Aristotle, Adam Smith and Karl Marx Spencer J. Pack, 2010-01-01 . . . a very valuable introduction to Aristotle's economics. History of Economic Ideas Spencer Pack is completely at home with the difficult works of Aristotle, Adam Smith and Karl Marx. To walk with him through their writings is to discover that they are surprisingly helpful in understanding the modern world of computers, credit crunches, religious differences, international conflicts, and unemployment due to oversaving in China and undersaving in America. One is left after reading them with growing admiration for the giants of past intellectual history. This is only one lesson that Pack teaches in this illuminating book. Mark Blaug, University of London and University of Buckingham, UK This is an unusually ambitious and unpretentious work. And it is successful. Pack effectively compares the ideas of each of the three great men without forcing those of one upon the others. The topics are exchange value, money, capital, character, government, and change, which the author considers to be the fundamental issues in 21st century political economy. Pack is especially successful in utilizing a wide spectrum of secondary (including contemporary) sources to enrich the analysis of the expected primary sources. Student readers will be exposed to the opportunities and problems of variation in interpretation. The author has studiously avoided insinuating and privileging his own views and naively repeating well-worn and misleading, if not also erroneous, ideology-laden positions. Warren J. Samuels, Michigan State University, US Spencer Pack has written a most illuminating and insightful book. Beginning from Aristotelian foundations, Pack focuses our attention on an essential economic and moral issue: the difference between value in use and value in exchange. From this vantage point, he evaluates the arguments of Smith and Marx, demonstrating how their theories, both drawing on Aristotle, unfold into a general analysis of capitalism. His account forces us to think deeply about the nature of capitalist society. I recommend it highly. John F. Henry, University of Missouri-Kansas City, US Spencer Pack compares and contrasts Aristotle's, Smith's and Marx's theoretical systems on six fundamental issues: exchange value, money, capital, character, government, and change. This book also provides insights on issues concerning the continuing development of world money, saving, managerial capitalism, corrupt governments, and various secular and religious movements for social change.

Church And Grace Age: Theological Explanation of State of Church, Nations, and the Cosmos at End Times Plammoottil V. Cherian Ph. D,2024-06-05 From a thorough understanding of the human history from a Biblical perspective, and knowledge in science and theology author Plammoottil Cherian elucidates a vivid picture of the current state of the Christendom under the power of secularism, atheism, and apostasy in a confused and chaotic world. The Church is at the crossroads of confusion losing its power in spreading the Gospel at a time when it is most needed. The Book in five separate parts describes: Who is true God, the foundation of Church, and God's religion. What the mission of the Church is. Church and nations are living in an Age of Delusion, and a generation of compromised Christians. Apostasy is on the rise and Church without Christ like in Laodicea. Global Unhappiness because God is on the sidelines. There is perfect harmony between science and Christian faith. The world has been experiencing the bowls of wrath of God. Nations morally deteriorate by the spiritual blindness of leaders of Church and State. Humanity has been experiencing the hoofbeats of the four horses in the Book of Revelation. The nations and Church are in the state of Mene, Mene, Tekel, Upharsin. The Babylons of the world nations are about to fall, unless aligned with God. The Grace Age is ending soon, as scientific evidence proves the Biblical prophecies. The pressing need of the Church is to prepare believers for Christ's Second Coming. As a scientists and theologian, Dr. Cherian analyzes the present world culture and explains the Biblical prophecies that we are at the threshold of Church that lost the faith, and calls church and nation's leaders to realign with God for his guidance and continued blessings.

Marxism and Religion ,2014-02-27 In Marxism and Religion leading Chinese scholars unfold before our eyes theoretical explorations of religion in present-day China. In addition, they along with senior cadres superintending religious affairs strenuously explain why the Marxist view of religion still has relevance to living religions in a country undergoing deep changes unleashed by the late paramount leader Deng Xiaoping's reform and opening-up policies. Mistakenly perceived by so many westerners as outdated and dogmatic quasi-scholarly work in the service of communist regime's propaganda, studies

selected here are brainchildren of a group of creative and reform-minded scholars and cadres who endeavor to uphold Marxist traditions while innovatively sinicizing them, hoping that their efforts will contribute to the ruling party's ideological reconstruction. Contributors include: Fang Litian, Gao Shining, Gong Xuezheng, He Qimin, Jin Ze, Li Xiangping, Lü Daji, Wang Xiaochao, Wang Zuo'an, Ye Xiaowen, Zhu Xiaoming, and Zhuo Xinping.

If You're an Egalitarian, How Come You're So Rich? G. A. Cohen, 2009-07-01 Focusing on Marxism and Rawlsian liberalism, G. A. Cohen argues that egalitarian justice is not only a matter of rules that define the structure of society, but also a matter of personal attitude and choice. Personal attitude and choice are, moreover, the stuff of which social structure itself is made.

