La constitucionalización del derecho administrativo. El derecho administrativo para la paz. (Tomo II) Alberto Montaña Plata,Andrés Fernando Ospina Garzón,2018-02-07 esencia misma de todo el derecho es la convivencia pacífica Sin embargo, la redundancia apunta a preguntarse cómo el Derecho administrativo puede contribuir. de la mejor manera, en la construcción de la paz para Colombia, Pero la obra resuelve otro problema: la polisemia de la paz, Por esta razón, el libro se construye en tres partes, que ponen de relieve cada una de las concepciones de la paz: como orden público (campo, ciudades, cárceles, etc.): como buenas relaciones entre la administración y los administrados (participación, simplificación de trámites, moralidad, transparencia, etc) y como respuesta eficaz a las expectativas sociales (salud, vivienda, educación, etc.). Porque el cese al fuego se negocia, pero la paz se construye, es la constitucionalización del Derecho administrativo la que ha permitido, en estos veinticinco años de vigencia de la Constitución de 1991, que podamos pensar en la construcción de las condiciones de paz para Colombia. Esta es una obra original que propone reformas importantes en todos los campos del Derecho administrativo e incluye artículos de destacados profesores colombianos y extranjeros.

La motivación de la decisión en vía administrativa y en vía judicial Édgar José Moya Millán, 2020-02-01 El derecho a la tutela judicial efectiva comprende el derecho de los justiciables a obtener una decisión fundada en derecho, así como el derecho a conocer las razones de las decisiones, sean estas en sede administrativa o judicial, esto es, una decisión motivada. El justiciable o el administrado tienen la posibilidad de considerar que la solución que se le ha dado al caso concreto cumple con el análisis interpretativo racional del ordenamiento jurídico y que no es producto o consecuencia de la arbitrariedad del Juez o del ente gubernativo, según sea el caso. El presente trabajo tiene como objeto hacer un análisis sobre la motivación de la decisión en vía administrativa y en vía judicial, como un derecho a la tutela judicial del justiciable, consagrado en legislaciones y en Cartas Políticas Fundamentales; mediante el desarrollo de este tema se pretende dar un pequeño aporte a los Jueces, abogados, estudiantes de derecho, funcionarios de la administración pública y justiciables. Las Transformaciones de la administración pública y del derecho administrativo, las. Tomo I.

Constitucionalización de la disciplina y evolución de la actividad administrativa Jorge Iván Rincón

Córdoba, 2020-03-02 Las particularidades del derecho administrativo y de la administración pública como objeto de estudio solo pueden comprenderse si se observa su constante evolución. Esta obra aborda precisamente las transformaciones de estos conceptos, que se enmarcan en una dialéctica constante entre lo tradicional y lo nuevo, pues el obrar administrativo responde a unas exigencias históricas, económicas y políticas concretas, pero a su vez solo puede comprenderse si se es consciente de las construcciones teóricas que han ayudado a su mejor comprensión. Así las cosas, es importante establecer la forma como el derecho administrativo se relaciona con otras disciplinas jurídicas y no jurídicas, la concepción de la administración desde una dimensión orgánica, y cómo las diferentes actividades que ésta asume han evolucionado para responder a los retos actuales que se generan con las nuevas tecnologías, la incertidumbre, las dinámicas del mercado y los fenómenos de internacionalización y globalización.

La Contratación Pública Internacional José Antonio Moreno Molina, Rodolfo Cancino Gómez, 2018-03-16 One of the areas that best reflect the process of training, development and consolidation of a global administrative law is, without any doubt, that of public procurement. In effect, public contracts have been subject in recent years to important legislation and international agreements, as well as to the jurisprudence of bodies with international jurisdiction that have established general principles, and to administrative actions, among others, to settle disputes between States or other parties in dispute. The book analyzes this novel as important international law of public procurement and the rules that establish the WTO GPA,

