Michael Parkes Michael Parkes, Hans Redeker, 1993 What is unusual about Parkes is that in his paintings and lithos, metaphysical and spiritual elements are joined to reality. His work evokes a mysterious atmosphere which can often be deciphered with the help of ancient mythology and eastern philosophy. His real strength lies in the narrow sense, which he has mastered as have few others, to the figurative construction of his phantasmagoria, complete with colour and light, space and material expression, even when this has a mainly immaterial and unearthly character. In this fantasy work of Parkes the laws of earthly reality are abolished, and space and time enter into their own 'motionless' communion.

Western Decorative Arts: Volume 1 National Gallery of Art (U.S.), Rudolf Distelberger, 1993 This volume is one of several that examines the National Gallery of Art's distinguished collection of decorative arts. (The second volume will be published in 1996.) The group treated here is composed primarily of works acquired from the Widener Collection, and amplified by holdings acquired from the Kress family. Included are more than eighty Medieval, Renaissance, and later historic objects in a wide variety of media, encompassing metalwork, stained glass, enamels, ceramics, and jewels. Among the highlights are a Limoges reliquary chasse, a Mosan lion aquamanile, thirty-eight pieces in a remarkable cohesive group of Italian maiolica, three of the very rare pottery objects known as 'Saint-Porchaire', and, the centerpiece of the collection, the Suger chalice, an ancient sardonyx cup to which the Abbot Suger added a bejewelled golden setting in the twelfth century. Like other volumes in the Systematic Catalogue of the National Gallery of Art Collections, *Western Decorative Arts* includes a thoroughly researched entry for each object, together with an artist biography, up-to-date bibliography, and a technical analysis.

Cosmos, Liturgy, and the Arts in the Twelfth Century Margot E. Fassler, 2022-12-06 In *Cosmos, Liturgy, and the Arts in the Twelfth Century*, Margot E. Fassler takes readers into the rich, complex world of Hildegard of Bingen's *Scivias* (meaning "Know the ways") to explore how medieval thinkers understood and imagined the universe. Hildegard, renowned for her contributions to theology, music, literature, and art, developed unique methods for integrating these forms of thought and expression into a complete vision of the cosmos and of the human journey. *Scivias* was Hildegard's first major theological work and the only one of her writings that was both illuminated and copied by scribes from her monastery during her lifetime. It contains not just religious visions and theological commentary, but also a shortened version of Hildegard's play *Ordo virtutum* ("Play of the virtues"), plus the texts of fourteen musical compositions. These elements of *Scivias*, Fassler contends, form a coherent whole demonstrating how Hildegard used theology and the liturgical arts to lead and to teach the nuns of her community. Hildegard's visual and sonic images unfold slowly and deliberately, opening up varied paths of knowing. Hildegard and her nuns adapted forms of singing that they believed to be crucial to the reform of the Church in their day and central to the ongoing turning of the heavens and to the nature of time itself. Hildegard's vision of the universe is a "Cosmic Egg," as described in *Scivias*, filled with strife and striving, and at its center unfolds the epic drama of every human soul, embodied through sound and singing. Though Hildegard's view of the cosmos is far removed from modern understanding, Fassler's analysis reveals how this dynamic cosmological framework from the Middle Ages resonates with contemporary thinking in surprising ways, and underscores the vitality of the arts as embodied modes of theological expression and knowledge.

Inclusive Arts Practice and Research Alice Fox, Hannah Macpherson, 2015-05-22 Inclusive Arts Practice and Research interrogates an exciting and newly emergent field: the creative collaborations between learning-disabled and non-learning-disabled artists which are increasingly taking place in performance and the visual arts. In Inclusive Arts Practice Alice Fox and Hannah Macpherson interview artists, curators and key practitioners in the UK and US. The authors introduce and articulate this new practice, and situate it in relation to associated approaches. Fox and Macpherson candidly describe the tensions and difficulties involved too, and explore how the work sits within contemporary art and critical theory. The book inhabits the philosophy of Inclusive Arts practice: with Jo Offer, Alice Fox and Kelvin Burke making up the design team behind the striking look of the book. The book also includes essays and illustrated statements, and has over 100 full-colour images. Inclusive Arts Practice represents a landmark publication in an emerging field of creative practice across all the arts. It presents a radical call for collaboration on equal terms and will be an invaluable resource for anyone studying, researching or already working within this dynamic new territory.
