Heritage, Nationhood, and Language Neriko Doerr, 2014-01-02 The notion of heritage has become one of the global tropes in recent years. At the heart of heritage politics are three questions: what heritage is, who decides what it is, and for whom is the decision made. However, existing work on heritage language has rarely tackled these questions, assuming that teaching children of migrants their heritage language empowers them. This book challenges this assumption, situating the notion of heritage language in the host society's involvement in social justice, nation-building efforts, (superficial) celebration of diversity, and investment on global links the migrants offer as well as the migrants' fear of discrimination and desire for belonging, social status, and economic gain. Based on ethnographic research in Bolivia, Peru, the United States, and Japan, the book illuminates the complexity and political nature of determining what constitutes heritage language for migrants with connections to Japan. This volume opens up a new field of investigation in heritage language studies: the complex linkage between heritage language and social justice for migrants. This book was published as a special issue of Critical Asian Studies.

My Vietnam Charlotte Stemple, 2010-09-30 My Vietnam chronicles the experiences of the Stemple family working with the Vietnamese in central Vietnam amidst the turmoil of the war years during the 1960s and 1970s. These incredible stories dramatically illustrate the triumphs and heart-break of life in war-torn Vietnam in a way not yet fully seen or explored. Ravi Zacharias, author and speaker Charlotte not only offers her readers rich cultural insight but also marvelous instances in which only God in his sovereignty could weave the threads of hope and healing. Dr. Gary Benedict, President, The Christian and Missionary Alliance ...Charlotte is a master story teller! Dr. Marvin Eyler, Former Chaplain, First Marine Division, Danang 1970-71 Charlotte Stemple's exciting and informative new memoir is compelling reading. I recommend this captivating book to lay persons, to mission historians, and to military veterans. Peter Burgo, Editor, Alliance Life (alife) Magazine I have met few storytellers as poignant and compelling as Charlotte Stemple. Multicultural Issues and Literacy Achievement Kathryn Au, 2013-09-13 This book is a sequel to the author's earlier volume entitled, Literacy Instruction in Multicultural Settings. In addition to extensive updating of earlier material, this book extends the content coverage to include issues of power, attitudes, and systemic change through the application of discourse theory and critical theory. In doing so, however, the author has tried to maintain the brevity, stylistic clarity, and classroom focus of the earlier volume. Key features of this important new book include: *Teaching Flexibility. Although written with the

classroom needs of pre-service teachers in mind, theory and research are treated in sufficient depth to make the book suitable for graduate courses and for teacher study groups. *Issues Organization. Each chapter is organized around familiar issues that characterize schools and classrooms with diverse student populations and explores these issues through new lenses that most teachers have not previously encountered. *Social Constructivist Perspective. Critical theory, discourse theory, and historical perspective are introduced in order to sensitize readers to the need to recognize negative, socially sustained patterns that hamper literacy achievement and replace them with positive patterns. To this end each chapter asks students to maintain a running list of negative patterns along with alternative positive patterns.

Language Barrier Tips Oliver Scott, AI, 2025-04-07 *Language Barrier Tips* offers crucial guidance for LGBTQ travelers seeking safe and fulfilling international experiences. It emphasizes that effective cross-cultural communication is key to navigating diverse social environments. The book uniquely blends practical language skills with cultural sensitivity, revealing that direct translations of LGBTQ-related terms can often be misleading or even offensive. For example, public displays of affection may be perceived differently across cultures, highlighting the need for nuanced understanding. This travel guide begins by establishing core LGBTQ terminology, then progresses to exploring social and legal landscapes in various regions. It provides communication strategies for different scenarios, such as discussing relationships appropriately and assessing the safety of environments, equipping travelers with the tools to express themselves respectfully and avoid misunderstandings. The book culminates with resources and support networks, promoting inclusive travel and cultural awareness.

Children Crossing Borders Joseph Tobin, Jennifer Keys Adair, Angela Arzubaiaga, 2013-10-31 In many school districts in America, the majority of students in preschools are children of recent immigrants. For both immigrant families and educators, the changing composition of preschool classes presents new and sometimes divisive questions about educational instruction, cultural norms and academic priorities. Drawing from an innovative study of preschools across the nation, *Children Crossing Borders* provides the first systematic comparison of the beliefs and perspectives of immigrant parents and the preschool teachers to whom they entrust their children. *Children Crossing Borders* presents valuable evidence from the U.S. portion of a landmark five-country study on the intersection of early education and immigration. The volume shows that immigrant parents and early childhood educators often have differing notions of what should happen in preschool. Most immigrant parents want preschool teachers to teach English, prepare their children academically, and help them adjust to life in the United States. Many said it was unrealistic to expect a preschool to play a major role in helping children retain their cultural and religious values. The authors examine the different ways that language and cultural differences prevent immigrant parents and school administrations from working together to achieve educational goals. For their part, many early education teachers who work with immigrant children find themselves caught between two core beliefs: on one hand, the desire to be culturally sensitive and responsive to parents, and on the other hand adhering to their core professional codes of

best practice. While immigrant parents generally prefer traditional methods of academic instruction, many teachers use play-based curricula that give children opportunities to be creative and construct their own knowledge. Worryingly, most preschool teachers say they have received little to no training in working with immigrant children who are still learning English. For most young children of recent immigrants, preschools are the first and most profound context in which they confront the conflicts between their home culture and the United States. Policymakers and educators, however, are still struggling with how best to serve these children and their parents. *Children Crossing Borders* provides valuable research on these questions, and on the ways schools can effectively and sensitively incorporate new immigrants into the social fabric.

