*The Bodies Keep Coming* Brian H. Williams, 2023 Dr. Brian H. Williams has seen it all, from gunshot wounds to traumatic brain injuries. In *The Bodies Keep Coming*, Williams ushers us into the trauma bay, where the wounds of a national emergency amass. Black bodies will continue to be wracked by violence, racism, and healthcare inequities until we enact changes of policy and law.

*The Bodies Keep Coming* Brian H. Williams, 2023-09-26 A tour de force that diagnoses the structural root of the violence that plagues us all. Trauma surgeon and professor Dr. Brian H. Williams has seen it all: gunshot wounds, stabbings, and traumatic brain injuries. In *The Bodies Keep Coming*, Williams ushers us into the trauma bay, where the wounds of a national emergency amass. As a Harvard-trained physician, Williams learned to keep his head down and his scalpel ready. As a Black man, he learned to swallow the rage when patients told him to take out the trash. Just days after the tragic police shootings of two Black men, Williams tried to save the lives of police officers shot in Dallas in the deadliest incident for US law enforcement since 9/11. Thrust into the spotlight in a nation that loves feel-good stories about heroism more than hard truths about racism, Williams came to rethink everything he thought he knew about medicine, injustice, and what true healing looks like. Now, in raw and intimate detail, Williams narrates not only the events of that night in 2016, but the grief and anger of a Black doctor on the front lines of trauma care. Working in the physician-writer tradition of Atul Gawande and Damon Tweedy, Williams diagnoses the roots of the violence that plagues us. He draws a through line between white supremacy, gun violence, and the bodies he tries to revive, and he trains his surgeon's gaze on the structural ills that manifest themselves in the bodies of his patients. What if racism is a feature of our healthcare system, not a bug? What if profiting from racial inequality is exactly what it was designed to do? Black and brown bodies will continue to be wracked by all types of violence, Williams argues, until something changes. Until we transform policy and law with compassion and care, the bodies will keep coming.

In Guns We Trust William J. Kole, 2025-10-14 In this investigation into white evangelicals' fusion of the gospel and guns, reporter William J. Kole exposes how some Christians are standing in the way of reasonable restrictions on firearms--and how it makes us all less safe. Our nation is awash in more guns than citizens. Kole pulls back the curtain on locked-and-loaded Christianity.

*Mysticism in Newburyport* Peter James Ford,2023-06-11 MYSTICISM IN NEWBURYPORT is a seven-book series revealing ancient secrets from masters of all cultures along with modern-day breakthroughs by scientists and quantum physicists of our times. These tales began flowing after Peter’s powerful spiritual awakening in Newburyport, Massachusetts. Newburyport is a quaint little, historic seaport on the coast of Massachusetts heading towards New Hampshire. Peter had been sober in the 12-step recovery program for many years and had recovered from his alcoholism. Peter’s love of Nature had brought him to the Newburyport area. This area is rich with Nature’s treasures, Native American Heritage and many tales from the tall cargo ships of olden days. High street was lined with homes of these Sea Captains. Peter’s awakening had given him new eyes and new highly evolved senses. Peter was to have powerful past lives experience with his Mystery Woman guide named Layne. Layne was a mystic that would tell people things about themselves that there was no way she

could know. She would look you in the eyes and tell you your deepest secrets. She also knew about the Earth's electromagnetic grids and helped Peter understand what he was experiencing in Newburyport. Peter's new heightened senses could feel the electromagnet flow of energy and the convergence right below Market Square in Newburyport. Market Square was one of the crossroads for these powerful electromagnet energies that gives life to our planet. Peter was to share the secrets that were revealed to him in his writings.

**How to Feel Good Naked** Sheila Bridge, 2012-07-18 The concept of the ideal sexy body still dominates fashion, advertising - and our thinking. Success, status and sex appeal are all interwoven. Sheila argues that this is dangerous to our well-being and contrary to the central Christian idea of our acceptance in Christ. She shows how we can break bad habits of body and mind, make the most of our corporeal selves and enjoy being the way God made us. As we learn to love our bodies we learn to love ourselves. Makeovers, she writes, are just not enough. 'I don't think you can just fix up the outside of a person. If you don't ever take a look on the inside and unpack all the self-loathing, and replace it with a deep down self-acceptance and a sense of being unconditionally loved, then no amount of surface rearrangement will ever be enough.'

