Charles River Charles River Editors, Charles River

The Scopes Monkey Trial Jim Whiting, 2020-02-04 One of the most famous trials in U.S. History took place in a tiny town in Tennessee in 1925. Dayton was the site of what became known as the Scopes Monkey Trial. The defendant, John T. Scopes, was accused of violating a recently passed state law. This law made it illegal to teach the theory of evolution. Under most circumstances, few people would have paid any attention to the trial. Several of Dayton's leading citizens saw a chance to put their town on the map. They were successful. Two of the country's top lawyers, William Jennings Bryan and Clarence Darrow, soon became involved. Dozens of reporters poured into Dayton from all over the country. It was the first trial to receive live media coverage. Scopes was found guilty. He had to pay a small fine. But the issues about evolution that the trial raised are still debated today.

The Scopes Monkey Trial Charles River Charles River Editors, Charles River, 2017-03-23 *Includes pictures *Includes accounts of the trial and excerpts from it *Includes online resources and a bibliography for further reading *Includes a table of contents I never had any idea my bill would make a fuss. I just thought it would become a law, and that everybody would abide by it and that we wouldn't hear any more of evolution in Tennessee. - John Washington Butler In the early 20th century, Darwin's theory of evolution was still a relative novelty, but it had spurred some Americans to react by preventing it from being taught in schools, including in Tennessee, which passed the Butler Act to prohibit teaching the theory in a state-funded school. This set the stage for proponents of the theory to challenge the law by having a teacher bring up Darwin's theory in a classroom, which is how a little known substitute teacher named John Scopes had his name attached to one of the most famous cases in American history. Although it is best known as the Scopes Trial or Scopes Monkey Trial even 90 years later, the case was intentionally created as a test case, and from the beginning it was meant to draw attention not just to the issue but to the small town of Dayton, Tennessee itself. In that, it succeeded, not simply because the case was important but because it brought William Jennings Bryan, one of America's most famous politicians, to participate. Bryan would square off against renowned lawyer Clarence Darrow, who would represent Scopes in the proceedings. While the case was technically challenging a law and proceeded like a normal trial, including an appeal to Tennessee's Supreme Court, the Scopes Monkey Trial was essentially a national debate on theology, science, and each one's place in the classroom. The trial is best known not necessarily for the results but for the rhetorical arguments that were made on each side, and for the manner in which

Darrow and Bryan squared off. In perhaps the most famous scene of the entire affair, Darrow actually cross-examined Bryan himself. Naturally, the case was politically charged on all sides, and even the judge was conspicuously biased against Scopes' defense, but Scopes successfully appealed the fine at the Tennessee Supreme Court. Still, the issue remained heated even after, especially when Bryan died shortly after the trial. *The Scopes Monkey Trial: The History of 20th Century America's Most Famous Court Case* analyzes the background and proceedings of the case. Along with pictures of important people, places, and events, you will learn about the Scopes Monkey Trial like never before.

The Scopes "Monkey" Trial Sabrina Crewe, Michael V. Uschan, 2004-12-15 Looks at the historic 1925 trial in which a Tennessee high school biology teacher was accused of violating state law by teaching Darwin's theory of evolution, and discusses the impact on America.

The Scopes Monkey Trial Samuel Willard Crompton, 2010 After the passage of the Butler Act, which made it unlawful for a state-funded school in Tennessee to teach that humans evolved from lower organisms, 24-year-old high school teacher John Scopes intentionally violated the law. Arrested and charged on May 5, 1925, Scopes became the centerpiece in a trial that pitted two of the finest legal minds of the time against one another. Prosecutor William Jennings Bryan's participation in the trial served as the capstone to his prior unsuccessful advocacy to cut off funds to schools that taught evolution. Prominent trial attorney Clarence Darrow, an agnostic, spoke for the defense. This case, which was the first to be broadcast via radio, was a critical turning point in the creation vs. evolution controversy that continues today. The Scopes Monkey Trial has since been fictionalized in a play, a film, and three television films, all called *Inherit the Wind*. *The Scopes Monkey Trial: Debate over Evolution* explains how this pivotal court case shaped the way evolution and creationism are approached in classrooms.

The Scopes Monkey Trial Freya Ottem Hanson, 2000 Discusses one of the most famous court cases in history, in which a Tennessee high school teacher was put on trial for teaching evolution.

Evolution on Trial Kathiann M. Kowalski, 2009-01-01 Discusses the Scopes monkey trial that put evolution on trial in 1925, including the key figures in the court case, the final judgment, and the debate over teaching evolution in U.S. schools-- Provided by publisher.

Trials of the Monkey Matthew Chapman, 2007-04-01 When Darwin called his second book *The Descent of Man* instead of *The Ascent of Man* he was thinking of his progeny. So declares Darwin's great-great grandson Matthew Chapman as he leaves behind his stressful career as a Hollywood screenwriter and travels to Dayton, Tennessee where in 1925 creationist opposition to the teaching of evolution in schools was played out in a famous legal drama, the Scopes Trial. The purpose of this journey is to see if opinions have changed in the seventy- five intervening years. A defiant atheist, Chapman is confronted

not only by the fundamentalist beliefs that continue to banish the theory of evolution but by his own spiritual malaise as the outward journey becomes an inward quest, a tragicomic accidental memoir. First there was Charles Darwin, two yards long and nobody's fool. Then there was his son, my great-grandfather, Sir Francis Darwin, an eminent botanist. Then came my grandmother Frances, a modest poet who spent a considerable amount of time in rest-homes for depression. From her issued my beloved mother, Clare, who was extremely short, failed to complete medical school, and eventually became an alcoholic. Then we get down to me. I'm in the movie business. *Trials of the Monkey* combines travel writing and reportage, as Chapman records his encounters in the South, with history and the accidental memoir of a man full of mid-life doubts in a genre-breaking first book that is darkly funny, provocative and poignant.