Home Is Here Liên Shutt, 2023-08-22 A guide to living the Engaged Four Noble Truths: antiracist practices for wholeness, healing, and collective liberation. For readers of *Be the Refuge*, *The Way of Tenderness*, *Love and Rage*, and *Radical Dharma*. *Home is Here* builds on foundational Buddhist teachings—the Four Noble Truths and the Eightfold Path—offering an intersectional frame to help you embody antiracist practices and tend to your own healing under racism and oppression. Grounded in practice, memoir, and mindful self-help skill-building, Rev. Liên Shutt’s *Engaged Four Noble Truths* illuminate a path toward healing and liberation. She shares her own experiences with anti-Asian hate—as a teen riding her bike, meditating in whitewashed monasteries—and asks, what does it mean to attend to our suffering in body, heart, and mind when racism can cause such intense hurt and pain? What does it look like to heal? While written mainly for Asian American Buddhists and other BIPOC practitioners, *Home is Here* moves us all from knowing and contemplation to a place of action and wholeness. In the doing is the realization, and in practicing antiracism, we build a home for all beings. This is reflected in Rev. Shutt’s choice to frame each step of the Engaged Eightfold Path not as “right” but as “skillful”—to convey both the knowing and the practices essential to healing harm. In this way: Skillful view helps us understand and unpack the layers of our racial conditioning within systemic white supremacy. Skillful motivation allows us to understand our agency and align our actions with wholeness. Skillful effort guides us when working through difficult or triggering situations Skillful speech helps us communicate wholly truthfully, even (and especially) when navigating challenging conversations. An engaged reframing of core Buddhist spiritual principles, *Home is Here* connects foundational practices to urgent causes—and invites readers on a path home to wholeness.

Hello, Shadowlands Patrick Winn, 2018-06-07 'Reads like a thriller you can't put down' - Megha Rajagopalan, China Bureau Chief, BuzzFeed News 'ensures you'll never think about Southeast Asia in the same way ever again.' - Geographical Magazine Essential to understanding Southeast Asia in the 21st century, *Hello, Shadowlands* reveals a booming underworld of organised crime across a region in flux— a \$100 billion trade that deals in narcotics, animals and people —and the staggering human toll that is being steadily ignored by the West. From Myanmar's anarchic hills to the swamplands of

Vietnam, jihadis are being pitted against brothel workers, pet thieves against vigilantes and meth barons against Christian vice squads. Hello, Shadowlands takes a deep plunge into crime rings both large and small. It also examines how China's rise and America's decline is creating new opportunities for transnational syndicates to thrive. Focusing on human stories on both sides of this crime wave, the acclaimed Bangkok-based broadcaster and journalist Patrick Winn intimately profiles the men and women of the region who are forced to make agonizing choices in the absence of law.

Vietnam: Remembrances of a Native American Soldier Ron C Wood, 2011-08-16 Vietnam: Remembrances of a Native American Soldier is about the recollections of a young Native American soldier who served eighteen months in Vietnam as a MACV advisory team radio operator in 1966-68. Camp An Phu was an isolated, former, Special Forces A Team camp near the Cambodian border. During this time, he had extensive contact with rural Vietnamese civilians and soldiers. From his unique perspective, he developed a sympathetic view of the life struggles that the Vietnamese people endured on a daily basis. This book tells of the hardships, humor, love, and death of these Vietnamese and their American advisors. During the time period, 1966 to 68, I spent 18 months in Vietnam as a US Army radio operator at a remote advisory team camp on the Cambodian border living with and advising Vietnamese soldiers. As part of an eight-man American team, we interacted with the Vietnamese on a daily basis and had little contact with American forces. As a Native American soldier, I looked like a tall Vietnamese soldier and was sometimes mistaken for one. Over 18 months, I became very familiar with Vietnamese soldiers and civilians and their lifestyle.

Supporting Korean American Children in Early Childhood Education Sophia Han, Jinhee Kim, Sohyun Meacham, Su-Jeong Wee, 2023-11-24 Early childhood professionals can use this one-of-a-kind work to better serve Korean American children in the United States. Four transnational mother-educators share the lived experiences of Korean American children and their families through candid and vivid narratives that counter stereotypical and prejudicial beliefs about Asian American communities. Topics include parenting beliefs and practices, naming practices, portrayals in children's picturebooks, translingual home practices, and responses to microaggressions. The text raises awareness about various dynamics within the Korean American community for a more nuanced discourse. The authors bring a wealth of hybrid positioning and experiences as former early childhood educators, first-generation Korean American immigrants, current teacher educators working with pre- and inservice teachers, and researchers in different states, as well as mothers of second-generation Korean American children. Book Features: Shares original stories and experiences of Korean American children and families to dismantle prevalent narrow narratives. Offers practical implications and considerations for classroom teachers regarding family engagement, critical literacy, translanguaging, and social-emotional learning. Includes user-friendly features such as discussion questions, lesson ideas, and a list of appropriate picturebooks.