*Leaping Death* Hugh Hawkins, 2008-10 In 1972 a couple with each person born on LEAP YEAR DAY IN 1896 were killed by a tornado when DEATH, 'THE GRIM REAPER, ' created an extra day to end the life of the psychic Jack Riggins. The DEVIL used the idea to send his disciples from hell to earth. They all have the same gift being born on February the 29th of 1976. Heaven also sends disciples to earth to battle the evil forces. It is good versus evil in the final showdown with DEATH stalking both sides. Hunter Stokes was born on Feb. 29, 1976. He soon found out that being born on a 'LEAP YEAR DAY' was weirder than he thought. His best friend Miller shares the same birthday. But when an accident takes Miller's life at age 17, Hunter can't deal with it emotionally and is placed in an asylum in Lynchburg, Virginia. On his 21st birthday, Hunter realizes he has special powers. All kids born on his birthday have a gift: they are able to roam free for an extra day while the rest of the people on earth are frozen in time. Hunter escapes from the asylum. While experiencing the phenomenon of being free to move while others are frozen, he finds Marina Hampton, another person who shares his birth date. Together they form a good faction and try making sense of all the crazy world happenings. They, along with the others they meet in Los Angeles, California, are not allowed to tell anyone of their special gift, except others born on their birthday. People start dying without reason. Hunter's group learns there is a supernatural force that wants no part in these 'LEAP YEAR KIDS' having any gift. How are they going to survive?

**Reclaiming the Black Body** Alishia McCullough, 2025-01-14 An essential exploration of the overlooked impact of disordered eating among Black women—and a prescriptive road map to returning to wholeness within our bodies, from the clinical therapist who founded Black and Embodied Counseling and Consulting PLLC “Lights a radical path away from trauma and blame toward healing, self-acceptance and, ultimately, joy.”—Linda Villarosa, author of Pulitzer Prize finalist *Under the Skin: The Hidden Toll of Racism on Health in America* Food has always been a political tool for the oppressor—and the Black body has always been one of its many battlegrounds. Licensed mental health therapist, somatic healer, and eating disorder specialist Alishia McCullough understands that for far too many Black women, racial trauma’s seismic impact has disrupted their most essential relationship: the one they have with their bodies—and by extension, with their food. African Americans are disproportionately impacted by disordered eating behaviors, yet their experiences are frequently neglected by doctors and mental health experts. As a result, our most vulnerable communities are forced to navigate systems primed to dismiss their needs, leaving them without proper care, or often even the language they need to identify what’s wrong. McCullough’s groundbreaking work radically validates the lived experiences and generational traumas of BIPOC communities. As part of a steadily growing movement among clinicians to “decolonize therapy,” her deeply affirming approach seeks to understand disordered eating patterns by examining the psychological wounds left by centuries of racism. Weaving together crucial history, compelling client stories, guided meditation, journal prompts, and McCullough’s own journey with disordered eating behaviors, *Reclaiming the Black Body* offers readers a safe space to feel seen—and a powerful pathway to healing. This revealing, potentially life-saving book illuminates the way home, back to the safety and comfort found within our bodies.

**The Last Book Written by a Human** Jeff Burningham, 2025-08-19 In *The Last Book Written by a Human*, tech entrepreneur Jeff Burningham delivers a profound and urgent exploration of what it truly means to be human in the age of AI—challenging us to embrace wisdom, love, and deep human connection as we navigate an uncertain future alongside machines. A refreshingly optimistic look at the possibilities of human-AI interaction. --Kirkus Reviews What does it mean to be human? At a time when AI is rapidly changing the way we live, work, and think, this may be the biggest question we face. In *The Last Book Written by a Human*, tech entrepreneur and investor Jeff Burningham wrestles with the fundamental questions of existence, the future role of artificial intelligence in society, and the increasingly complex union between humanity and its creations. With raw honesty, Burningham shares his personal story from Mormon missionary and Bishop to successful entrepreneur to his gubernatorial run and beyond, offering reflections on our otherworldly potential and uncertain future in the age of AI. His call to action is clear: As machines become smarter, we must become wiser. You will discover: \* How the rise of AI is forcing humanity to confront fundamental questions about consciousness, intelligence, and what it means to be truly human. \* Why the development of AI must be guided by love, wisdom, and compassion. \* How to navigate relationships in the future, ensuring we maintain genuine human connection alongside increasingly synthetic ones. \* The importance of reforming institutions—religious, governmental, and business—to support human flourishing. \* The cosmic necessity of mastering your life as a human being, rather than a human doing. This book is a wake-up call for our species to evolve beyond our unconscious patterns, false beliefs, and outdated systems in order to thrive in the age of AI.

