Islam and the Infidels David Bukay, 2017-07-12 This book discusses Islam, its relationship with the world, and how Muslims perceive the world and their role within it. Using Islamic scriptures and the works of important Muslim clerics, the author explores the Islamic notion that Muslims represent the best of humanity, and as such, have the duty and the right to propagate their faith throughout the world by any means, including violence. *Islam and the Infidels* warns of the dangers Muslim immigration poses to free societies. Using a diplomacy of deceit, Islamists immigrate to Western societies. Having done so, they establish closed ethnic communities that are estranged from their host countries, and are breeding grounds for native-born malcontents who may attack and destroy Western nations from within. The author is especially critical of Western apologists who not only pretend that Islam is not inherently aggressive and dangerous, but also denigrate those who point out the threat to liberal values posed by fundamentalist Islamic ideology. Bukay argues that to meet the Islamic threat, the West must understand Islam's true nature, and the best way of doing so is by analysing its scriptures and history. Bukay argues that Western societies should embrace the Judeo-Christian tradition, which is the root of their cultural heritage. In light of the mounting Muslim threat to liberalism in Western societies, citizens should resist oppressive Islamic practices and doctrines rather than accept them.

**Islamic Capital Markets** Kabir Hassan, Michael Mahlknecht, 2011-09-13 Islamic Finance has experienced rapid growth in recent years, showing significant innovation and sophistication, and producing a broad range of investment products which are not limited to the complete replication of conventional fixed-income instruments, derivatives and fund structures. Islamic Finance represents an elemental departure from traditional interest-based and speculative practices, relying instead on real economic transactions, such as trade, investment based on profit sharing, and other solidary ways of doing business, and aims to incorporate Islamic principles, such as social justice, ecology and kindness, to create investment products and financial markets which are both ethical and sustainable. Products created according to Islamic principles have shown a low correlation to other market segments and are relatively independent even from market turbulences like the subprime crisis. Therefore, they have become increasingly popular with secular Muslims and non-Muslim investors, as highly useful alternative investments for the diversification of portfolios. In *Islamic Capital Markets: Products and Strategies*, international experts on Islamic Finance and Sharia'a Law focus on the most imminent issues surrounding the evolution of Islamic capital markets and the development of Sharia'a-compliant products. The book is separated into four parts, covering: General concepts and legal issues, including Rahn concepts in Saudi Arabia, the Sharia'a process in product development and the integration of social responsibility in financial communities; Global Islamic capital market trends, such as the evolution of Takaful products and the past, present and future of Islamic derivatives; National and regional experiences, from the world's largest Islamic financial market, Malaysia, to Islamic finance in other countries, including Germany, France and the US; Learning from Islamic finance after the global financial crisis; analysis of the risks and strengths of Islamic capital markets compared to the conventional system, financial engineering from an Islamic perspective, Sharia'a-compliant equity investments and Islamic microfinance. *Islamic Capital Markets: Products and Strategies* is the complete investors' guide to Islamic finance.

**The Returned** David Thomson, 2018-06-22 Since 2012, hundreds of men and women have left Western countries to join jihadist groups fighting in Syria. Many are still there, many have been killed, but some have chosen to return to their countries of origin. French Journalist David Thomson met some of those who came back. Bilel, Yassin, Zoubair, Lena, each has a different profile and story. Some have returned disgusted by the violence of the Syrian battlefields, or the terrorist attacks that have struck across Europe; they try to become forgotten, living under extreme surveillance. Others return seriously wounded or psychologically destroyed. Others still are in jail, a breeding ground for broader radicalization. And some have come back to continue to carry out jihad in Europe. In utmost secrecy, David Thomson gathered their testimonies and recounts them in this remarkable and revealing book. With ISIS losing ground on all fronts, the steady flow of jihadists returning to Europe represents one of the greatest challenges facing countries across the continent. This nuanced analysis of

the social, religious, political, familial and psychological factors that push people to violent extremism is more necessary now than ever. It will be essential reading for all those seeking to understand how we might address this threat.

