Luxury Arts of the Renaissance Marina Belozerskaya,2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although

discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

Corrupting Luxury in Ancient Greek Literature Robert Gorman, Vanessa B Gorman, 2014-11-06 Traces the principle that luxury corrupts its possessor as seen through a millennium of Greek literature

The Me of Tomorrow Efrain Rovira, 2022-03-13 For me, thinking about the me of tomorrow far predates the virus. It has become second nature, essential to creating a meaningful life. It's my bread and butter. However, paradoxically, understanding how to plan in the age of coronavirus took on an even greater meaning. Our sense of balance; thirst for knowledge; and approach to health, career, finances, and relationships required even more forethought and attention than ever before. Envisaging future tomorrows puts us in a better position to deal with today. At some point, we knew the planet's current nightmare would end and an unpredictable “new normal” would emerge. Having the mental discipline to envisage a different life and a different life stage makes us smarter, more adaptable, and more conscious of our choices every day. This book is all about decision-making; COVID-19 just made us consider our daily decisions with another unknown variable. It reinforced my belief that planning, both past and present, holds meaning and resonance in times of stress and greatest uncertainty, just as it does when life seems more normal. Unpredictability is part of life. Efrain Rovira wanted nothing more than to be an engineer while growing up in Panama. His rationale was simple: Engineers in Panama were paid well, and he wanted to live a secure, comfortable life. So, he started planning ahead. The fact that his peers who also wanted to be engineers did not do the same floored him—and their diverging paths convinced him to make planning and visualizing a key part of life moving forward. At so many junctures, he found himself thinking about not only the best choice for that moment but the long term. In this guide to planning for a better life, he reveals how to think and plan rigorously for the future, set yourself up for future happiness, and appreciate how thinking about tomorrow can influence every aspect of life. The book helps readers navigate the complex web of work by showing how influence is more effective than title, what organizations value, and the critical attributes for career success. It also explores ways to promote financial and physical health. Get a strategic long-term plan and work toward your dreams with the insights and lessons in *The Me of Tomorrow*.

The Right Sensory Mix Diana Derval, 2010-09-17 Berry-AMA Book Prize FINALIST 2011! “The Right Sensory Mix” is one of the four best marketing books in 2011 according to the American Marketing Association Foundation. The Berry-AMA Book

Prize is awarded annually by the Foundation (AMAF) and recognizes books whose innovative ideas have had significant impact on marketing and related fields. For additional information about the Berry-AMA Book Prize, visit Berry-AMA Book Prize. Why do some people drink black coffee and others stick to tea? Why do some people prefer competitors' products? Why do we sell less in this country? Many companies fail to acknowledge and analyze disparities observed among customers and simply put them down to culture or emotion. New neuroendocrinological research proves that consumers are rational: They just have a different biological perception of the same stimulus! Their preferences, behavior, and decisions are strongly influenced by the hundreds of millions of sensors monitoring their body and brain. People with more taste buds are for example sensitive to bitterness and are more likely to drink their coffee with sugar or milk, or to drink tea. After reading the book, managers will be able to:

- Understand and predict consumers' behavior and preferences
- Design the right sensory mix (color, shape, taste, smell, texture, and sound) for each product
- Fine-tune their positioning and product range for every local market
- Systematically increase their innovation hit rate

Theologies of Human Agency Megan Fullerton Strollo, 2022-12-13 This book examines the relationship between divine in/activity and human agency in the five books of the Megilloth—the books of Ruth, Song of Songs, Ecclesiastes, Lamentations, and Esther. As works of literature dating to the early Second Temple period (ca. 6th–3rd centuries BCE), these books and the implicit interpretation of these particular themes reflect the diverse cultural and theological dynamics of the time. Megan Fullerton Strollo contends that the themes themselves as well as the correlation between them should be interpreted as implicit theology insofar as they represent reflective interpretation of earlier theological traditions. With regard to divine in/activity, she argues that the Megilloth presents a certain level of skepticism or critical analysis of the Deity. From doubt to protest, the books of the Megilloth grapple with received traditions of divine providence and present experiences of absence, abandonment, and distance. As a correlative to divine in/activity, human agency is presented as consequential. In addition, the portrayal of human agency serves as a theological response insofar as the books advance the theme through specific references to and reevaluations of earlier theocentric traditions.

Music Commodities, Markets, and Values Jayson Beaster-Jones, 2016-05-12 This book examines music stores as sites of cultural production in contemporary India. Analyzing social practices of selling music in a variety of retail contexts, it focuses upon the economic and social values that are produced and circulated by music retailers in the marketplace. Based upon research conducted over a volatile ten-year period of the Indian music industry, Beaster-Jones discusses the cultural histories of the recording industry, the social changes that have accompanied India's economic liberalization reforms, and the economic realities of selling music in India as digital circulation of music recordings gradually displaced physical distribution. The volume considers the mobilization of musical, economic, and social values as a component of branding

discourses in neoliberal India, as a justification for new regimes of legitimate use and intellectual property, as a scene for the performance of cosmopolitanism by shopping, and as a site of anxiety about transformations in the marketplace. It relies upon ethnographic observation and interviews from a variety of sources within the Indian music industry, including perspectives of executives at music labels, family-run and corporate music stores, and hawkers in street markets selling counterfeit recordings. This ethnography of the practices, spaces, and anxieties of selling music in urban India will be an important resource for scholars in a wide range of fields, including ethnomusicology, anthropology, popular music studies, and South Asian studies.

