Multilingualism and Multiculturalism in Language Education Sviatlana Karpava, 2025-03-24 This volume focuses on multidisciplinary approaches to multilingualism, multiculturalism and language teaching and learning at (pre)primary, secondary and tertiary levels. It addresses both top-down and bottom-up perspectives on language education policies, teacher training and preparation. The book explores the needs and challenges related to education in multilingual classrooms, the relationship between parents and educators, and linguistic and cultural diversity in classrooms. It draws on the findings of research that has been conducted worldwide including in Cyprus, USA, UK, Scotland, Spain, France, Sri Lanka, Slovenia, Australia, New Zealand, Indonesia, Hong Kong, Sweden, Greece, and Italy. This book is ideal for students of (applied) linguistics, (socio)linguistics, psycholinguistics, language acquisition and education, as well as practitioners, teachers, parents, experts and researchers wishing to update their knowledge regarding multilingualism, multiculturalism, language learning, and teaching.

Contemporary Approaches to Geography Volume 1: Human Geography ,2010

Culture and Diversity in the United States Jack David Eller, 2024-12-05 This book addresses the standard topics of race, ethnicity, class, and gender but goes much further by engaging seriously with issues of language, religion, age, health and disability, and region and geography. It also considers the intersections between and the diversities within these categories. Eller presents students with an unprecedented combination of history, conceptual analysis, discussion of academic literature, and up-to-date statistics. The book includes a range of illustrations, figures and tables, text boxes, a glossary of key terms, and a comprehensive bibliography. New to this edition are updated numerical and statistical data, as well as discussions of sociopolitical developments over the past decade, including • The controversies over the 2020 census itself (e.g., the “citizenship question,” funding for the census) • The #MeToo movement • The Black Lives Matter movement, Critical Race Theory, and race-related police violence • The rise in racial, ethnic, and religious hate crimes, for example, anti-Semitism and anti-Asian bias (the latter largely resulting from the COVID-19 pandemic) • White nationalism and the “Great Replacement” conspiracy • Anti-LGBTQ+ attitudes and legislation (“don’t say gay” laws, book banning, denial of “gender-affirming” treatment for minors) • General immigration facts and policies (e.g., family separation), the proposed border wall, etc. This book is ideal for introductory and advance level courses in anthropology, American Studies, and across the social sciences.

The Destructive Path of Neoliberalism ,2008-01-01 The Destructive Path of Neoliberalism: An International Examination, a compilation of twelve essays by leading scholars and educators, sheds light on the social, political, economic, and historical forces behind the rise of neoliberalism, the dominant ideological doctrine impacting developments in schools and other social contexts across the globe for over thirty years. Several authors provide rich empirical data from schools across the globe to capture how neoliberal imperatives, discourses, and practices are impacting teachers, students, and communities at today's historical juncture. Finally, several contributors have developed pedagogical initiatives, suggest policy considerations, and convey theoretical insights designed to assist us in the struggle against the corporatization of schooling and social life.

US and Cross-National Policies, Practices, and Preparation Rose M. Ylimaki,Stephen L. Jacobson,2011-02-16 As educational policy trends converge in many countries, such as demands for greater accountability, decentralization, and more culturally sensitive practices for an increasingly diverse student body, there is growing interest in cross-national comparisons and generalizations about leadership qualities and practices that result in successful schools. US and Cross-National Policies, Practices and Preparation: Implications for Successful Instructional Leadership, Organizational Learning, and Culturally Responsive Practices fills that need by bringing together triads of scholars from the International Study of Successful School Principals (ISSPP) to make direct comparisons among policies and practices in the U.S. with those in other national contexts, and then to draw implications for improving leadership preparation. This book provides theories and empirical case study examples of instructional leadership, organizational learning, and culturally responsive practices as they are shaped by political, economic, and cultural factors in seven different national contexts. The seven countries featured in this book are the U.S., Australia, Denmark, England, Sweden, Norway, and Cyprus. The book begins with an overview of the ISSPP, including its underlying theoretical framework, its research methodologies employed, its limitations and how analyses of the project's data and findings evolved from the first phase of the study to its current focus.