**The Concept of Necessity in International Law and the World Trade Organization** Senai W.

Andemariam,2024-06-03 Like many concepts in international law, the definition of “necessity” varies widely depending on context. This book presents the evolution of the concept of necessity, and discusses its definitions in nine different fields of international law. Centering customary international law and the law of the World Trade Organization in his analysis, Dr. Senai W. Andemariam examines the potential for interactions and coherence between concepts of necessity in various fields of international law.

**Cannabis on Campus**

Jonathan Beazley,Stephanie Field,2018-01-12 Cannabis on Campus is a comprehensive resource on the implications of marijuana legalization for college campuses. It is essential reading for college administrators and other professionals responsible for overseeing drug policy and addressing marijuana use in higher education. The authors use their considerable experience in college alcohol and other drug (AOD) counseling to provide a sweeping look at the cannabis culture found in our universities. Chapters alternate between historical context, research and analysis, and student interviews, providing an evidence-based, nuanced understanding of the role of marijuana use in today’s college campuses, as well as insights and recommendations for a post-legalization future.

**. . . and the Sun Will Rise from the West** Rafaat Ludin,Windham Loopesko,2016-06-07

This book seeks to offer an interpretation of how terrorism has become a tool of Muslim radicals and why it is completely at odds with the teaching of Islam. It claims that terrorism has nothing to do with Islam as a religion but the evolution of Muslims, especially in the past one thousand years, has created an environment in which fanaticism, radicalism and violence can flourish. Supported by double standards by Western powers and active backing for corrupt governments and groups, Islamic terrorism came into being. It presents an overview of how Islamic thought in many parts of the Muslim world has become rigid and frozen and grounds for hoping that change in that thought may come, from a perhaps surprising place. It suggests the role that both Muslim and Western societies have played and will continue to play in contributing to reforming Islam. Our purpose is not to provide a thorough proof of our ideas, but to spark discussion and dialogue, both in Muslim and non-Muslim communities (and, ideally, between the two) as to how Islam can regain in world thought and civilization the honored place it had during the Golden Age of Islam.

**Benchmarking Islamic Finance** Mohd Ma'Sum Billah, 2021-07-14 Pricing or benchmarking is a process of evaluating the performance of a financial company's products and services or systems, against other businesses, considered to be at the top of their field, by applying a measurement of "best in performance." This book includes contributions from the leading global experts in the field who tackle topics such as whether the Islamic financial system has been dependent on the LIBOR / EURIBOR in its benchmarking exercises to date, and thus, whether it will be affected negatively by the predicted non-existence of the LIBOR / EURIBOR from 2021 onwards. They also address the question of whether the Islamic financial system requires benchmarking of its products and services and consider the emergence of Shari'ah-justified benchmarking in today's Islamic financial system. Additionally, they look at how benchmarking formulas should be adapted to ensure the satisfaction of customers within the principles of Maqasid al-Shari'ah. It takes a legal and institutional approach to the subject, which readers will find particularly valuable, as there are various forms of Islamic finance institutions that do not conform to established models in the finance industry. Furthermore, there are emerging business models that will benefit from this line of investigation. This book offers a timely analysis of these issues and redresses the existing misconceptions and misinterpretations pertaining to benchmarking, in an Islamic finance context, and, as such, provides guidance and strategies for future directions. It will appeal to researchers of Islamic banking, finance, and insurance, as well as, practitioners, particularly standard setting bodies, regulators, and policy makers.

**Governance and Sustainability** David Crowther, Shahla Seifi, 2020-08-19 This book explores the concepts of sustainability and governance in relation to the governance of corporations – hence the ubiquity of the term corporate governance – and other bodies. It examines how these concepts are regularly used by politicians and by the media. The two concepts are however largely treated as being separate and discrete, and given equal coverage. The argument in this book is that the two concepts are inter-related and that good governance is a prerequisite for sustainability. The focus of the book therefore is different from most, as it seeks to integrate these two important issues. The approach used in this book is based on the tradition of the Social Responsibility Research Network – a worldwide body of scholars that, over its 20-year history, has sought to broaden the discourse and to treat all research as inter-related and business-relevant. The book examines diverse aspects of the changes to corporate and institutional behaviour that have recently manifested by focusing on these two aspects of sustainable development. Thus, the authors explore engagement and partnership between organisations, in order to consider the extent to which the focus has changed so much that we need to think about new approaches to our

understanding of sustainability and differing effects in practice. The international mix of authors makes this an original contribution, sharing some of the best ideas from around the world.

