Aristotle, Adam Smith and Karl Marx Spencer J. Pack, 2010-01-01 . . . a very valuable introduction to Aristotle's economics. History of Economic Ideas Spencer Pack is completely at home with the difficult works of Aristotle, Adam Smith and Karl Marx. To walk with him through their writings is to discover that they are surprisingly helpful in understanding the modern world of computers, credit crunches, religious differences, international conflicts, and unemployment due to oversaving in China and undersaving in America. One is left after reading them with growing admiration for the giants of past intellectual history. This is only one lesson that Pack teaches in this illuminating book. Mark Blaug, University of London and University of Buckingham, UK This is an unusually ambitious and unpretentious work. And it is successful. Pack effectively compares the ideas of each of the three great men without forcing those of one upon the others. The topics are exchange value, money, capital, character, government, and change, which the author considers to be the fundamental issues in 21st century political economy. Pack is especially successful in utilizing a wide spectrum of secondary (including contemporary) sources to enrich the analysis of the expected primary sources. Student readers will be exposed to the opportunities and problems of variation in interpretation. The author has studiously avoided insinuating and privileging his own views and naively repeating well-worn and misleading, if not also erroneous, ideology-laden positions. Warren J. Samuels, Michigan State University, US Spencer Pack has written a most illuminating and insightful book. Beginning from Aristotelian foundations, Pack focuses our attention on an essential economic and moral issue: the difference between value in use and value in exchange. From this vantage point, he evaluates the arguments of Smith and Marx, demonstrating how their theories, both drawing on Aristotle, unfold into a general analysis of capitalism. His account forces us to think deeply about the nature of capitalist society. I recommend it highly. John F. Henry, University of Missouri-Kansas City, US Spencer Pack compares and contrasts Aristotle's, Smith's and Marx's theoretical systems on six fundamental issues: exchange value, money, capital, character, government, and change. This book also provides insights on issues concerning the continuing development of world money, saving, managerial capitalism, corrupt governments, and various secular and religious

movements for social change.

Max Weber's Sociology of Intellectuals Ahmad Sadri, 1994-10-27 The social role of intellectuals was a pervasive motif in Weber's thought, particularly in his works on religion and politics. Comprehensively examining and extending Weber's work on the subject, Sadri provides a new perspective on the intelligentsia and its role in society. He also provides a synthetic typology of intellectuals which spans both Eastern and Western traditions. Culling Weber's scattered observations on the subject, Sadri lays a theoretical foundation for a Weberian sociology of intellectuals, making it a valuable resource for scholars interested in the reflections of this great thinker.

Handbook of Classical Sociological Theory Seth Abrutyn, Omar Lizardo, 2021-11-01 This is the first handbook focussing on classical social theory. It offers extensive discussions of debates, arguments, and discussions in classical theory and how they have informed contemporary sociological theory. The book pushes against the conventional classical theory pedagogy, which often focused on single theorists and their contributions, and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and theoretical traditions. This book presents new approaches to thinking about theory in relationship to sociological methods.

If You're an Egalitarian, How Come You're So Rich? G. A. Cohen, 2009-07-01 Focusing on Marxism and Rawlsian liberalism, G. A. Cohen argues that egalitarian justice is not only a matter of rules that define the structure of society, but also a matter of personal attitude and choice. Personal attitude and choice are, moreover, the stuff of which social structure itself is made.

A People's History of the United States Lin Xun, Dead Writers Club, Pointer Institute, Rex Curry, 2016-06-17 Superwriter and Supermodel Lin Xun (that's Lin as the covergirl) is the author of this full frontal exposure of the USA. Find out what is taught in the schools of other countries that the USA doesn't teach in its schools. Xun teaches the USA's history to students in China (and other countries), including facts hidden in the USA's classrooms such as: (1) that the Pledge of Allegiance to the Flag was the origin of the Nazi salute and Nazi behavior; (2) Swastikas represented crossed S letter shapes for socialist under Hitler (two of the many astounding discoveries by Sociologist Dr. Rex Curry). Xun reveals all on flag bikinis, flag fetishism, flag propaganda, and more. Each book is personally handled, wrapped, and posted by Lin Xun (in the nude). Or by the publisher, depending on who's available. What do other countries think about the USA's Pledge of Allegiance today? Xun tells all as she joins forces with the Dead Writers Club in this eye-popping page-turner. Learn how the USA and its pledge inspired police states globally. Will America escape the madness? Will you? Save yourself from the cult of the omnipotent state! The book *A People's History of the United States* introduces readers to Anarchaeology, Misanthropology, and the Socialist Crusades, the Latest Socialist Dark Age, and the Modern Socialist Inquisitions, which resulted in the Wholecaust (of which the Holocaust was a part). Adolf Hitler, Joseph Stalin, Mao Zedong and other socialists are exposed along with the