*Modernist Reformations* Stephen Sicari, 2022-03-16 “Religion” has become suspect in literary studies, often for good reason, as it has become associated with reactionary politics and outdated codified beliefs. In *Modernist Reformations: Poetry as Theology in Eliot, Stevens, and Joyce*, the author demonstrates how three high modernist writers work to reform religious experience for an age dominated by the extremes of radical skepticism and dogmatic rigidity. The author offers new

and provocative readings of these well-studied writers: Joyce and Stevens are usually considered purely secular, and the Eliot in this book is more progressive than reactionary. The readings here provide a fresh approach to their work and to the period. Using studies of religious experience by sociologists and theologians both from the modernist era and from our own contemporary world to frame the argument, the author examines the poetry closely and in detail to demonstrate that the work of these writers does not merely reflect religious themes and issues but does the actual work usually considered theological. Their poetry is theology. Modernist Reformations will renew and deepen appreciation for these writers, and perhaps their efforts at reformation may allow for our own engagement with religion in a secular age.

*Paradise Lost: a Divine Comedy or Profane Bathos?* Donald C. Bartley, 2020-05-04 *Paradise Lost: a Divine Comedy or Profane Bathos?* (, Ai-ichigen) breaks the spell, awakening the dreamer. For living in our dreams, we struggle to live in Paradise. Darwin said the origin of species was by means of natural selection, the preservation of favored races in the struggle for life; & history has borne him out. Proceeding from a faulty & partial memory, it needs repeating & constant amending; yet it renders no progress: history affirms the blind & random nature of human events! Schooled that by the labors of our native intelligence, we alone could subdue Darwin, we have made nature pay for our great industry. Our mighty institutions embrace Darwinian principles making us highly competitive through fear & separation. Love & unification we spurn to maintain our competitive edge, believing that by keeping our independence, our freedom we secure; for space & time were limited. These beliefs, being empirical, we never question. But what if Darwin was wrong? if things don't evolve? if life were vouchsafed? For science avers that nature is lawless. It follows no rules in having no point or purpose. Positing a cosmic intelligence steering nature offends science. All the laws & meanings we find in nature are what science gives it. Yet were point & purpose never any part of this world, then how could we know them or even possess them in ourselves? & that includes our native wits. So, science concedes that life is deterministic &, promptly, reality dissolves; for life, we know to be uncertain & rife with choices. What we dare not question, this book answers. Strangers here we have become, thinking life in Paradise could ever be a struggle. Having turned fantasy into reality, Paradise is lost on us!

**Waste Matters** Sarah Harrison, 2016-08-12 How do those pushed to the margins survive in contemporary cities? What role do they play in today's increasingly complex urban ecosystems? Faced with stark disparities in human and environmental wellbeing, what form might more equitable cities take? *Waste Matters* argues that contemporary literature and film offer an insightful and timely response to these questions through their formal and thematic revaluation of urban waste. In their creation of a new urban imaginary which centres on discarded things, degraded places and devalued people, authors and artists such as Patrick Chamoiseau, Chris Abani, Dinaw Mengestu, Suketu Mehta and Vik Muniz suggest opportunities for an inclusive urban politics that demands systematic analysis. *Waste Matters* assesses the utopian promise

and pragmatic limitations of their as yet under-examined work in light of today's pressing urban challenges. This book will be of great interest to scholars and students of English Literature, Postcolonial Studies, Urban Studies, Environmental Humanities and Film Studies.

**The Montes' Tale** Dario Lucas, 2010-03 A story of Monte, a tiny squirrel monkey, and his friend Jack are captured by men involved in the illegal selling of endangered species on the black market. The pair escape their captors at the destination on Catalina Island. Evading re-capture, they travel from Avalon to the backside of the island, stumbling into the center of a Ceremonial Indian Gathering. Jack is re-taken prisoner by Joaquin, an evil medicine man who is the Keeper of the Badlands. Receiving a Warriors' blessing from the chief of the tribe, Montes' mission is to rescue Jack. Through the process of gaining the knowledge necessary to achieve this, Monte meets many others; those in the waters around and on Catalina Island, the children who were lost at sea that now inhabit Fantasy World, and some individuals living in San Pedro, California. The story progresses through Montes' escapades, including his face-off with Joaquin in the waters between Catalina and the Mainland. As a young boy, born and raised in San Pedro, California, the Port of Los Angeles, I was fascinated by the landmass of Catalina Island. A mere 26 miles from home, yet it wasn't until I was 26 that I finally arrived. Today I still live near water, but far from my beloved ocean. The ocean and Santa Catalina Island has always drawn me. After my visit, and several additional trips, my curiosity was more than satisfied. It gives me great pleasure to present the one-on one journey into the Montes' Tale.
