Organizational Jazz David Napoli,Alma Whiteley,Johansen Kathrine,2015-07-17 It is obvious that the world is caught in the process of constant, rapid and unpredictable change. Such changes are challenging the time-honoured business models that we hold, as we strive to understand the changes around us and survive. This book offers a lens through which we search for new ways of thinking about, and working in our dynamic complex world. The search draws on the science of complex adaptive systems. Organizations of today need 'Extraordinary Leaders' who can 'dance' with these changes by embracing the principles of complexity science to create highly adaptable and innovative organizations that recognise the value of intangible assets. The success of an organization usually depends on those working closest to the value-adding end of the business. It is those employees and their immediate leaders, who seem to have the greatest impact on the success of an organization. Managers-as-leaders can ease the way for those who depend on them for support and encouragement. People are the only true agents in a business or organization. All assets, whether tangible or intangible, are the result of human actions. Therefore, it is essential that people in organizations experience high levels of commitment to their work and value relationships and respect. These are fundamental requirements if rapid, timely and comprehensive information is to flow to the decision points within the organization in productive and sustainable ways. This book places people at the centre of the organization working within the theoretical framework of complex adaptive systems and shows how and why it works to create wealth and dignity. Organizational Jazz symbolically represents the joining of the certain with the uncertain creating an environment for innovation and performance.

**Lessons in Leadership from the Saints** BJ Gonzalvo Ph.D.,2017-07-11 The call to lead and the call to holiness are profoundly intertwined. But in our world today, what does it even mean to be a leader? What does it even mean to be holy? Using the timeless and transcendent wisdom of the saints and the latest findings in business and social science, this book takes an insightful examination of the leadership principles demonstrated in the lives of the saints and their applicability to our modern everyday lives. Faced with challenges where their faith and even their lives hung in the balance, the saints responses exemplify what are authentic, effective, and inspirational models of leadership that we can use to guide us to our eternal destination. Echoing the words of Saint Francis of Assisi, Come along, Ill show you how. Let us call on Francis, Dominic, Ignatius, Francis Xavier, Therese of Lisieux, Teresa of Avila, Maximilian Kolbe, Padre Pio, Mother Teresa, Pope John Paul II, and countless others who have gone before us to be our companions and guides, illuminating the path for us as we step up to lead and move forward to journey towards Christ.

**The 8th Habit** Stephen R. Covey, 2013-01-08 From Stephen R. Covey comes a profound, compelling, and groundbreaking book of next-level thinking that gives a clear way to finally tap the limitless value-creation promise of the “Knowledge Worker Age.” In the more than twenty-five years since its publication, the classic *The 7 Habits of Highly Effective People* has become an international phenomenon with more than twenty-five million copies sold. Tens of millions of people in business, government, schools, and families, and, most importantly, as individuals, have dramatically improved their lives and organizations by applying the principles of Stephen R. Covey’s classic book. The world, however, is a vastly changed place. Being effective as individuals and organizations is no longer merely an option—survival in today’s world requires it. But in order to thrive, innovate, excel, and lead in what Covey calls the “New Knowledge Worker Age,” we must build on and move beyond effectiveness. The call of this new era in human history is for greatness; it’s for fulfillment, passionate execution, and significant contribution. Accessing the higher levels of human genius and motivation in today’s new reality requires a change in thinking: a new mindset, a new skill-set, a new tool-set—in short, a whole new habit. The crucial challenge of our world today is this: to find our voice and inspire others to find theirs. It is what Covey calls the 8th Habit. So many people feel frustrated, discouraged, unappreciated, and undervalued—with little or no sense of voice or unique contribution. The 8th Habit is the answer to the soul’s yearning for greatness, the organization’s imperative for significance and superior results, and humanity’s search for its “voice.” Covey’s new book will transform the way we think about ourselves, our purpose in life, our organizations, and about humankind. Just as *The 7 Habits of Highly Effective People* helped us focus on effectiveness, *The 8th Habit* shows us the way to greatness.