influence of socialists in the United States upon those dictators. As part of the Dead Writers Club (DWC), Lin Xun has collaborated with the authors Micky Barnetti and Matt Crypto. Another volume by the Dead Writers Club is the self-titled Dead Writers Club and Drug Detection Dog Training -Libertarian Lawyers Fight Police State USA. The DWC collaborated on the groundbreaking book Pledge of Allegiance & Swastika Secrets. It is a semi-biographical work about the nation's leading authority on the Pledge of Allegiance and his many discoveries about its bizarre past and present. The DWC also assisted with a classic science fiction tale revealing an amazing discovery about time travel.

The Big Book of Jewish Conspiracies David Deutsch, Joshua Neuman, 2005-04 What if anything they ever said about Jews was true? Postmodern satire that hilariously addresses Jewish badness through the ages, from the editors of the magazine The New York Times calls the epicenter of all things hipster-Jewish and ironic The Big Book of Jewish Conspiracies takes as its modest proposal an extreme theme: what if the most damaging charges ever leveled against Jews were all true? Spanning the history of Western Civilization, each of these assertions is explored in turn, including: --Ancient Jewish Conspiracies: How Moses led the Exodus so Jews would later have a justification for establishing the state of Israel --Medieval Jewish Conspiracies: How Blood Libel began after an unfortunate baking accident resulted in the tastiest Matzoh ever --Jewish Conspiracies during the Enlightenment: Upset by lack of opportunity for Jews in Bourbon France, entrepreneurs turn culottes into an unaffordable craze, leaving the sans-culottes thirsty for revolution --Modern Jewish Conspiracies: The invention of psychoanalysis as a way to hypnotize wealthy and powerful Gentiles --Post-Modern Conspiracies: Jews invent fast food to turn buff, sports-playing Gentiles into doughy copies of the average Jewish accountant's physique And that's not all!**Why the Jews invented and still run Hollywood**World War II as a brilliant coup that got Jews accepted into mainstream American society**How circumcision became a widespread health procedure**Why the Jews were behind 9/11 You know what they say: two Jews, three conspiracies. -author Joshua Neuman

Special Sexual Operations.Accounting for Resistance to the Colonial “Gift” of Homosexuality in Twenty-First Century Africa Artwell Nhemachena, Munyaradzi Mawere, 2024-03-01 Even as African states are currently legislating against homosexuality in order to protect their societies, there are some emergent Eurocentric discourses seeking to legalize bestiality involving sex between humans and nonhuman animals. Indeed, binaries between humans and nonhumans are being challenged, and speciesism is being deconstructed to pave the way for interspecies sex. Critically interrogating these dissident and subversive sexualities in novel ways, this book also deals with emergent humanoid sex robots which are challenging human marriages and families, by replacing human spouses. The book is relevant to anthropologists, sociologists, lawyers, legislators, politicians, theologians, historians, philosophers and educators. “Huge commendations are due for the

gargantuan work done on this book which speaks to the past, present and future of African sexualities. These are revolutionary thoughts that change the traditional Western scholarship landscape in the field of sexualities. The book inculcates and imparts African people-centred strategic architectural futuristic flavor for building Africa's competitive positioning in the discourses on sexualities for the centuries ahead. Indeed, it is commendable and deserves an award for revitalizing Africanity and Africanism renaissance. I am sure this book is going to stimulate broad discussions from Africa and the rest of the world which have sadly been fed with Eurocentric single stories on African sexualities." Professor Eginald P. Mihanjo, Saint Augustine University of Tanzania "This is a must-read book. It grapples with the important question: 'Why the West would want to decolonize only by 'returning' homosexuality to Africans and not by returning African land, artefacts, skulls and skeletons?' The book challenges the systemic humanophobic mission, orchestrated by neo-capitalists in the Euro-American world and their allies in Africa. Until we hold together the ethical and ontological boundaries of marriage as a divine-cultural mandate, secured in its sociogenic logicity, all the debates about decolonization will not save us from the ultimate crime of promoting ontological disorderliness." Charles Prempeh, PhD (Cantab), Research Fellow, Centre for Cultural and African Studies, Kumasi, Ghana, and author of *Gender, Sexuality and Decolonisation in Postcolonial Ghana: A Socio-Philosophical Engagement*