the Model Law of the United Nations or the rules of the World Bank and the OECD, as well as trade agreements that negotiate and subscribe the states so that their public and private companies can have access to the markets of goods and services of other states. Public procurement in the European Union-Mexico Free Trade Agreement (TLCUEM) is analyzed and, in addition, Mexican law and European Union law on public contracts, which is already in the fourth generation of norms in the matter, that have come to culminate an evolution that has consecrated a very complete set of substantive and procedural rules that discipline so much the phases of preparation and adjudication of the public contracts as those of execution and resolution of the same. The Directive of the European Union 2014/24 on public procurement contemplates innovative measures in order to simplify, modernize and improve the efficiency of the rules and contractual procedures and its forecasts aim that buyers use better public contracts in support of objectives common social issues, such as protecting the environment, promoting innovation and social inclusion. In this regard, it should be noted that the recommendation of the Commission of the European Union 2017/1805, of 3 October 2017, on the professionalization of public procurement, obliges all Member States to develop and implement long-term professionalization strategies term for public procurement, adapted to their needs, resources and administrative structure. Given the new scheme of international public procurement, all countries must adopt and replicate these policies of training, training, updating and specialization. of the legal operators of the public administration.

The Mexican Legal System Francisc Avalos,1992-05-26 This reference guide to the laws and legal literature of Mexico has been designed carefully by a reference librarian for researchers who do not read or speak Spanish. This basic sourcebook provides answers to the questions that are asked most frequently: Which is the relevant code? Where can the text of the code be found? What secondary material is available? Which material is available in English? This up-to-date guide should be

useful as a reference in college, university, law, government, and public libraries and in companies that do business with Mexico. It could also be used in courses dealing with Mexican law and business. An introduction briefly describes Mexico's legal system and provides some historical background. Then the bibliography points to primary and secondary material of importance and is annotated partially. Entries are organized under forty-one subject categories with subdivisions pointing to the laws, the sources for the text of the laws, secondary materials from periodicals, and books and monographs. All Spanish titles are given first in Spanish and then in English. An appendix gives a directory of publishers. Author and subject indexes are included.

Derecho penitenciario y de ejecución penal Daniel Montero Zendejas,2020-01-01 Ante las diversas teorías, doctrinas, publicaciones de colegas y estudiosos de este tema, las interrogantes que se fueron presentando para iniciar este libro fueron innumerables, pues como hablar de prisiones, correccionales, centros de reinserción social o de resocialización o readaptación, sin olvidar todo lo que se deriva de esta connotación; por ello, quisimos abordarlo desde las diversas aristas de la Ciencia Penal, o sea desde la teoría punitiva que va desde el delito, la pena hasta las tendencias criminológicas del positivismo penal de inicios del siglo XX, y su proyección en este despertar de milenio, con la llamada cuarta revolución industrial, que nos es otra que la era cibernética. El presente estudio se basa en la evolución de la teoría de la pena y los efectos sociales que se desarrollan frente a la imposición de una sanción privativa de la libertad. Aspectos todos ellos que hermanan hipótesis, teorías y demás elementos propositivos que asimilan desde el origen del hombre hasta nuestros días aspectos que devienen de un comportamiento, para algunos, criminal, para otros productos del medio donde se desenvuelven, o sea, crecen y mueren frente a una realidad anómica cuyos efectos desde Garofalo han sido producto de la ciencia criminal donde los genes de nuestra historia dan como resultado la teoría de la violencia y de la propia fuerza como ejes motores del origen del Estado.

El Estado como Sujeto Pasivo de la Relación Tributaria Daniel Rodríguez Cruz,2013-08-01 Tesis Doctoral / Disertación del año 2012 en el tema Economía - Finanzas, Nota: ninguna, Universidad Autónoma de Durango, Materia: Doctorado en Materia Fiscal, Idioma: Español, Resumen: La idea de sujetar al Estado al pago de impuestos o tributos no ha

sido del todo aceptada, ya que el objetivo de éste, opinan algunos, es la captación de ingresos para hacer frente al gasto público. Sin embargo, existen autores que afirman que al dejar fuera de la relación tributaria la sujeción del propio Estado, se encontraría en una situación de privilegio frente a los gobernados, vulnerando el principio de equidad y generalidad tributaria.
