

Apuntes Filosofia 2 Bachillerato

Federico Lanzaco Salafranca

La República cósmica. Apuntes para una historia no peripatética del nacimiento de la filosofía en Grecia Antonio Capizzi, 2024-04-19 Entre los especialistas que a lo largo del siglo xx más abiertamente han criticado el modo aristotélico de entender la historia de la filosofía, se encuentra Antonio Capizzi (1926-2003). En La República cósmica, su obra cumbre, Capizzi somete a una profunda y audaz revisión la visión tradicional de los orígenes de la filosofía, que retrotrae a la Atenas de Pericles, y reinterpreta en clave política las doctrinas contenidas en los fragmentos de los mal llamados filósofos presocráticos.

Filosofía 2 ,

Historia de la Filosofía 2º de Bachillerato HIDALGO TUÑÓN, ALBERTO, ÁLVAREZ MARTINO, EVA, CENTENO PRIETO, SALVADOR, GARCÍA FERNÁNDEZ, ROMÁN, 2017-05-09 La Historia de la Filosofía es una materia que pone al alumnado en contacto con la historia de las ideas del pensamiento occidental, a la vez que facilita los recursos necesarios para la comprensión de su desarrollo y las relaciones que se dan entre ellas. Su conocimiento contribuye a la educación de personas autónomas, con capacidad de pensamiento crítico. Es una materia que persigue conseguir el logro de la mayor parte de los objetivos y competencias del Bachillerato. La principal innovación didáctica de este libro es que rompe con la tradicional presentación secuencial de la filosofía por periodos cronológicos o edades (Edad Antigua, Edad Media, Edad Moderna y Edad Contemporánea) y representa su desenvolvimiento mediante ciclos. No debe confundirse un círculo temporal con un ciclo. Mientras que un círculo es una figura en el espacio, un ciclo es un viaje emprendido a lo largo de una trayectoria circular, capaz de ser repetido una y otra vez, pero de tal modo que cada repetición cambia su coloración por efecto del contexto, aunque en sus sucesivos trayectos resuenen los ecos de las formulaciones originales y anuncien los nuevos sentidos hacia los que se proyectan. De esta forma los contenidos establecidos por la vigente normativa para este nivel educativo se ofrecen con una metodología adaptada al objetivo curricular: la Historia de la Filosofía no puede entenderse como una selección aislada de sistemas filosóficos, debido a que cada autor está siempre en diálogo tanto con su propia época como con las propuestas anteriores en la historia. De ahí que la materia se desarrolle también en un segundo nivel de profundización, a través de la presentación de los principales autores y corrientes del contexto del pensamiento de cada autor. La presentación del contexto filosófico debe ser suficiente para alcanzar un conocimiento amplio de la diversidad de ideas de cada época,

debe presentarse en relación con la filosofía del autor estudiado, por tanto, destacando aquellas cuestiones y polémicas que puedan aclarar su pensamiento, mostrando también los principales problemas filosóficos que se dan en la misma época.

APUNTES DE ECONOMIA 1 BACHILLERATO , Apuntes de Economía de 1º de Bachillerato para los alumnos del IES Gabriel García Márquez de Leganes.

Apuntes para la historia del derecho notarial de Yucatán Mario Humberto Aguilar Poot, 2025-01-17 EL TRABAJO QUE SE PRESENTA TIENE COMO PROPÓSITO estudiar la historia del derecho notarial de Yucatán a partir del primer decreto promulgado el 15 de noviembre de 1825 por el gobernador José Tiburcio López Constante, con la cual se abandonó el viejo régimen colonial de las escribanías reales para adoptar el sistema constitucional independiente de notarías públicas. La obra fija la mirada en los antecedentes políticos y jurídicos más sobresalientes que influyeron en la consolidación de la función notarial en esa región. Se trata, pues, de una investigación genuina construida con fuentes de información primarias y un alcance descriptivo e histórico; es descriptivo en la medida que permite la identificación de los elementos del derecho notarial para poder analizar objetivamente sus características y particularidades, y es histórico porque destaca los hechos y los ideales que contribuyeron a la historia del derecho notarial en esa entidad.

Filosofía 10 IGER, No se ha introducido texto.