The Light of Plants Ali Gulhan, 2023-05-24 The apple that fell on Newton's head, the hemlock that poisoned Socrates, the sunflower that inspired Van Gogh, the olive branch that signaled the end of the war to Noah, the laurel in Apollo's crown, the black pepper that led to the discovery of America, the potato that caused millions of people to migrate. From the plants we grow outside our windows to the trees in forests, plants have been deeply connected throughout history. This book aims to look at these unrecognized connections from a different perspective. We hope that the light that plants add to our lives will also enlighten the readers.

Spiritual Intelligence and the Neuroplastic Brain Charles W. Mark Ph. D., Charles W. Mark, 2010 Our brains are getting wired differently in the world of digital technology, information revolution, and in the inter-cultural world of global society. Think of the new vocabulary: Global brain, collective intelligence, global village, and cyberspace. That should tell us something about the neural rewiring that is taking place inside of our brains, whether or not we are aware of it. The fact that the human brain changes throughout a person's life in response to intellectual stimulation, physical exercise, exposure to new cultural environments, learning opportunities, and challenges is a revolutionary discovery. Till twenty years ago neuroscientists believed in the conventional theory that the brain's ability at making new neural connections stopped before a child entered adolescence. That is the old dogma. There is a Second Copernican Revolution taking place inside of our brains, writes the author, quoting Carl Zimmer. Some experts are suggesting that we are already living in what Richard Restack calls the neurosociety. Ray Kurzweil, the futurist, is predicting that by 2045 A.D., human beings will be living in an

era of singularity, when non biological machines invented by human brains and human ingenuity are going to outsmart human intelligence billions of times. What is going to be the fate of the human spirit, human spirituality, the feeling of connection to a force and power that is greater than us (God), our ability to use spiritual imagination and our intelligence? Are we progressively moving away from religion and community-based spirituality into the spirituality of different strokes for different folks? In his groundbreaking book, *Spiritual Intelligence and The Neuroplastic Brain: A Contextual Interpretation of Modern History*, Charles W. Mark takes the reader on a journey through modern history and shows the glimpse of what is to come. <http://www.spirituality-intelligence.com>

Libertarian History Lin Xun, Dead Writers Club, Pointer Institute, Rex Curry, 2016-07-24 Supermodel (that's her on the cover) and Superwriter Lin Xun bares all in this book about history and the never-ending fight for liberty. She exposes anti-freedom schemes, including these shockers: (1) that the Pledge of Allegiance to the Flag was the origin of the Nazi salute and Nazi behavior; (2) that the military salute was the origin of the Nazi salute (via the military salute's use in the original Pledge of Allegiance) and; (3) Swastikas represented crossed S letter shapes for socialist under Hitler (three of the many astounding discoveries by avant-garde Political Scientist Dr. Rex Curry. The government calls Dr. Curry the man who knows too much). Each book is personally handled, wrapped, and mailed by Lin Xun (in the nude). Or by the publisher, depending on who's available. In this book, Lin spans history's bottom, leaving red hand prints. Like a true patriot fashionista, she uses the flag as her own personal butt floss. The flag never objected. With a message from the socialist Kim Jong-un, the book *Libertarian History* introduces readers to Anarchaeology, Misanthropology, and the Socialist Crusades, the Latest Socialist Dark Age, and the Modern Socialist Inquisitions, which resulted in the Wholecaust (of which the Holocaust was a part). Adolf Hitler, Joseph Stalin, Mao Zedong and other socialists are exposed along with the influence of socialists in the United States upon those criminals. Author Lin Xun is part of the Pointer Institute for Media Studies, as well as the Dead Writer's Club (DWC -an author's group). Lin and the Pointer Institute provide remedial education to journalists about history, economics, government, and more. They untangle those twelve years of brainwashing that cripples news reporters. In their fight against media incompetency, the DWC joined with the Pointer Institute in 2016 to shut down the Tampa Tribune Newspaper. As part of the Dead Writers Club (DWC), Lin has collaborated with the authors Micky Barnetti and Matt Crypto. Another volume by the Dead Writers Club is *Drug Detection Dog Training -Libertarian Lawyers Fight Police State USA*. It is also available where fine books are sold. Lin says: Students in government schools (socialist schools) should not drink the Kool-Aid every morning. For those who have, Lin's book contains the antidote. In her star-spangled writing, Lin shows you how to save yourself from the cult of the omnipotent state! [dramatic musical flourish]

