The Reluctant Presenter Meghan Dotter, 2022-11-14 Have you ever left a meeting wishing you had said something different? Do you wonder why speaking seems to come so easily to others but not to you? Meghan Dotter has made a career in helping clients elevate their speaking and storytelling skills. In her book *The Reluctant Presenter: Forget Everything You Thought You Knew About Speaking*, Meghan reveals the science and art behind creating and giving a compelling presentation. She challenges some of the biggest assumptions you've been led to believe, including: Don't fake it 'til you make it; use confidence as a guide The success of your presentation has very little to do with PowerPoint The real potential of storytelling goes beyond entertaining Great speakers aren't naturally charismatic; they do the work to connect to audiences Through stories and research, Meghan shows you how to do the work (and how to avoid steps that aren't worth spending time on). In reading this book and trying some new approaches, you'll do more than transcend from being a reluctant presenter; you might even enjoy speaking up.

**Quote the World Forevermore** AYDI the Watcher ,2022-09-19 Why do I call myself AYDI the Watcher? That's a good question. I call myself that because I observe our world and the way we interact as humans. Years and years of these observations led me to read up on Psychology, politics and human relations. I listened to many prominent psychologists and therapists to hone my ideas, and the result is this book. Now, this is not a traditional book that delves into the subject matters mentioned above, but a collection of inspiring and thought-provoking quotes fleshed out with my thoughts and feelings, these thoughts and feelings touching on human psychology and behaviour. Some of these quotes were taken from my Facebook page, The Watcher (@AYDItheWatcher) and expanded upon and new ones were added to convey my thoughts on this world that we live in and how hierarchies and human structures affect our daily lives. My goal is to get people thinking and see different perspectives, and protect themselves from harm and manipulation. I hope this goal is achieved and your minds are unlocked. The freer the minds, the better the world.

**The Neurodiversity Playbook** Matthew Zakreski, Psy.D., 2024-11-08 This book represents a summation of a decade's worth of therapy, research, workshops, and presentations around the unique aspects of social-emotional development in the neurodivergent community. The book grounds its approach in neuroscience and then applies those data to how our brains impact our thoughts, feelings, and behaviors. As a child psychologist who specializes in working with this population, I pride

myself on identifying the challenging aspects of having a different brain and empowering kids to manage those differences. As such, this book will contain sections that directly address the parts of being gifted that have traditionally been emphasized less: making friends, maintaining relationships, regulating emotions, communicating your feelings and needs appropriately, and being able to identify contextual factors to understand why people are acting the way they are. Naming the issues is one thing, but each section will contain case examples, clinical advice, and tangible skills that will help students grow in the areas of social-emotional learning (SEL). These skills are deliverable, generalizable, and appropriate for school, home, and the community. Most importantly, they work. I often say that I want my clients to have a little “pocket Dr. Matt” to help them navigate the world; this book is my attempt at creating that kind of external support.

**The Sexual Paradox** Susan Pinker, 2009-08-18 Now available in paperback from psychologist and award-winning columnist Susan Pinker, the groundbreaking and controversial book that is “lively, well-written...important and timely” (The Washington Post). In this “ringing salvo in the sex-difference wars” (The New York Times Book Review), Pinker examines how fundamental sex differences play out over the life span. By comparing fragile boys who succeed later in life with high-achieving women who opt out or plateau in their careers, Pinker turns several assumptions upside down: that women and men are biologically equivalent, that intelligence is all it takes to succeed, and that women are just versions of men, with identical interests and goals. In lively prose, Pinker guides readers through the latest findings in neuroscience and economics while addressing these questions: Are males the more fragile sex? Which sex is the happiest at work? Why do some male college dropouts earn more than the bright girls who sat beside them in third grade? The answers to these questions are the opposite of what we expect. A provocative and illuminating examination of how and why learning and behavioral gaps in the nursery are reversed in the boardroom, this fascinating book reveals how sex differences influence career choices and ambition. Through the stories of real men and women, science, and examples from popular culture, Susan Pinker takes a new look at the differences between women and men.

Feeling Academic in the Neoliberal University Yvette Taylor, Kinneret Lahad, 2018-02-09 This book offers a contemporary account of what it means to inhabit academia as a privilege, risk, entitlement or a failure. Drawing on international perspectives from a range of academic disciplines, it asks whether feminist spaces can offer freedom or flight from the corporatized and commercialized neoliberal university. How are feminist voices felt, heard, received, silenced, and masked? What is it to be a feminist academic in the neoliberal university? How are expectations, entitlements and burdens felt in inhabiting feminist positions and what of 'bad feeling' or 'unhappiness' amongst feminists? The volume considers these issues from across the career course, including from 'early career' and senior established scholars, as these diverse categories are themselves entangled in academic structures, sentiments and subjectivities; they are solidified in, for example, entry and promotion schemes as well as funding calls, and they ask us to identify in particular stages of 'being' or 'becoming' academic,

while arguably denying the possibility of ever arriving. It will be essential reading for students and researchers in the areas of Education, Sociology, and Gender Studies.

*Don't Be Afraid of Loving Yourself: The Art of Loving Yourself According to Osho* Alden Clamor, 2024-09-10 A couple of years ago, on a bustling Avenue des Champs Élysées in Paris, I found myself gazing into the window of a quaint bookstore called Golden Books, my reflection staring back at me, a young man far from home, searching for answers. That day, I bought a book entitled “A Course in Miracles” that promised secrets to happiness, peace, and love. Yet, as I flipped through its pages, I realized I was looking for happiness, peace, and love in the wrong places. **The Present Professor** Elizabeth A. Norell, 2024-12-03 It's hard to learn when you're under stress, and a lot harder when your teacher is struggling with stress, too. In a world where stress is unavoidable—where political turmoil, pandemic fallout, and personal challenges touch everyone—this timely book offers much-needed guidance for cutting through the emotional static that can hold teachers back. A specialist in pedagogical strategies with extensive classroom experience, Elizabeth A. Norell explains how an educator's presence, or authenticity, can be critical to creating transformational spaces for students. And presence, she argues, means uncovering and understanding one's own internal struggles and buried

insecurities—stresses often left unfronted in an academic culture that values knowing over feeling. Presenting the research on how and why such inner work unlocks transformational learning, *The Present Professor* equips educators with the tools for crafting a more authentic presence in their teaching work. At a time of crisis in higher education, as teachers struggle to find new ways to relate to, think about, and instruct students, this book holds a key. Implementing more inclusive pedagogies, Norell suggests, requires sorting out our own identities. In short, if we want to create spaces where students have the confidence, comfort, and psychological safety to learn and grow, we have to create spaces where we do, too. *The Present Professor* is dedicated to that proposition, and to helping educators build that transformational space.