Cultural Competence for Public Managers Espiridion Borrego,Richard Greggory Johnson III,2017-09-25 Our increasingly globalized society demands a higher level of sophistication when working cross-culturally and internationally in local, state, and federal governments; tribal corporations; and nonprofit organizations. Cultural Competence for Public Managers offers guidance on how to become a leader in developing cultural competence in your organization. It provides a conceptual foundation and successful examples for developing cultural competence, including competencies for international collaborations. The authors clearly define terms and provide their own cultural competence model that will add significantly to the current field. They describe the rapidly changing worldwide demographics that are bringing new cultures into many countries and societies. They also examine the issues that culturally diverse landscapes create in the United States, Asia, Europe, Africa, and Latin America, highlighting the differences between assimilationist and the multicultural viewpoints.

Drawing on a wide range of examples from universities; local, state, and federal governments; health care service providers; and nonprofit organizations, the book illustrates management practices that are then extended into the relevant cultural context. It also includes examples of cultural missteps and cultural competencies that have worked in practice. Written in an accessible format and style, the book provides practical and useful standards and performance measures, proven coaching and mentoring guides, as well as templates, checklists, exercises, and guidelines. It includes downloadable resources with coaching guides, checklists. Organized thematically, the book defines the scope of cultural competencies, highlights best practices, and describes variations in responsibility for administering cultural competence for executives, managers, supervisors, and employees.

Queer Professionals and Settler Colonialism Cameron Greensmith, 2022-03-01 Queer Professionals and Settler Colonialism works to dismantle the perception of an inclusive queer community by considering the ways white lesbian, gay, bisexual, trans, and queer (LGBTQ2S+) people participate in larger processes of white settler colonialism in Canada. Cameron Greensmith analyses Toronto-based queer service organizations, including health care, social service, and educational initiatives, whose missions and mandates attempt to serve and support all LGBTQ2S+ people. Considering the ways queer service organizations and their politics are tied to the nation state, Greensmith explores how, and under what conditions, non-Indigenous LGBTQ2S+ people participate in the sustainment of white settler colonial conditions that displace, erase, and inflict violence upon Indigenous people and people of colour. Critical of the ways queer organizations deal with race and Indigeneity, *Queer Professionals and Settler Colonialism* highlights the stories of non-Indigenous LGBTQ2S+ service providers, including volunteers, outreach workers, health care professionals, social workers, and administrators who are doing important work to help, care, and heal. Their stories offer a glimpse into how service providers imagine their work, their roles, and their responsibilities. In doing so, this book considers how queer organizations may better support Indigenous people and people of colour while also working to eliminate the legacy of racism and settler colonialism in Canada.

Language Arts in Asia Christina DeCoursey, 2012-01-17 This volume is the first of a series contributing to the academic study of Language Arts, as an English-language teaching paradigm. Language Arts has been widely used in native English-speaking countries including Australia and New Zealand. Its recent adoption into the second-language teaching curriculum in Hong Kong, as well as similar initiatives within secondary and tertiary education in mainland China, enhances its interest to scholars studying second-language teaching and learning in Asian contexts. This book offers many papers and discussions of interest to teachers, language professionals, scholars and administrators. Its chapters explore current topics in Language Arts research including trends in the rapprochement of stylistics and linguistics, teaching approaches and learning outcomes. At the same time, they offer diverse theoretical and methodological approaches, of interest to the practitioner and policy-

maker as well as the researcher. The value of this volume lies particularly in strengthening the theoretical and methodological foundations of Language Arts. The use of literature and the arts in humanist education has a long history within Europe, being traditionally appreciated for its ability to transform leaders, instill finer sensibilities and question social ills. In its postcolonial incarnations, as the traditional subject areas were informed by critical and linguistic theories, language arts subject areas were less often used, as they were understood to offer opportunities to analyse their functions as apology for leaders, coopting the young, and pacifying dissent but less often used to teach second language skills. Language Arts curricula arising since the 1980s have increasingly embraced authentic voices, styles and genres. Contemporary Language Arts curricula use literature to teach reading-based and communication skills, in conjunction with critical and creative thinking. The movement of English-language education beyond native English shores has placed Language Arts into a World Englishes frame, and therefore its curricula have included the teaching ethics, civics and intercultural sensitivity. The explosion of media and digital communications of the 1990s led to the adoption of media literacy as a crucial Language Arts skill. As digital innovations continue to impact the teaching of English, Language Arts has adopted multiliteracies. These developments are represented in the papers included in this volume.

