patrons. Some studies conducted in the United States indicate that this is an area of great uncertainty, into which libraries are hesitant to venture. Issues such as planning, budgeting and costs, and types of services are some of the areas of concern. *World Libraries on the Information Superhighway: Preparing for the Challenges of the New Millennium* explores issues of Internet-based services in libraries and provides practitioners and educators with examples of libraries that have achieved success in this important emerging information area.

Digital Libraries Lucy A. Tedd,J. A. Large,2005 Digital libraries are now a reality and yet their implementation and use is still not at an optimum. This text examines the various options for setting up digital libraries from digitising information in the first place to providing the interface to access the information held by the digital global library.
