Aves de la España atlántica ARCE VELASCO, LUIS MARIO, VAZQUEZ FERNANDEZ, VICTOR MANUEL, 2013-09-27
Primera guía de identificación de aves ibéricas elaborada con un criterio biogeográfico, dedicada a las especies de la Región Eurosiberiana (coloquialmente la España verde). Describe e ilustra las 286 especies de presencia regular en el territorio considerado, tanto residentes como migrantes en paso, estivales reproductoras e invernantes. Las descripciones son claras, concisas y centradas en los caracteres morfológicos, de plumaje (con variaciones geográficas —subespecies—, estacionales, por edad y por sexo) y de conducta que permiten reconocer cada especie y diferenciarla de otras similares; las más parecidas entre sí aparecen en la misma página o en páginas enfrentadas para facilitar la comparación. Más de 700 ilustraciones de gran calidad representan todas las especies tratadas, por lo general en los plumajes de adulto y juvenil, el primero con sus

variaciones sexuales y/o estacionales, y en la actitud (posadas o en vuelo) en la que es más frecuente observarlas. Las fichas de especies aportan información actualizada sobre el estatus, la abundancia y la distribución de cada una, reflejada en un mapa, así como sobre sus preferencias de hábitat. Los capítulos introductorios ofrecen una visión de conjunto de la geografía física del territorio, su biodiversidad, los hábitat de interés para las aves, las características de la avifauna de la España atlántica, los espacios naturales y las especies de aves protegidos en la región y una guía práctica de 28 lugares de interés ornitológico. Dos apéndices relacionan 163 especies y 12 subespecies ocasionales y accidentales, y otras 10 especies desaparecidas. Una herramienta excelente tanto para quienes deseen iniciarse en el estudio de las aves del territorio como para quienes, al visitarlo, precisen orientación experta sobre especies y localidades de interés Eduardo de Juana Aranzana