Juridical Perspectives between Islam and the West Federico Lorenzo Ramaioli, 2024-01-01 This comparative philosophy of law book aims at formulating a new analytical approach to the Islamic legal tradition based on 'juridical categories', a concept that facilitates comprehension and understanding of juridical phenomena. Building upon legal comparativism and legal pluralism, this project intends to avoid bias caused by universalizing Western categories when analyzing foreign juridical notions, which inevitably results in the miscomprehension of non-Western ideas and institutions. Unlike existing literature, this project will not focus on substantive comparisons between normative contents, but on the 'juridical perspectives' that helped to shape the Islamic and Western legal orders. The book focuses on the most relevant juridical questions regarding the Islamic and Western legal perspectives, such as the different visions regarding juridical spatiality, the role of human reason and the relationship between law, man and the divinity. While contributing to legal philosophy, this work intends also to develop and define a new interdisciplinary approach, aiming to provide a starting point for novel analyses in research fields such as legal comparativism, legal pluralism, and constitutional law. Finally, by formulating a new interdisciplinary approach, it will provide a foundational discussion of a continuously evolving subject that will never be exhaustively explored. As such, it aims at broadening scholarly reflections on the relationship between the West and Islam, eventually placing these concepts within a suitably comprehensive and contextualized framework. AN INCONVENIENT TRUTH - The Planetary Emergency Ian Tinny, Frank Folupa, American Psychopath Association, The planetary emergency is SOCIALISM. This book details the factors contributing to the growing crisis, describes changes to the world caused by global socialism, and discusses the shift in policy that is needed to avert disaster. One of the many inconvenient truths is that American socialists share in the guilt. Numerous annoying politicians have abetted a long history of American socialists, including the notorious Francis Bellamy and Edward Bellamy. Both Bellamy cousins wanted government to take over all schools, to teach socialism to all children. Francis Bellamy was the author of the Pledge of

Allegiance to the flag, the origin of the infamous stiff-armed salute adopted later under German socialism and Adolf Hitler. Long before the Deutschland fad began, American schoolchildren were taught to chant in unison and perform the same salute each day in government schools that imposed segregation by law and taught racism as official policy. Anyone who rejected the ritual in the schools was persecuted. This astonishing book explains the following revelations: 1. Hitler never self-identified as a Nazi. 2. Hitler never self-identified as a 'Fascist'. 3. The term 'Nazi' never appears in Mein Kampf nor in Triumph of the Will. 4. The term 'Fascist' never appears in Mein Kampf as a self-description by Hitler. 5. The term Socialist appears throughout Mein Kampf as a self-description by Hitler. Hitler and his followers self-identified as 'socialists' by the very word in voluminous speeches and writings. 6. Hitler used the swastika to represent 'S'-letter shapes for 'socialist'. 7. Hitler was influenced by American socialists - the USA's Pledge of Allegiance to the flag was the origin of Nazi salutes and Nazi behavior. 8. A socialist started fascism. Before he coined the term 'Fascist,' Mussolini was a long-time socialist leader, with a socialist background, raised by socialists to be a socialist. 9. German socialists partnered with Soviet socialists to launch WWII, invading Poland together, and going onward from there, killing millions. Much of the amazing historical material comes from the archives of the historian Dr. Rex Curry.

BLACK SUN - the Mythological Background of National Socialism Ian Tinny, Thurston Howell III, American Psychopath Association, Rex Curry, BLACK SUN sheds new light on the sources of Nazi ideology by examining its occult roots in the world of myths, symbols, and fantasies. It traces this development from the writings of various mystics in the early 20th century who propagated the mythology of a superior global ideology whose heroes would fight the forces of moral decadence and greed. The book uses rare archival photographs and sources to chronicle how the Nazis used these mythological foundations to develop Nazism as a political religion. While BLACK SUN documents the nationalist mystical beliefs that infused National Socialism, the book also reveals the disturbing perpetuation of these beliefs among certain political groups today, in Germany and worldwide, reflecting an ongoing search for salvation, inspiration and messianic leaders. This eye-popping expose juxtaposes the polarization in German national history between an obsession with capturing light in all its symbolic uses in order to battle the darkness of the Others. The final lesson that Black Sun implies - and what makes it a provocative and interesting book for a number of audiences, whether scholars and students of history, or iconography - is the danger of not knowing one's own history. In this sense, the title signals not only the recurrent theme of evil throughout history, but also the need to shed light upon all its manifestations.

The Big Book of Jewish Conspiracies David Deutsch, Joshua Neuman, 2005-04 What if anything they ever said about Jews was true? Postmodern satire that hilariously addresses Jewish badness through the ages, from the editors of the magazine

The New York Times calls the epicenter of all things hipster-Jewish and ironic The Big Book of Jewish Conspiracies takes as its modest proposal an extreme theme: what if the most damaging charges ever leveled against Jews were all true? Spanning the history of Western Civilization, each of these assertions is explored in turn, including: --Ancient Jewish Conspiracies: How Moses led the Exodus so Jews would later have a justification for establishing the state of Israel --Medieval Jewish Conspiracies: How Blood Libel began after an unfortunate baking accident resulted in the tastiest Matzoh ever --Jewish Conspiracies during the Enlightenment: Upset by lack of opportunity for Jews in Bourbon France, entrepreneurs turn culottes into an unaffordable craze, leaving the sans-culottes thirsty for revolution --Modern Jewish Conspiracies: The invention of psychoanalysis as a way to hypnotize wealthy and powerful Gentiles --Post-Modern Conspiracies: Jews invent fast food to turn buff, sports-playing Gentiles into doughy copies of the average Jewish accountant's physique And that's not all!**Why the Jews invented and still run Hollywood**World War II as a brilliant coup that got Jews accepted into mainstream American society**How circumcision became a widespread health procedure**Why the Jews were behind 9/11 You know what they say: two Jews, three conspiracies. -author Joshua Neuman

Marx's Ghost Charles Derber,2015-11-17 Renowned American sociologist Charles Derber imagines a surprise encounter with Karl Marx's ghost in London's Highgate cemetery, leading to a night-long conversation about the problems plaguing the world. The economic crisis, climate change, war, the future of capitalism and the 'Arab Spring' are all discussed. The ghost reconsiders his theories as he speaks eloquently about American labour, environmental, gender and anti-racist struggles. The engrossing, funny and provocative conversation, with appearances from other ghosts such as John Maynard Keynes, offers new insights into the relevance and flaws of Marx's thought, indicating how we can get to a better world.