Capital Structure and Shari'ah Compliance of non-Financial Firms Ramazan Yildirim, 2021-03-22 In the present financial world, various niche markets play an increasingly important role. One of the fastest-growing niches is, without a doubt, Islamic finance. Indeed, sustainable finance needs constantly evolving innovations, and this book offers valuable insights into Islamic capital structure and Shari'ah equity screening enriching academic discourse. In recent years, we have witnessed the emergence of a new generation of academics and professionals specializing in various aspects of Islamic finance as knowledge and practice. This has brought about a new dynamism and also further sophistication. This book is one of such contributions, as it develops knowledge which is then transformed into practice whereby practical impact is also achieved. Being an academic book, it provokes readers' thoughts, offering a critique of the implications of the currently applied Shari'ah screenings methodologies. As a transformative practical piece, by developing an innovative screening ratio, in this book, Dr. Yildirim extends his focus on the risk-sharing based financing hierarchy, covers thoughts and the underlying philosophy, and proposes an Islamic version of a pecking order hierarchy. This framework can be considered the foundation for developing an Islamic capital structure theory. This book will benefit academics, professionals, investors, as well as policymakers working in the Islamic finance industry and would like to explore more. (Professor Dr. Mehmet Asutay, Durham University Business School, UK) This book offers, for the first time after the inception of Shari'ah screening methodologies, a groundbreaking new stock screening solution that is comprehensible, practical, and foremost entirely derived from the primary sources of Islam (Qur'an and Sunnah). Congratulations to Dr. Ramazan for his outstanding contribution to Islamic finance and capital markets. (Associate Professor Dr. Ahcene Lahsasna) This excellent book is a must-have for all corporate finance students/researchers interested in the theoretical aspect of capital structure and the religious discussion of Shari'ah equity screening. This book should become a companion to those involved in a quantitative research environment and aim to conduct a comparative analysis; an ideal resource for everyone, from Shari'ah scholars to Islamic finance practitioners and beginners to experts. (Professor Dr. M. Kabir Hassan, University of New Orleans, USA)

The Invisible Debt Trap – Volume 01: How Interest-Based Systems Enslave Nations, Destroy Families, and Defy God Zayd Haji, 2025-07-03 What if everything you knew about money was engineered to keep you broke? The Invisible Debt Trap is not just a book. It's a revelation — a truth grenade dropped into the heart of today's broken financial system. Written by Zayd Iqbal Haji, this deeply personal and data-backed volume blends storytelling, research, Islamic ethics, and economic justice to expose the dark realities of interest-based capitalism. From India's national debt crisis to the exploitation by elite business empires, from riba-dressed-as-investments to greenwashed scams, this book connects every dot the mainstream conveniently ignores. Every chapter unearths how the rich grow richer while the working class bleeds under the weight of compounding

interest and deceptive financial instruments. But that's just the beginning. In the second half, Zayd reintroduces the forgotten hero — Islamic Finance. Through heartfelt parables and real-life examples, the reader is guided through the ethical, asset-backed, risk-sharing principles of Islamic economics. You will learn why *riba* (interest) is not just haram — it's economically parasitic. Why *Zakat* is not charity — it's wealth purification. Why contracts matter. Why uncertainty (*gharar*) and gambling (*maisir*) are destroying your savings, your future, and your soul. This is a wake-up call for Muslims and non-Muslims alike — for students, entrepreneurs, policymakers, imams, and families. Whether you're drowning in EMIs, surviving on credit cards, or just tired of the moral decay of modern economics, this book is for you. In this Volume, you'll discover: Why India's national finances are trapped in a system that prioritizes interest over infrastructure. How Adani and Ambani's empires reflect deeper systemic inequalities. The truth behind fake Halal finance — what's marketed as Shariah-compliant but hides a *riba* core. The secret link between *riba*, injustice, and inflation. Practical insights on *Murabaha*, *Musharakah*, *Mudarabah*, *Sukuk*, *Waqf*, and more — not as jargon, but as hope. A spiritual and financial roadmap to free yourself from the debt spiral. "Borrowing is sorrowing." And the only escape is divine. With psychological clarity, financial insight, and spiritual urgency, *The Invisible Debt Trap - Volume 01* lays the foundation for a new global economic ethic — one that calls for justice, honesty, and obedience to the Creator. □ Ready for Volume 02? Volume 01 ends here. But the journey continues... Volume 02 will dive even deeper — uncovering: The History of *Riba* from Babylon to modern banking *Zakat al-Fitr*, *Sadaqah*, *Waqf* Management The rise of Secret Societies and their role in finance Satan's Financial Architecture - The Spiritual Warfare of Modern Economics With hope and determination, Zayd Iqbal Haji Author of *Zayd's Rules: Ethical Finance - The Halal Economy*

