The Bloomsbury Handbook of Religion, Gender, and Sexuality in the Ancient Near East Shawna Dolansky, Sarah Shectman, 2025-06-12 Cutting across disciplinary boundaries and challenging traditional understandings of historical cultures, this handbook examines the ways in which gender, sexuality, and religion were mutually constructed and negotiated in ancient Near Eastern societies. Chapters look at ritual and ceremonial practices, iconographic representations, mythological and divinatory texts, personal beliefs, and piety. The book explores these topics by adopting religion as a category of inquiry to understand gender roles and the intersections of sexualities with religious worldviews. With a focus on particular case studies, this volume provides a broad and interdisciplinary overview of key areas and issues across the study of religions, genders, and sexualities in the ancient Near East. Each section is introduced by the editors with a discussion of relevant terminology, as well as convergences and divergences of rituals, beliefs, practices, and themes among the contributions. Ranging from in-depth discussions of single texts to cross-cultural anthropological and sociological comparisons, the international contributions showcase the latest work of established scholars as well as emerging voices.

Lower Zach Meerkreebs, 2025-01-14 In this inspiring account, a pastor shares how radical humility ignited a sixteen-day revival on a small college campus—and why it is an essential tool for building a closer relationship with God. As Zach Meerkreebs ended his sermon on the campus of Asbury University, he challenged, “Do not leave here until you experience the love of God so that you can pour it out.” Several students remained, praying and worshipping, and others joined them until a crowd formed that grew to over 65,000 and covered the campus and small Kentucky town. As the worshipping and praying continued, for sixteen days and nights, the media began reporting on what came to be called the Asbury Outpouring. In Lower, Zach shares his experiences at the Outpouring and answers his own question, what sparked this revival? With personal stories, Scripture, testimonies from Asbury, wisdom from other Christian writers, and key insights he has received in quiet moments with Jesus, Zach shows readers the path to radical humility and deeper friendship with God. As we go lower

in our pursuit of humility, we can steward spaces prepared for a move of God and shine Jesus to all those who are watching.

The Hero Journey in Literature Evans Lansing Smith, 1997 This book provides an overview of the hero journey theme in literature, from antiquity to the present, with a focus on the imagery of the rites of passage in human life (initiation at adolescence, mid-life, and death). This is the only book to focus on the major works of the literary tradition, detailing discussions of the hero journey in major literary texts. Included are chapters on the literature of Antiquity (Sumerian, Egyptian, Biblical, Greek, and Roman), the Middle Ages (with emphasis on the Arthurian Romance), the Renaissance to the Enlightenment (Shakespeare, Milton, Marvell, Pope, Fielding, the Arabian Nights, and Alchemical Illustration), Romanticism and Naturalism (Coleridge, Selected Grimm's Tales, Brontë, Bierce, Whitman, Twain, Hawthorne, E.T.A. Hoffman, Rabindranath Tagore), and Modernism to Contemporary (Joyce, Gilman, Alifa Rifaat, Bellow, Lessing, Pynchon, Eudora Welty).

The Routledge Companion to Surrealism Kirsten Strom, 2022-11-08 This book provides a conceptual and global overview of the field of Surrealist studies. Methodologically, the companion considers Surrealism's many achievements, but also its historical shortcomings, to illuminate its connections to the historical and cultural moment(s) from which it originated and to assess both the ways in which it still shapes our world in inspiring ways and the ways in which it might appear problematic as we look back at it from a twenty-first-century vantage point. Contributions from experienced scholars will enable professors to teach the subject more broadly, by opening their eyes to aspects of the field that are on the margins of their expertise, and it will enable scholars to identify new areas of study in their own work, by indicating lines of research at a tangent to their own. The companion will reflect the interdisciplinarity of Surrealism by incorporating discussions pertaining to the visual arts, as well as literature, film, and political and intellectual history.