Sports Fans, Identity, and Socialization Exploring the Fandemonium Adam C. Earnheardt, Paul M. Haridakis, Barbara S. Hugenberg, 2012-01-01 Once deemed an unworthy research endeavor, the study of sports fandom has garnered the attention

of seasoned scholars from a variety of academic disciplines. Identity and socialization among sports fans are particular burgeoning areas of study among a growing cadre of specialists in the social sciences. *Sports Fans, Identity, and Socialization*, edited by Adam C. Earnhardt, Paul Haridakis, and Barbara Hugenberg, captures an eclectic collection of new studies from accomplished scholars in the fields such as communication, business, geography, kinesiology, media, and sports management and administration, using a wide range of methodologies including quantitative, qualitative, and critical analyses. In the communication revolution of the twenty-first century, the study of mediated sports is critical. As fans use all media at their disposal to consume sports and carry their sports-viewing experience online, they are seizing the initiative and asserting themselves into the mediated sports-dissemination process. They are occupying traditional roles of consumers/receivers of sports, but also as sharers and sports content creators. Fans are becoming pseudo sports journalists. They are interpreting mediated sports content for other fans. They are making their voice heard by sports organizations and athletes. Mediated sports, in essence, provide a context for studying and understanding where and how the communication revolution of the twenty-first century is being waged. With their collection of studies by scholars from North America and Europe, Earnhardt, Haridakis, and Hugenberg illuminate the symbiotic relationship among and between sports organizations, the media, and their audiences. *Sports Fans, Identity, and Socialization* spurs both the researcher and the interested fan to consider what the study of sports tells us about ourselves and the society in which we live.

Islam and the West Michael J. Thompson, 2003-08-18 Since the terrorist attacks of September 11th the topic of Islam's political, cultural, religious, and spiritual tendencies and beliefs has been thrust into the spotlight. However, most discussions concerning Islam's relation to the West tend to simplify and distort the intricate nature of the problem. The essays in *Islam and the West* approach the interactions of Islam, the West, and modernity through overlapping social, historical, economic, cultural, and philosophical layers. Viewed through this complex prism of analysis, the full dimensions of the relationship become clear. The result is a deeper understanding of the nature of modernity and how other societies can relate to each other in an increasingly complex, globalizing world.

Talcott Parsons and the Social Image of Man (RLE Social Theory) Ken Menzies, 2014-08-21 This account of Talcott Parsons's work clarifies his basic concepts and sets out their correlation. Dr Menzies believes that the philosophy of science working within the confines of the analytic-synthetic distinction tends to provide a rigid, static and sterile account of theories. He presents a more dynamic account of the scientific enterprise in order to come to grips with the amorphous nature of theory, and to provide the basic framework for his analysis of Parsons. Menzies argues that Parsons's central problematic in *The Structure of Social Action* is utilitarianism in general and the classical economists' account of the rise of capitalism in particular, and as such the book is not a reconciliation of positivistic and idealistic elements and these run

throughout his subsequent work. Two major strands in Parsons's work – the social action theory and the systems theory (structural-functionalism) – are separated and examined individually.

Red Enlightenment Graham Jones, 2023-05-09 Why we need a materialist spirituality for the secular left, and how to build one. The left commonly rejects religion and spirituality as counter-revolutionary forces, citing Marx's famous dictum that religion is the opium of the people. Yet forms of spirituality have motivated struggles throughout history, ranging from medieval peasant uprisings and colonial slave revolts, to South American liberation theology and the US civil rights movement. And in a world where religion is growing, and political movements are ridden with conflict, burnout, and failure, what can the left learn from religion? Red Enlightenment argues not only for a deepened understanding of religious matters, but calls for the secular left to develop its own spiritual perspectives. It proposes a materialist spirituality built from socialist and scientific sources, finding points of contact with the global history of philosophy and religion. From cybernetics to liberation theology, from ancient Indian and Chinese philosophy to Marxist dialectical materialism, from traditional religious practices to contemporary art, music, and film, Red Enlightenment sets out a plausible secular spirituality, a new socialist praxis, and a utopian vision.