The Scopes Trial Renee Graves, 2003 Become an eyewitness to history with the new Cornerstones of Freedom, Second Series. Rewritten and updated, with even more full-colour photographs and historical engravings than before, Cornerstones of Freedom, Second Series introduces the people and events that helped shape the United States. A Religious Orgy in Tennessee H.L. Mencken, 2006-09-01 The native American Voltaire, the enemy of all puritans, the heretic in the Sunday school, the one-man demolition crew of the genteel tradition. —Alistair Cooke Fiercely intelligent, scathingly honest, and hysterically funny, H.L. Mencken's coverage of the Scopes Monkey Trial so galvanized the nation that it eventually inspired a Broadway play and the classic Hollywood movie *Inherit the Wind*. Mencken's no-nonsense sensibility is still exciting: his perceptive rendering of the courtroom drama; his piercing portrayals of key figures Scopes, Clarence Darrow, and William Jennings Bryan; his ferocious take on the fundamentalist culture surrounding it all—including a raucous midnight trip into the woods to witness a secret "holy roller" service. Shockingly, these reports have never been gathered together into a book of their own—until now. *A Religious Orgy In Tennessee* includes all of Mencken's reports for *The Baltimore Sun*, *The Nation*, and *The American Mercury*. It even includes his coverage of Bryan's death just days after the trial—an obituary so withering Mencken was forced by his editors to rewrite it, angering him and leading him to rewrite it yet again in a third version even less forgiving than the first. All three versions are included, as is a complete transcript of the trial's most legendary exchange: Darrow's blistering cross-examination of Bryan. With the rise of "intelligent design," H.L. Mencken's work has never seemed more unnervingly timely—or timeless.

The Other Side of the Scopes Monkey Trial Jerry Bergman, 2023-10-26 The enormous amount of literature on the Scopes Trial focuses on the religious elements of the trial. It almost totally ignored the importance of racism as taught in the text that Scopes used to teach biology. Bryan was not concerned about evolution in general, but specifically human evolution. He believed that Darwin's theory, as applied to humans, encouraged the oppression of certain oppressed groups. Taking evolution's philosophy to its logical conclusion meant justifying "survival of the fittest" in social matters. This philosophy he

learned from his extensive reading about WWI was a major factor influencing the Germans to fight in the first World War. Furthermore, Bryan believed the citizens of Tennessee had a right to determine what their children were taught in the public schools. Another fact that is rarely mentioned is the main fossil evidence cited in the trial documents, and the press, in support of human evolution has been discredited by evolutionists including Neanderthal man, Piltdown man, Java man, and Nebraska man. Scopes was not a biology teacher, but rather taught math. His college degree was not in biology, but law. He was not put on the stand to testify in his trial, probably because he never taught evolution and could not honestly answer questions about teaching it. This book covers the so-called trial of the century, telling the real story of a sham brought on by the ACLU to further their political and anti-Christian goals.

The Trial of John T. Scopes Steven P. Olson, 2003-12-15 Looks at the case of John Scopes, a Tennessee schoolteacher who agreed in 1925 to be arrested for the crime of teaching evolution in order to provide a case to test the state laws forbidding such lessons.

Summer for the Gods Edward J. Larson, 2008-07-31 The Pulitzer Prize-winning history of the Scopes Trial and the battle over evolution and creation in America's schools. In the summer of 1925, the sleepy hamlet of Dayton, Tennessee, became the setting for one of the twentieth century's most contentious courtroom dramas, pitting William Jennings Bryan and the anti-Darwinists against a teacher named John Scopes, represented by Clarence Darrow and the ACLU, in a famous debate over science, religion, and their place in public education. That trial marked the start of a battle that continues to this day in cities and states throughout the country. Edward Larson's classic *Summer for the Gods* -- winner of the Pulitzer Prize in History -- is the single most authoritative account of this pivotal event. An afterword assesses the state of the battle between creationism and evolution, and points the way to how it might potentially be resolved.

The Scopes "Monkey Trial" Randy Moore, 2022-11-07 In time for the 100th anniversary of the Scopes Trial, this new account of the Trial of the Century provides an in-depth recounting of the trial itself, the motivations of the individuals involved, and the impact and trial on subsequent developments in science education, law, science, and religion--

The Scopes "Monkey Trial" Anne Johnson, 2007 Provides users with a detailed and authoritative overview of this event, as well as the principal figures involved in this pivotal episode in U.S. history.

The Transcript of the Scopes Monkey Trial Anthony Horvath, 2018-03-20 The Scopes Monkey Trial was a watershed moment in American history and effectively ensured that henceforth, only Darwinism would be taught in America's schools. This is ironic, since Scopes actually lost. However, the publicity and propaganda victory, enhanced by later treatments such as *Inherit the Wind*, turned the tide.

1920's trial complete with accessible headnotes for each primary source document.

Monkey Business Marvin N. Olasky, John Perry, 2005 Media coverage at the time of the Scopes trial was far from accurate. This book sets the record straight, revealing how inaccuracies distorted the view of the Christian faith.

The Great Trials of World History, Defense lawyer Clarence Darrow also made history defending high-school teacher John Scopes at 1925's famous Monkey Trial. Discover how the case that put the theory of evolution on trial brought to Tennessee a three-time presidential candidate, a flock of international reporters, and the battle for 1920s social mores.
