Life Is a Marathon not a Sprint Jeff Davidson, 2009 60 tips for achieving long term balance in your career and life

Going the Distance Stephen P. Troxel, 2008-11 To run a marathon requires, among other things, patience, endurance, and encouragement. There are two instruments, which God has given to us that are eternal: His Word and His people. We need the encouragement that comes through passages from the Word and people of the Word to keep us in the race. Going the Distance combines these instruments that God has provided to keep me running.

Results Derick Grant, 2019-07-19 In the sports world, the championships get all of the credit, but it's the day-in and day-out commitment along the journey that is responsible for those results. Our lives are no different—if you want to get to heaven, you must first learn to follow and walk the walk of faith as Jesus did throughout your life. In Results, author Derick Grant shares a 100-day devotional for athletes to inspire them with God's teaching. All of these devotionals are inspired by true stories, written by Derick and informed by the firsthand accounts of things he has experienced over the years. Having a background in working with athletes ranging from youth all the way to professionals, he has geared Results toward all of us who strive to be all God has created us to be. But Results isn't exclusively for athletes—every one of us has an “inner athlete” that drives us to be competitive in whatever field it may be. Remember, the results are a byproduct of what you did in the beginning, middle, and end of your journey—and God is there with us through all of our successes and failures, opening doors to the next bigger, better opportunity. Continue to walk in your faith, and learn to fully trust God for guidance and direction. While it may seem like there is no path, God will see you through it.

Now You Can Stop Running Terry Crist, 2025-06-03 You can find the deep peace you've been longing for--and that God has promised. Because of spiritual brokenness, we humans run. We seek to escape fear, disappointment, unresolved trauma, and unhealed wounds of the past, but no matter how hard we try, we can't seem to run far enough or fast enough to finally be free . . . yet we keep running anyway. But God wants so much more for us. Pastor, speaker, and author Terry Crist has spent much of his life running from the pain of past trauma and toward the empty promises of what he thought would satisfy his soul. In Now You Can Stop Running, he leads you on a journey toward sanctuary--where you will find not just respite but transformation, not just shelter but home--as you learn how to find authentic rest and spiritual wholeness in the boundless

love of God. With rich wisdom and profound pastoral insights, Crist helps us: Understand our own stories--why we run, what we're running from, and who or what we're running toward Discern between the false promises of the world that create chaos and true refuge in the God who offers peace Encounter God through freshly told stories of faithful believers in the Bible who also ran for their lives Engage spiritual practices that will guide us through our past pain, give meaning to our present struggles, and illuminate our path forward with hope The same God who loved and guided Jacob, Moses, Hagar, and David walks alongside us today. His rest is genuine, and the refuge he promises is safe and secure.

The Things a Brother Knows Dana Reinhardt, 2011-09-13 Levi's older brother Boaz returns from fighting with the Marines in the Middle East. He's safe. Levi's family has waited three long years for this. But Boaz is no longer the brother Levi thought he knew. Even if nobody else wants to see it, Levi can tell that Boaz has changed; something's wrong. When Boaz announces he's off to hike the Appalachian Trail, Levi knows he's lying. He's heading somewhere else. So Levi follows, determined to understand who his brother was, what he's been through, and how to bring him home again.

The Treasure Becca Gunyon MCC, 2019-01-09 True life is found in the unconditional love of God. My performance-based identity was rescued by the truth that we are treasured by the heart of God. Transformation happened when I found myself wrapped, immersed and overtaken by His love. My heart's desire is that you will find yourself precious to the heart of God and captured by His tender, powerful love- for you are His special treasure! "I've had the pleasure of knowing the author my entire life. Her heart for Jesus radiates & her love for others is truly genuine! Within these pages (or devotionals), infused with imagery Becca demonstrates the love of God to its fullest. Anyone that reads will clearly see God's desire to have a relationship with His children (you and me). God asks us to 'Come' as we are, imperfect & undeserving. The choice is ours as He is waiting & longing to hear from us. By the Holy Spirit's power may He speak to you through the Treasure Series as He did me." Micah Owings- entrepreneur, speaker, former MLB pitcher, scout, coach, loving brother

