Jo Gulledge, Health and Administration Development Group (Aspen Publishers), Shawn Beard

Coronary Artery Disease and Related Conditions Management Jo Gulledge, Health and Administration Development Group (Aspen Publishers), Shawn Beard, 1999 Inside this book, you'll find the essentials for administering heart disease management programs, with detailed information on developing and implementing clinical pathways and guidelines, measuring and managing outcomes, and reinforcing patient satisfaction. Including treatment strategies for unstable angina, myocardial infarction, congestive heart failure and more, *Coronary Artery Disease and Related Conditions Management: Clinical Pathways, Guidelines, and Patient Education* is an ideal resource for health care providers working to provide more cost-effective and outcome-oriented care. In addition, you'll find a host of large-print patient education handouts, including Spanish-language patient information sheets, designed for clinicians across the care continuum to distribute freely to patients.

Medical-surgical Care Planning Nancy Meyer Holloway, 2004 Revised for nursing students, educators, and practicing nurses, this complete reference contains almost 100 comprehensive clinical care plans for adult patients in medical-surgical units. New to this edition are care plans for acute alcohol withdrawal, hypertensive crisis, Parkinson's disease, sickle cell disease, transplantation, and end of life.

Home Health Nursing Karen E. Monks, 2002-10-22 This unique, spiral-bound handbook is compact, portable, and written with busy home health nurses in mind! Organized by body system, it offers instant advice on assessment and care planning for the disorders home health nurses are likely to encounter. Providing assessment guides for all body systems, the home environment, and the client's psychological status, it includes full care plans for over 50 illnesses and conditions most commonly encountered in the home. Each plan lists nursing diagnoses, short- and long-term expected outcomes, nursing interventions, and client/caregiver interventions. Care plans are organized by body systems to allow for quick retrieval of information. Both short-term and long-term outcomes are included in the care plans to aid evaluation of the care provided. Detailed assessment guidelines are provided for all body systems to facilitate complete and comprehensive client examinations. Guidelines for environmental and safety assessments aid in the appraisal and improvement of clients' living conditions. Client and caregiver interventions are outlined in the care plans to promote active client participation in self-care. The convenient pocket size makes transportation and use convenient to home health nurses. Appendices on documentation

guidelines, laboratory values, medication administration, home care resources, and standard precautions provide quick access to useful home care information. Related OASIS items are identified in the assessment section, and ICD-9 diagnostic codes in the care plans section assist with proper home care documentation. Visit frequency and duration schedules are suggested within each care plan to assist nurses in evaluating and planning care. NANDA nursing diagnoses are consistent with the latest 2001-2002 nomenclature. An increase in suggested therapy referrals within the care plans and in a new appendix helps nurses identify indicators for specialized services. A fully updated Resources Appendix includes websites for easy access to home health service information.

All-In-One Care Planning Resource - E-Book Pamela L. Swearingen, 2011-06-09 The only book with nursing care plans for all core clinical areas, All-In-One Care Planning Resource, 3rd Edition, provides 100 care plans with the nursing diagnoses and interventions you need to know to care for patients in all settings. It includes care plans for pediatric, maternity, and psychiatric nursing in addition to medical-surgical nursing, so you can use just one book throughout your entire nursing curriculum. A new online care plan tutorial walks you through the steps of creating care plans, and updates keep you current with the latest clinical developments, new pharmacologic treatments, QSEN patient safety standards, and evidence-based practice guidelines. Edited by Pamela Swearingen, this book is known for its clear, straightforward approach, its practical and consistent format, and its detailed rationales. Updates from clinical experts ensure the most current, accurate, and clinically relevant content available. A consistent format for each care plan allows faster lookup of key content, with headings for Overview/Pathophysiology, Health Care Setting, Assessment, Diagnostic Tests, Nursing Diagnoses, Desired Outcomes, Interventions with Rationales, and Patient-Family Teaching and Discharge Planning. Color-coded sections for medical-surgical, maternity, pediatric, and psychiatric nursing make it easy to find information quickly. Prioritized nursing diagnoses are listed in order of importance and physiologic need. A two-column format for nursing assessments/interventions and rationales makes it easier to scan information. Detailed rationales for each nursing intervention help you to apply concepts to clinical practice. Outcome criteria with specific timelines help you to set realistic goals for nursing outcomes and provide quality, cost-effective care. NANDA-I taxonomy updates keep you current with NANDA-I terminology and current diagnoses. Updated content covers the latest clinical developments, new pharmacologic treatments, QSEN patient safety standards, and evidence-based practice guidelines. 16 new and updated NANDA-I nursing diagnoses include adult failure to thrive, chronic confusion, risk for shock, interrupted breastfeeding, and impaired environmental interpretation syndrome. Unique! The companion Evolve website includes a narrated online care planning tutorial with step-by-step guidance on how to create accurate and comprehensive care plans.

Life Care Planning and Case Management Handbook Roger O. Weed, Debra E. Berens, 2018-09-03 Life care planning is an advanced collaborative case management specialty practice focused on assessing, evaluating, coordinating, consulting, planning for, and monitoring necessary services for individuals with complex medical care needs over their lifetime. This handbook provides a comprehensive resource for all people involved with catastrophic impairments and chronic medical care case management. The Life Care Planning and Case Management Handbook, Fourth Edition, begins by defining the roles played by each of the key team members working with the life care planner. It provides planners with insights critical to successful interactions with medical and health care-related professionals as well as the team members they are most likely to encounter as they work to build an accurate and reliable life care plan. Next, the text offers up-to-date information on the medical conditions most frequently encountered by the life care planner. The contributors, who are recognized experts in their disciplines, also address issues in forensic settings, ethics, standards, research, and credentials. The fourth edition includes numerous chapters on general issues, as well as updated standards of practice from the International Academy of Life Care Planners (IALCP), Life Care Planning Consensus Statements, and valuable step-by-step charts and checklists. Completely updated and expanded, this revised handbook now includes new chapters on multicultural considerations in life care planning, admissibility of life care plans in U.S. courts, and Canadian life care planning practice. Additionally, infused in other chapters, is new information on medical coding and costing for life care planners, life care planning in non-litigated contexts, as well as research and education within life care planning.