Sustainable Happiness Joe Loizzo, 2012-09-10 Today's greatest health challenges, the so-called diseases of civilization—depression, trauma, obesity, cancer—are now known in large part to reflect our inability to tame stress reflexes gone wild and to empower instead the peaceful, healing and sociable part of our nature that adapts us to civilized life. The same can be said of the economic challenges posed by the stress-reactive cycles of boom and bust, driven by addictive greed and compulsive panic. As current research opens up new horizons of stress-cessation, empathic intelligence, peak performance, and shared happiness, it has also encountered Asian methods of self-healing and interdependence more effective and teachable than any known in the West. Sustainable Happiness is the first book to make Asia's most rigorous and complete system of contemplative living, hidden for centuries in Tibet, accessible to help us all on our shared journey towards sustainable well-being, altruism, inspiration and happiness.

The Gospel According to Matthew Expounded Henry Thomas Adamson, 1871

Ricorso and Revelation Evans Lansing Smith, 1995 Ricorso and Revelation traces the impact on Modernism of the archaeological discoveries of the Palace of Knossos, the Royal Cemetery of Ur, and the Tomb of Tutankhamen, and the artifacts recovered from these sites, showing how they entered the narrative strategies of the Modernist movement. The author also develops a new argument about the four myth configurations - the maze, alchemy, the Great Goddess, and the Apocalypse - which were of central importance to the literature of European Modernism between 1895 and 1946, studying their appearances in a wide range of European modernist writers and in the paintings of Picasso and the films of Jean Cocteau. Drawing from a variety of theories on myth, Smith suggests that each of these four myths represents a creative return to the origins (ricorso), a reduction of the raw materials of daily life to the fundamental elements of creation (revelation), followed by a recreation of the world (cosmogogenesis), of the poet (ontogenesis), and of the text (poesis/I>).

The Three Stages of Initiatic Spirituality Angel Millar, 2020-02-11 A detailed guide to the three successive initiatic archetypes: Craftsman, Warrior, and Magician • Investigates the symbolism, rituals, and metaphysical aspects of each initiatic archetype, from the alchemy and shamanism of the craftsman, to the subtle energy work of the warrior, to the sex magic practices and Higher Self work of the magician • Shares meditations, practices, and transformational techniques for each archetype • Investigates the similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the “positive thinking” mind metaphysics movement Exploring the craftsman, warrior, and magician archetypes--three vocations that echo the traditional tripartite division of society--Angel Millar reveals how these archetypes represent the three successive stages of spiritual growth in an individual's life. He shows how they provide structure for the initiatory process to develop one's mental, physical, and spiritual potential. As craftsman, the individual experiences “mnemonic” initiation: the cultivation of memory as well as language. As warrior, “somatic” initiation: development of the physical body and cultivation of the spirit body. And as magician, “gnostic” initiation: cultivation of the self and manifestation of the Higher

Self. Investigating the metaphysical aspects of each archetype, the author explores their symbolism, spiritual practices, and rituals. Examining the craftsman archetype, he looks at metallurgy, alchemy, and the “Craft” of Freemasonry, as well as the ancient role of blacksmith as shaman. He explores the idea of God as a “Creator” or “Craftsman,” especially in relation to ancient Greek philosophy, Islamic neoplatonism, and the Kabbalah. Examining the warrior archetype, he reveals how the way of the warrior was affected by religion and mysticism, such as how the Persian martial art of Zoorkhaneh was profoundly shaped by Sufism and why the Buddhist Shaolin temple became synonymous with Kung Fu. The author places special emphasis on the cultivation of subtle energy as practiced in martial arts, especially in relation to Taoist inner alchemy. Examining the magician archetype, he reveals how each individual has two “selves”—a lower self and a Higher Self—and explores the union of opposites studied by the magician, such as in the tantric arts and sacred sex magic. Sharing meditations, practices, and processes associated with each archetype, as well as techniques for transforming one’s consciousness, he also investigates similarities between contemporary Western occultism, from Crowley to Chaos Magic, and the “positive thinking” mind metaphysics movement. Structured to parallel the three archetypal stages of the initiatic process, this comprehensive guide offers a literary initiation through three degrees of esoteric knowledge.

Brann, 2016-11-28 In this book, Eva Brann sets out no less a task than to assess the meaning of imagination in its multifarious expressions throughout western history. The result is one of those rare achievements that will make *The World of the Imagination* a standard reference.

