**Major Poems of the Hebrew Bible** Jan Fokkelman, 2018-07-17 The Book of Job contains the only sustained, through-composed work in verse in the Hebrew Bible. This makes it very suitable as a testing area for the rules of verse structure and all other aspects of prosody that were developed in Major Poems of the Hebrew Bible Vol. II and are now also available in Reading Biblical Poetry. This fourth and last volume completes the study that in Vol. I started with Job 3 (curses and complaint), and continued with the first round of the debate (chs.4-14) in Vol. II. Again, the analysis follows two separate circuits: on the one hand that of language, style and structure, on the other hand that of measuring proportions on at least five textual levels. The poetry section of the Book of Job contains 412 strophes, of which the protagonist Job speaks exactly half. His portion of 206 strophes is also divided into equal halves: in 103 short and 103 long strophes. Even more than in the Psalms, the norm figures 7, 8 and 9 play an essential part in the composition of the poems and their average number of syllables per colon. The forty poems of the book exhibit various forms of numerical perfection, and the correct demarcation of strophes and stanzas is found to considerably improve and expand our understanding of its contents.

**Transformation by the Spirit and the Word** Will Loescher, 2023-03-01 This book is a distillation of reading Acts for over fifty years, preaching it for twenty-five years, and studying it in-depth for five years. My aim is for students, church leaders, preachers, and missionaries to join me on a journey of narrative theology—a literary exploration of transformation by the Spirit and the Word in Acts. As with every part of God’s inspired Scriptures, there is always more to discover and apply. As a Reformed Charismatic I believe that Acts is our story. However, rather than just attempting to copy it, I suggest that the book’s unexpected literary shape reveals a challenging missional significance. The need for world gospel mission continues today. However, like the early church, we often contain the Holy Spirit within our own structures and are reluctant to move out of our comfort zones. Acts shows the church’s priority is to be God’s mission instrument in the world. Let’s study, lead, preach, and go from Acts so that we realize Jesus’s promise “that you will receive power when the Holy Spirit comes upon you and you will be my witnesses in Jerusalem, Judea and Samaria, and to the end(s) of the earth” (Acts 1:8).

**Functional Applications of Text Analytics Systems** Steven Simske, Marie Vans, 2022-09-01 Text analytics consist of the statistics about a text element, which includes the word count, the word histogram, and the word frequency histogram. Most text documents of value are related to other—sometimes many other—documents, and so analytics describing the relative frequency of terms in a document compared to its peers are important for defining key words (tagging, labeling, indexing), search-responsive terms (query terms), and compressed versions of the documents (key words, summary, etc.). This clearly written text explains the functional applications of search, translation, optimization, and learning with

regard to text analytics. Generation of analytics is aided by a hybrid, ensemble, or other combinatorial approach in which two or more effective analytic processes are used simultaneously, and their outputs combined to form a better “consensus”. Additional value to the preservation of the information is provided through these methods. Also, since they encompass capabilities of two or more knowledge-generating systems, they can create a “superset” of access points to the data generated. The book also describes the role of functional approaches in the testing and configuration of these systems.

**Many Are Saying** Rolf A. Jacobsen, 2004-04-01 In recent years, Old Testament scholars have come to see that the aesthetic and rhetorical richness of Hebrew poetry goes far beyond simple synonymous, antithetic, and synthetic parallelism. One aspect that has yet to receive sustained treatment is the poetic device known as direct discourse or quotation-the direct citation of a person's speech. Rolf A. Jacobson remedies this lack and makes a significant contribution to Old Testament studies by offering a sustained investigation into the function of direct discourse in the Hebrew Psalter. This leads to a greater understanding both of direct discourse and also of those psalms in which this poetic device occurs.