Apuntes de Gramática Francesa Antonio González, 2022-03-17 Artículos, determinantes y pronombres posesivos, determinantes y pronombres demostrativos, pronombres personales, pronombres EN e Y, pronombres relativos, adjetivos calificativos, adverbios, la negación, números cardinales y ordinales, la comparación, la conjugación verbal en indicativo y subjuntivo, el participio de presente, el discurso directo o indirecto, los conectores del discurso, las relaciones lógicas como la expresión de la finalidad, la causa, la consecuencia, la concesión y la oposición; todo ello forma parte del esqueleto que sostiene la lengua francesa. La gramática es necesaria e imprescindible para el buen uso de cualquier lengua. En este libro encontrarás explicaciones claras y sencillas que te ayudarán a dominarla, junto con cientos de ejemplos y de ejercicios corregidos que te servirán para asentar los conocimientos adquiridos.

Apuntes para el púlpito Alejandro Vicuña, 1922

Filosofía. 1º Bachillerato BUGARÍN LAGO, ALEJANDRO, 2018-04-02 Este libro ha sido pensado como manual de consulta y trabajo para los alumnos que cursen la asignatura de Filosofía, de 1º de Bachillerato. En él se han recogido los contenidos del currículo de la legislación vigente. Siguiendo la organización propuesta en el currículo hemos estructurado el manual en cinco bloques temáticos: (1) El saber filosófico. (2) El conocimiento. (3) La realidad. (4) El ser humano desde la filosofía. (5) La racionalidad práctica. Cada uno de estos bloques temáticos, que va introducido por una ilustración y un texto pertinentes, incluye una o más unidades hasta completar un total de doce. Las unidades didácticas aparecen organizadas de la siguiente manera: • Al inicio de cada una aparece un texto representativo del contenido de esa unidad y que puede servir

como introducción al tema. • A continuación aparece un apartado que hemos titulado «Reflexiones previas», cuya función es sumergir al alumnado en los problemas que deben tratarse (al mismo tiempo que puede servir de orientación al profesor para conocer lo que el alumno sabe o cree acerca de la materia). • Seguidamente se desarrollan los contenidos, que aparecen organizados en varios subapartados. Hemos tratado de hacer una exposición sistemática de los mismos. (Aun cuando, con frecuencia, recurramos a los grandes filósofos del pasado o actuales para presentarlos; de este modo el alumno se introduce, simultáneamente, en la historia de la filosofía). Para facilitar la asimilación de dichos contenidos hemos optado por varios tipos de información: a) Exposición de los contenidos propiamente dichos, que el alumnado debe asimilar. b) Cuadros con informaciones curiosas (cuyo objetivo es una mayor motivación del alumnado), o informaciones orientadas a la ampliación de conocimientos. c) Textos relacionados con el tema de filósofos o científicos (preferentemente los propuestos en los estándares de aprendizaje evaluables). d) Biografías de filósofos o científicos importantes. e) Esquemas, definiciones, actividades de reflexión. • Un último apartado de ideas fundamentales, ofrece una recapitulación de los contenidos de la unidad. • Al final de cada unidad aparecen varias páginas con actividades diversas (videoteca, conceptos para definir, textos para leer y comentar, temas para debatir y cuestiones para responder) que ayudarán a los alumnos a desarrollar ciertas actitudes y capacidades, y a asimilar los contenidos propuestos de un modo más activo. Se ha dado una orientación sistemática a todo el libro, usando, para ello, como hilo conductor, la reflexión sobre el ser humano, entendido como un ser libre y abierto al mundo, y presentando a la filosofía como un saber que trata de construir un proyecto global de vida humana. Igualmente, también hemos intentado familiarizar a los alumnos con la historia de la filosofía, recogiendo, en las unidades didácticas que era pertinente hacerlo, aquellas propuestas que esta disciplina ha elaborado a lo largo de la historia para dar solución a los problemas que se le han ido presentado.