COME INSIDE MY MOUTH - Karl Marx, Fidel Castro, Mao Zedong, Joseph Stalin & more! DEAD WRITERS CLUB, Lin Xun, Ian Tinny, Rex Curry, Supermodel and Superwriter Lin Xun invites you to Come Inside My Mouth. See the twisted red tongues of Karl Marx, Joseph Stalin, Mao Zedong, Adolf Hitler, Fidel Castro, and more. Their mouths killed millions. Their language of hate led Lin to other shocking discoveries including: (1) The US Congress and the Flag Code confirm that the military salute was the origin of the Nazi salute. (2) The USA's Pledge of Allegiance inspired Nazi rituals. (3) Public schools spread Nazi behavior. (4) swastikas were used by the USA's military and worn as a patch on the upper left arm of American soldiers in a fashion that would become uniform under German socialism. (5) Later, swastikas represented crossed S letter shapes for socialist under Hitler. They are eye-popping revelations that are undisputed by the New York Times • The Washington Post • Los Angeles Times • San Francisco Chronicle • Tampa Bay Times • Vogue • Chicago Tribune • Newsday • The New York Times Book Review • Tampa Tribune • Library Journal • Publishers Weekly • Saint Petersburg

Times • History Journal • Scholar's Weekly • Because she speaks truth to power with her ground-breaking revelations, Lin Xun has been subjected to harassment (including risque images of her posted on the internet). She doesn't care! In this book, Lin spans history's bottom, leaving red hand prints. Hop in Lin's pink Cadillac and take a ride to the land inside of your mind. Nazi salutes and Nazi behavior originated from the USA's Pledge of Allegiance to the flag, created by Francis Bellamy, an American socialist. The Nazi salute was performed by public officials in the USA from 1892 through 1942. What happened to old photographs and films of the American Nazi salute performed by federal, state, county, and local officials inside the USA? Those photos and films are rare because people don't want to know the truth about the government's past. Public officials in the USA who preceded the German socialist (Hitler) and the Italian socialist (Mussolini) were sources for the stiff-armed salute (and robotic chanting) in those countries and other foreign countries. The ancient Roman salute myth originated from the city of Rome in the state of New York (not Italy), Francis Bellamy's hometown. Later, Mussolini presented a strange gift to the city of Rome, NY: a statue of two human male infants suckling on a female wolf. That statue remains on display in Rome, NY. Boy Scouts and Girl Scouts helped spread the Nazi salute and the swastika to Germany and elsewhere. Swastikas were used to represent crossed S-letters under Adolf Hitler's National Socialist German Workers Party. The author Lin Xun searches for old photos and film footage of the early Pledge of Allegiance showing the origin of the USA's notorious stiff-armed salute. Many of those artifacts have been found among Dr. Rex Curry's historical archival work. Curry's discoveries are changing the history books. Please send any images or inquiries to the email address of the publisher mentioned in the book. Each book is personally handled, wrapped, and mailed by Lin Xun IN THE NUDE! Or by the publisher, depending on who's available. To everyone who threw up on Hitler's election night, who sobbed on the bathroom floor at Stalin's power grab, who dry heaved trying to imagine how to tell the children what happened under Mao, who couldn't stop physically shaking due to the Kim thugs, who felt the horror of what was to come under all socialism, I say this: WE KNEW. WE KNEW. WE KNEW. Stalin, Mao, and Hitler proved that the ability to speak does not make one intelligent. They murdered millions with their mouths. The verbal diarrhea continues to spew. Today, the greatest threat of extinction we face is not asteroids or climate change or disease or famine. It's society's refusal to heed the warnings of these pages. This empowering book takes aim at toxic culture and gives everyone a voice to transform his community. Professor Curry vastly exceeds all other historians in wisdom, honesty, integrity, selflessness, and humility. Especially humility. - Ward Toolen "There is rumor of a Pulitzer Prize for exposing the Pledge of Allegiance as the origin of Nazi salutes and Nazi behavior; and the swastika as alphabetical 'S' letter shaped symbolism for 'socialist.' Congratulations!" - Aleta Yates, Stop The Pledge (STP) Foundation. In this book, the author Lin Xun overshadows lethal language. - Francis Hannah Cruz