**Pandemic, Politics, and a Fairer Society in Southeast Asia** Syaza Shukri, 2023-07-20 Employing the Malaysian case as a starting point for examining a wider trend in Southeast Asia, this book delves into how politicians and policymakers navigate political uncertainty and the impact of their decisions on creating and maintaining a fairer society.

**A Curious History of Sex** Kate Lister, 2020-02-06 This is not a comprehensive study of every sexual quirk, kink and ritual across all cultures throughout time, as that would entail writing an encyclopaedia. Rather, this is a drop in the ocean, a paddle in the shallow end of sex history, but I hope you will get pleasantly wet nonetheless. The act of sex has not changed since people first worked out what went where, but the ways in which society dictates how sex is culturally understood and performed have varied significantly through the ages. Humans are the only creatures that stigmatise particular sexual practices, and sex remains a deeply divisive issue around the world. Attitudes will change and grow - hopefully for the better - but sex will never be free of stigma or shame unless we acknowledge where it has come from. Based on the popular research project *Whores of Yore*, and written with her distinctive humour and wit, *A Curious History of Sex* draws upon Dr Kate Lister's extensive knowledge of sex history. From medieval impotence tests to twentieth-century testicle thefts, from the

erotic frescoes of Pompeii, to modern-day sex doll brothels, Kate unashamedly roots around in the pants of history, debunking myths, challenging stereotypes and generally getting her hands dirty. This fascinating book is peppered with surprising and informative historical slang, and illustrated with eye-opening, toe-curling and meticulously sourced images from the past. You will laugh, you will wince and you will wonder just how much has actually changed.

*When Jihadi Ideology Meets Social Media* Jamil Ammar, Songhua Xu, 2017-08-31 This book is designed to provide specialists, spectators, and students with a brief and engaging exploration of media usage by radical groups and the laws regulating these grey areas of Jihadi propaganda activities. The authors investigate the use of religion to advance political agendas and the legal challenges involved with balancing regulation with free speech rights. The project also examines the reasons behind the limited success of leading initiatives to curb the surge of online extreme speech, such as Google's "Redirect Method" or the U.S. State Department's campaign called "Think Again." The volume concludes by outlining a number of promising technical approaches that can potentially empower tech companies to reduce religious extremist groups' presence and impact on social media.

**A Middle East Free of Weapons of Mass Destruction** Seyed Hossein Mousavian, Emad Kiyaei, 2020-04-17 The establishment of a Middle East zone free of nuclear weapons, a concept more recently broadened to cover all weapons of mass destruction (WMD), has been before the international community for decades. In this book, two experts from the region explore why the matter remains unresolved, and outline a comprehensive yet achievable roadmap to a Middle East free of WMD. Weapons of mass destruction pose an existential threat to global peace and security. But nowhere is it more urgent to

stem their spread than in the Middle East, a region fraught with mistrust and instability. Accounting for these geopolitical realities, including the ongoing talks to curb Iran's nuclear program, the authors present a practical and innovative strategy to a Middle East free of weapons of mass destructions (WMD). They outline a phased approach toward disarmament in the region, prescribing confidence-building measures and verification tools to create trust among the region's governments. Their vision also sees the realization of a WMD-free zone within a broader regional agenda for security and cooperation to advance socioeconomic and political progress. This book will be of great interest to students and scholars of international relations, politics and security studies in the Middle East.
