Language, the Singer and the Song Richard J. Watts, Franz Andres Morrissey, 2019-01-31 The relationship between language and music has much in common - rhythm, structure, sound, metaphor. Exploring the phenomena of song and performance, this book presents a sociolinguistic model for analysing them. Based on ethnomusicologist John Blacking's contention that any song performed communally is a 'folk song' regardless of its generic origins, it argues that folk song to a far greater extent than other song genres displays 'communal' or 'inclusive' types of performance. The defining feature of folk song as a multi-modal instantiation of music and language is its participatory nature, making it ideal for sociolinguistic analysis. In this sense, a folk song is the product of specific types of developing social interaction whose major purpose is the construction of a temporally and locally based community. Through repeated instantiations, this can lead to disparate communities of practice, which, over time, develop sociocultural registers and a communal stance towards aspects of meaningful events in everyday lives that become typical of a discourse community.

The Fellowship of Song Ginette Dunn, 2015-12-22 Originally published in 1980. Song is perhaps the strongest form of traditional culture. Its vigour and energy represent the power of the community from which it springs. This book focuses on traditional singing in two small English villages. It studies in detail an activity which goes to the core of the communal life in any village and demonstrates how song becomes the lifeblood of the traditions of rural life. In many ways traditional singing is highly subversive because its practice is an affirmation of community and a denial of the fragmentation of modern society. The songs sung, those remembered, the singers now dead whose lives are recalled each time an old favourite is performed, all connect the present with the past. The primary aesthetic concern within these singing traditions is that a man should sing, whatever the objective quality of his performance; and a song should tell a good story. The individual singer assumes a special role in performance since he becomes spokesman for a group and gives voice not only to personal but also to social concerns, dynamics and emotions.

Dogon Songs of Life and Death W.E.A. van Beek,Oumarou S. Ongoiba,Atimè D. Saye,2025-04-24 Though the Dogon are well-described, their culture still holds surprises. One of these is the cycle of songs called baja ni, which is at the heart of their funerary rites. These songs are attributed to a historic author, a blind poet/prophet who roamed the area in the nineteenth century and left a huge heritage of songs and prophecies. This book gives the full text of one performance of this legacy. The lyrics cover a range of topics, from comments on historical events to philosophical musings about life and death, and from remembering the departed to celebrating the joys of being alive.