Not The End of Metaphoric Madness Harish Kumar , 2020-07-16 Is googly a metaphor for surprises of all sorts? Can hat tricks turn contrarian to transform into a metaphor for successive defeats? Where do you use umpire and referee as metaphors? Are they really two different metaphors? Can stymie be a metaphor for frustrating your initiatives totally, stem and root? When does your food turn into a mulligan stew? How did the common defence strategy of sandbagging turn into a billiards metaphor? Marathon and steeplechase - which is a metaphor for endurance and which is a metaphor for perseverance? Is volley a metaphor for a hail of compliments? Should salvo surprise and sear to be a metaphor? When do you turn gambit into a weasel metaphor? Organizing for Life Sandra Felton, 2007-03-01 Somehow, no matter how hard some people try to change their messy habits, they just can't seem to keep their homes in any kind of order. Magazines and books and television shows offer all kinds of advice and tactics for keeping a house organized and neat and livable. But what some people need is not more advice but a change in their mindsets. Organizing for Life helps readers understand why they seem to be inherently messy people, exposing the lies they tell themselves and introducing the truth about how they really can have a clean, inviting home. Felton helps readers focus on overcoming the roadblocks that keep them in a permanently messy state in order to change their habits for good.

Evidence-Based Policymaking Karen Bogenschneider, Thomas Corbett, 2021-04-27 New thinking is needed on the age-old conundrum of how to connect research and policymaking. Why does a disconnect exist between the research community, which is producing thousands of studies relevant to public policy, and the policy community, which is making thousands of decisions that would benefit from research evidence? The second edition updates community dissonance theory and provides an even stronger, more substantiated story of why research is underutilized in policymaking, and what it will take to connect researchers and policymakers. This book offers a fresh look into what policymakers and the policy process are like, as told by policymakers themselves and the researchers who study and work with them. New to the second edition: • The point of view

of policymakers is infused throughout this book based on a remarkable new study of 225 state legislators with an extraordinarily high response rate in this hard-to-access population. • A new theory holds promise for guiding the study and practice of evidence-based policy by building on how policymakers say research contributes to policymaking. • A new chapter features pioneering researchers who have effectively influenced public policy by engaging policymakers in ways rewarding to both. • A new chapter proposes how an engaged university could provide culturally competent training to create a new type of scholar and scholarship. This review of state-of-the-art research on evidence-based policy is a benefit to readers who find it hard to keep abreast of a field that spans the disciplines of business, economics, education, family sciences, health services, political science, psychology, public administration, social work, sociology, and so forth. For those who study evidence-based policy, the book provides the basics of producing policy relevant research by introducing researchers to policymakers and the policy process. Strategies are provided for identifying research questions that are relevant to the societal problems that confront and confound policymakers. Researchers will have at their fingertips a breath-taking overview of classic and cutting-edge studies on the multi-disciplinary field of evidence-based policy. For instructors, the book is written in a language and style that students find engaging. A topic that many students find mundane becomes germane when they read stories of what policymakers are like, and when they learn of researcher's tribulations and triumphs as they work to build evidence-based policy. To point students to the most important ideas, the key concepts are highlighted in text boxes. For those who desire to engage policymakers, a new chapter summarizes the breakthroughs of several researchers who have been successful at driving policy change. The book provides 12 innovative best practices drawn from the science and practice of engaging policymakers, including insights from some of the best and brightest researchers and science communicators. The book also takes on the daunting task of evaluating the effectiveness of efforts to engage policymakers around research. A theory of change identifies seven key elements that are fundamental to increasing policymaker's use of research along with evaluation protocols and preliminary evidence on each element.

Non-Consensus Investing Rupal J. Bhansali,2019-10-01 At a time when many proclaim the death of active investing, Rupal J. Bhansali, global contrarian, makes a clarion call for its renaissance. Non-consensus thinking has resulted in breakthrough successes in science, sports, and Silicon Valley. Bhansali shows how to apply it to the world of investing to improve one's odds of achieving above-average returns with below-average risks. Her upside-down investment approach focuses on avoiding losers instead of picking the winners, asking the right questions instead of knowing the right answers, and scoring upset victories to achieve the greatest bang for one's research buck. Through a series of counterintuitive concepts and contemporary case studies from her firsthand experience of investing in fifty markets around the globe, Bhansali describes how to perform differentiated fundamental research to uncover mispriced stocks. She candidly shares her failures and mistakes as well as her successes and triumphs. She also weaves in her personal journey, recounting how she overcame the odds to succeed in a male-dominated profession and offering advice on breaking the glass ceiling. Non-Consensus Investing is a must-read for anyone who seeks to understand why active investing disappointed and how it can succeed—analysts and amateurs, fiduciaries and financial advisors, aspiring and practicing money managers, as well as

students or investment enthusiasts.