The Power of Human Imagination Jerome L. Singer, Kenneth S. Pope, 2012-12-06 For at least half of the twentieth century, psychology and the other mental health professions all but ignored the significant adaptive possibilities of the human gift of imagery. Our capacity seemingly to duplicate sights, sounds, and other sensory experiences through some form of central brain process continues to remain a mysterious, almost miraculous skill. Because imagery is so much a private experience, experimental psychologists found it hard to measure and turned their attention to observable behaviors that could easily be studied in animals as well as in humans. Psychoanalysts and others working with the emotionally disturbed continued to take imagery information seriously in the form of dream reports, transference fantasies, and as indications of hallucinations or delusions. On the whole, however, they emphasized the maladaptive aspects of the phenomena, the distortions and defensiveness or the regressive qualities of daydreams and sequences of images. The present volume grows out

of a long series of investigations by the senior author that have suggested that daydreaming and the stream of consciousness are not simply manifestations in adult life of persisting phenomena of childhood. Rather, the data suggest that imagery sequences represent a major system of encoding and transforming information, a basic human capacity that is inevitably part of the brain's storage process and one that has enormous potential for adaptive utility. A companion volume, *The Stream of Consciousness*, edited by Kenneth S. Pope and Jerome L.

Stitch, Unstitch Kristin Grogan, 2025-08-26 The labor of literature is often thought of as a specialized craft, distinct from everyday work. In *Stitch, Unstitch*, Kristin Grogan traces an alternative vision of writing and the writer, arguing that modernist poetry was deeply shaped by ordinary labor and the people who performed it. This relationship provoked powerful political and aesthetic experiments—and allowed modernist poets to imagine ways of life beyond the demand to earn a living. Poetic form, Grogan shows, offers ways to reflect on the meaning and worth of labor, particularly types of gendered labor that are typically unseen and undervalued. Her fine-grained readings locate modernist poetry within sites of social reproduction, factory work, craft labor, and other forms of manual labor, placing literary texts alongside objects such as constructivist posters and set design, household notes, and homemade books. Grogan considers Ezra Pound's ideology of craft and artisanal labor; Lola Ridge's immersion in the New York garment industry; Langston Hughes's encounter with Soviet workers' theater; Gertrude Stein's gendered and queer domestic labors; and Lorine Niedecker's employment as a hospital cleaner. Blending Marxist and feminist theory with attentive close readings, *Stitch, Unstitch* is a revelatory materialist account of the values of poetry.

Proverbs Christopher B Ansberry, 2024 Designed for the pastor and Bible teacher, the Zondervan Exegetical Commentary on the Old Testament features today's top Old Testament scholars and brings together commentary features rarely gathered together in one volume. With careful discourse analysis and interpretation of the Hebrew text, the authors trace the flow of argument in each Old Testament book, showing that how a biblical author says something is just as important as what they say. Commentary on each passage follows a clear structure to help readers grasp the flow and meaning of the text: The Main Idea of the Passage: A one- or two-sentence summary of the key ideas the biblical author seeks to communicate. Literary Context: A brief discussion of the relationship of the specific text to the book as a whole and to its place within the broader argument. Translation and Exegetical Outline: Commentators provide their own translations of each text, formatted to highlight its discourse structure and accompanied by a coherent outline that reflects the flow and argument of the text. Structure and Literary Form: An overview of the literary structure and rhetorical style adopted by the biblical author, highlighting how these features contribute to the communication of the main idea of the passage. Explanation of the Text: A detailed commentary on the passage, paying particular attention to how the biblical authors select and arrange their materials and how they work with words, phrases, and syntax to communicate their messages. Canonical and Practical

Significance: The commentary on each unit will conclude by building bridges between the world of the biblical author and other biblical authors and with reflections on the contribution made by this unit to the development of broader issues in biblical theology--particularly on how later Old Testament and New Testament authors have adapted and reused the motifs in question. The discussion also includes brief reflections on the significance of the message of the passage for readers today. The Zondervan Exegetical Commentary on the Old Testament series is the go-to resource for pastors and Bible teachers looking for deep but accessible study that equips them to connect the needs of Christians today with the biblical text.