Hindu Nationalism in the Indian Diaspora Edward T.G. Anderson, 2024-01-01 Hindu nationalism is transforming India, as an increasingly dominant ideology and political force. But it is also a global phenomenon, with sections of India's vast diaspora drawn to, or actively supporting, right-wing Hindu nationalism. Indians overseas can be seen as an important, even inextricable, aspect of the movement. This is not a new dynamic--diasporic Hindutva ('Hindu-ness') has grown over many decades. This book explores how and why the movement became popular among India's diaspora from the second half of the twentieth century. It shows that Hindutva ideology, and its plethora of organisations, have a distinctive resonance and way of operating overseas; the movement and its ideas perform significant, particular functions for diaspora communities. With a focus on Britain, Edward T.G. Anderson argues that transnational Hindutva cannot simply be viewed as an export: this phenomenon has evolved and been shaped into an important aspect of diasporic identity, a way for people to connect with their homeland. He also sheds light on the impact of conservative Indian politics on British multiculturalism, migrant politics and relations between various minoritised communities. To fully understand the Hindutva movement in India and identity politics in Britain, we must look at where the two come together.

The Handbook of Ethnic Media in Canada Daniel Ahadi, Sherry S. Yu, Ahmed Al-Rawi, 2023-12-15 Ethnic minority groups in Canada have set up their own communication infrastructure that has evolved over time from the analog to the digital age, and continues to remain relevant across generations. Offering a reassessment of contemporary media outlets, The Handbook of Ethnic Media in Canada asks how ethnic media have changed, why they continue to be relevant, and what impact this media sector has on ethnocultural communities as well as broader society. Building on past studies that highlight

particular functions of ethnic media – publishing information that is vital to settlement and civic engagement and providing an alternative to mainstream media, among others – this volume generates insights on new dynamics of the ethnic media sector that are prevalent in the digital age. Contributors re-examine theoretical and methodological approaches to ethnic media research, explore the practices of ethnic media along cultural, linguistic, and religious lines, and interrogate the policies that affect ethnic media production and consumption. At its core, the question of how Canadians engage with ethnic media is a question about what this media sector means for the sociocultural, economic, and political integration of Canadians, both majority and minority, and Canada's race relations. The Handbook of Ethnic Media in Canada provides a rich resource for anyone concerned about the role media plays in the complex relationship between ethnicity, race, belonging, and marginality.

Making the Public Service Millennial Liza Ireni Saban, Maya Sherman, Keren Shlomi, 2022-11-01 Making the Public Service Millennial explores how a new generation of public service employees affects the dynamics of continuity and change in public management and ethics. The book begins with the premise that Generation Y poses new challenges for public management, which will lead to changes in work-related values, rules, structures, and behaviors in the public service system. Will the soon-future leaders of today's public organizations pose new challenges for public management? How will this cohort cope with ethically-questionable behaviors? Given these questions, the potential strategic value of an empirical, cohort-based approach to ethical decision-making in the public service suggests interesting managerial implications for the effective incorporation of ethics into the management of public organizations. With implications for many types of organizations, and particularly for public sector organizations in democratic societies, managers across organizations should view generational differences not merely as a demographic variable, but as manifestations of broader social trends that may undermine established public management practices and organizational climates.

Envisioning TESOL through a Translanguaging Lens Zhongfeng Tian, Laila Aghai, Peter Sayer, Jamie L. Schissel, 2020-09-12 To respond to the multilingual turn in language education, this volume constitutes a challenge to the traditional, monolingual, and native speakerism paradigm in the field of Teaching English to Speakers of Other Languages (TESOL) through a translanguaging lens. The chapters offer complex global perspectives – with contributions from five continents – to open critical conversations on how to conceptualize and implement translanguaging in teacher education and classrooms of various contexts. The researchers exhibit a shared commitment to transforming TESOL profession that values teachers' and learners' full linguistic repertoires. This volume should prove a valuable resource for students, teachers, and researchers interested in English teaching and learning, applied linguistics, second language acquisition, and social justice.

The Handbook of School Psychology Cecil R. Reynolds, Terry B. Gutkin, 2009 As the standard reference in the field, this

edited handbook focuses on how a school psychologist can operate and create change within the educational system instead of focusing solely on the diagnosis and treatment of an individual. Chapters have been updated and revised to provide a contemporary view of the field.