Stalin's Singing Spy Pamela A. Jordan, 2016-01-21 Stalin's Singing Spy follows the remarkable life of Nadezhda Plevitskaya, a Russian peasant girl who achieved fame as one of Tsar Nicholas II's favorite singers and infamy as one of Stalin's agents. Pamela A. Jordan traces Plevitskaya's life from her childhood in an isolated village to national stardom. She always declared that she was foremost an artist who sang for all people, regardless of their ideological leanings or socioeconomic background. She claimed throughout her career to be fundamentally apolitical, yet decades later in Europe, Plevitskaya was unmasked as one of Joseph Stalin's secret agents along with her husband, White Russian General Nikolai Skoblin. Their experiences in exile shed light on Stalin's covert operations and the hardships Russian émigrés faced in interwar Europe, an era of great political and economic turmoil. In addition, this book uncovers the roles that the couple played in one of the Soviets' major intelligence coups—the 1937 kidnapping of White Russian General Evgeny Miller in Paris. Jordan recreates Plevitskaya's sensationalized 1938 criminal trial in the Palace of Justice, where she was accused of conspiring to kidnap Miller and portrayed as a Red femme fatale. The first Western biography of Plevitskaya and the first to reconstruct her dramatic trial, this book provides a fascinating window into Soviet-era espionage in interwar Europe.

Morrissey Gavin Hopps,2009-06-26 Morrissey is arguably the greatest disturbance popular music has ever known. Even more than the choreographed carelessness of punk and the hyperbolic gestures of glam rock and the New Romantics, Morrissey's early bookish ineptitude, his celebration of the ordinary, and his subversive endorsement of celibacy, abstinence and rock 'n' roll revolutionized the world of British pop. As a solo artist, too, he consistently adopts the outsider's perspective and dares us to confront uncomfortable subjects. In his brilliant book, Gavin Hopps examines the work of this compelling performer, whose intelligence, humour, suffering and awkwardness have fascinated audiences around the world for the last 25 years. Hopps traces the trajectory of Morrissey's career and outlines the contours and contradictions of the singer's elusive persona. The book illuminates Morrissey's coyness (how can he remain a mystery when he tells us too much?), his dramatized melancholy (surely more of a radical existential protest than the gimmick some believe it to be), and his complex attitudes towards loneliness and alienation, as well as his intriguing sense of the religious.

Identities and Intimacies on Social Media Tonny Krijnen,Paul G. Nixon,Michelle D. Ravenscroft,Cosimo Marco Scarcelli,2022-11-21 This edited collection illuminates the scope with which identities and intimacies interact on a wide range of social media platforms. A varied range of international scholars examine the contexts of very different social media spaces, with topics ranging from whitewashing and memes, parental discourses in online activities, Spotify as an intimate social media platform, neoliberalisation of feminist discourses, digital sex work, social media wars in trans debates and 'BimboTok'. The focus is on their acceleration and impact due to the specificities of social media in relation to identities, intimacies within the broad 'political' sphere. The geographic range of case study material reflects the global impact of social media, and includes data from Belgium, Canada, China, France, Germany, Greece, Italy, Portugal, Spain, Sweden and the USA. My Ghost Has a Name Rosalyn Rossignol,2022-04-13 This memoir about a friend's murder—and the mystery surrounding her daughter's role in it—is a true-crime work that digs deeper (Foreword Reviews). On October 20, 1999, thirty-eight-year-old Nell Crowley Davis was bludgeoned, strangled, and stabbed to death in her backyard in Bluffton, South Carolina, near Hilton Head Island. In this blend of true crime and memoir, Rosalyn Rossignol tells the story of how Davis's sixteen-year-old daughter, Sarah Nickel, along with two teenage boys, came to be charged in the case. Since no physical evidence tied Nickel to the murder, she was convicted of armed robbery and given the same sentence as the boys—thirty years. In the months that followed, Nickel vehemently insisted she was innocent. Torn by Nickel's pleas, Rossignol, a childhood friend of the murder victim, committed herself to answering the question that perhaps the police detectives, press, and courts had not: whether Sarah Nickel was indeed guilty of this crime. During five years of research, Rossignol read case files and transcripts,

examined evidence from the crime scene, listened to the 911 call, and watched videotaped statements made by the accused in the hours following their arrests. She also interviewed family members, detectives, the lawyer who prosecuted the case and those who represented the defendants, and the judge who presided over the trial—as well as Nickel herself. What Rossignol uncovers is a fascinating maze of twists and turns, replete with a memorable cast of characters including a shotgun-toting grandma, a self-avowed nihilist and Satan-worshipper, and a former Rice Queen of Savannah, Georgia. Unlike all previous investigators, Rossignol has uncovered the truth about what happened, and the reasons why, on that fateful October day.