Apuntes para una espiritualidad bíblica universal Federico Lanzaco Salafranca, 2017-09-11 China y la India son los testimonios más evidentes de que las grandes civilizaciones han desarrollado las excelencias de sus esplendorosas culturas milenarias al estar sus ciudadanos inspirados y fortalecidos por unos valores aprendidos de unos libros sagrados que les han forjado el espíritu interior que les ha permitido alcanzar las cotas más elevadas de la historia humana. En China, fueron los cinco libros clásicos del gran Maestro Confucio (s. VI-V a. C.) y el Daodejing del anciano sabio Laozi (VI-V a.C.), verdaderas guías del comportamiento ético con responsabilidad social, armonía universal y energía creativa liberadora del ciudadano. Y en la India hinduista destaca la profundidad del pensamiento de los textos sagrados Rig Vedas, el importante esplendor espiritual del Bhagavad Gita (concluido en el s. I a.C. pero con orígenes muy anteriores), y la reconfortante enseñanza de la compasión budista, especialmente reflejada en el sacrosanto Sutra del Loto (redactado en el s. I a.C.). Asimismo, nuestra cultura occidental viene enraizada y fundamentada en las Escrituras Sagradas de la Biblia. Lamentablemente, la Reforma de Lutero nos alejó de la inspirada comunicación personal directa con la Palabra divina. El Concilio Vaticano II (1963-1965), al

fin, nos exhortó de nuevo a familiarizarnos con un diálogo directo con Dios ya que su palabra “es más cortante que una espada de dos filos y penetra entre el alma y el espíritu hasta las junturas y médula...” (Epist. Hebr. 4:12). Estos sencillos Apuntes intentan ofrecer en un lenguaje claro, fácilmente comprensible al hombre de hoy, una explicación sólida y exenta de interpretaciones subjetivas. El contenido del volumen está dividido en cinco libros: I. Introducción general a la Biblia. – II. Temas fundamentales de la Biblia (Dios, Alianza y los Profetas). – III. Introducción al Antiguo Testamento. – IV. Nuevo Testamento y su Testimonio. – V. Temas de actualidad. La Biblia, en resumen, es una guía espiritual que nos anima a seguir caminando siempre hacia adelante y mirando hacia arriba, como auténticos “hijos de la tierra y herederos del Cielo” (Teilhard de Chardin).

Obras y apuntes. Tomo I: Camila Henríquez Ureña Salomé Camila Henríquez Ureña, 2020-09-10 En la obra y apuntes de la Profesora Emérita Salomé Camila Henríquez Ureña es común encontrar frases o párrafos entrecomillados o referencias a pasajes o personajes que luego no aparecen a pie de página con las aclaraciones correspondientes, como es tradicional en los libros. Esto se debe a la práctica, universalmente válida, que siguen los profesores en la preparación de sus clases, y que después se aclaran en el aula, proceder que forma parte del ritual pedagógico. Conocedora de la ejemplar honradez intelectual y personal de Camila, y su proverbial modestia, la Comisión que tuvo a su cargo la investigación de toda su papelería con el objetivo de realizar su publicación, estimó que era lo más adecuado respetar los originales y hacer la presente aclaración, teniendo en cuenta que Camila nunca consideró que dichos trabajos fueran a publicarse. Así mismo consideró que con el objetivo de evitar repeticiones innecesarias se publicará en el tomo titulado Documentos Varios el catálogo donde aparecen clasificados cada uno de los documentos de Camila que se encuentran en los archivos del Insituto de Literatura y Lingüística de Cuba. Solamente en el caso de aquellos en que fue necesario de ponerle un título por no poseerlo, se hará la correspondiente aclaración a pie de página.

Hombres y documentos de la filosofía española Gonzalo Díaz Díaz, 1980 Ab Bd. 3 ersch. bei: C.S.I.C. Centro de Estudios Historicos Madrid.

Filosofía y educación Carmelo Blanco Mayor, Tomás Miranda Alonso, José Ma Melero Martínez, 1993

Gramática descriptiva de la lengua española: Las construcciones sintácticas fundamentales. Relaciones temporales, aspectuales y modales Ignacio Bosque, Violeta Demonte, 1999

Indice español de ciencias sociales, 1993

Historia de la Filosofía Moderna Félix Duque, 1998-03-12 En poco más de cien años se desarrolla en Alemania un gigantesco esfuerzo intelectual: el intento de emular y aun superar a la Grecia clásica, y el de asimilar el cataclismo de la

Revolución Francesa interiorizándolo a través de otra revolución previa: la revolución en el modo de pensar exigida por Kant en la Crítica de la razón pura. El presente volumen examina el alcance, el influjo y las modificaciones de esa aetas kantiana, prolongada en el Idealismo, que comenzó sometiendo la sacralidad de la religión y la majestad del poder principesco al soberano Tribunal de la Razón y acabó con la espectacular conversión schellingiana de la filosofía en religión filosófica tras la muerte de Hegel.
