The Gifts of Imperfection by Brene Brown | A 30-minute Summary Instaread Summaries, 2014-10-02 PLEASE NOTE: This is a summary of the book and NOT the original book. The Gifts of Imperfection by Brene Brown | A 30-minute Summary Inside this Instaread Summary: • Overview of the entire book • Introduction to the important people in the book • Summary and analysis of all the chapters in the book • Key Takeaways of the book • A Reader's Perspective Preview of this summary: Chapter 1 It is necessary to practice courage, compassion, and connection on a daily basis in order to develop worthiness. It is a mistake to try and win someone over, because it means trading in the sense of self in search of approval from another. By doing this, people stop believing in their own worth. The first step toward living wholeheartedly is for people to have the courage to reach out to others and to share their own stories of shame. When in need of compassion,

people should reach out to the right person, someone who supports them whether they are feeling strong or whether they are struggling. When people are willing to reveal that they are imperfect and real, their relationships are strengthened. They make a connection. This is why courage, compassion, and connection are the gifts of imperfection. Courage is displayed when people are willing to speak honestly and openly about who they are, what they are feeling, and their experiences both good and bad. Courage is about being vulnerable. It takes courage for someone to ask for what he or she needs and to risk disappointment. When one person has courage, it can create a ripple effect, making others around that person a little braver. Compassion is a relationship between two equals. It occurs when people recognize they share humanity with others. The heart of compassion is acceptance by people of themselves and of others. In order for compassion to occur, people need to set boundaries and hold others accountable for their behavior. The key to compassion is being able to separate people from their behaviors. It is necessary to address what people do, not who they are. Connection exists as the energy between people who feel they have been seen, heard, and valued without judgment. People feel strengthened by this relationship and need connection to do well emotionally, physically, spiritually, and intellectually. Connections happen when people both give and receive with an open heart. Chapter 2 Love and belonging are necessary in people's lives. In order for people to experience love and belonging, they must believe they are worthy. People who accept themselves for who they are and who stop worrying about what others think are worthy of love and belonging. At the heart of wholeheartedness is that people have to believe they are worthy now, as they are, not if or when they become or do something in the future....

Healed Kate Moorehead, 2018-01-01 Mary Magdalene, first witness to Jesus's resurrection, has been one of the most misunderstood of all the saints, maligned for centuries as a prostitute, despite there being nothing in the Bible to indicate anything of the sort. The Bible does say that Mary was possessed by demons, and that Jesus healed her. Today, we would call Mary's problem not possession but a mental health condition. Author Kate Morehead says, "A saint is someone who walks ahead of us, guides us, and keeps us on the path to life For us, they are role models. Like us, they struggled and journeyed, but they drew closer and each one of them carved out a different path to God. "It is my hope and prayer that by telling the truth of her story, Mary Magdalene might take her rightful place as the guide for those of us who struggle with mental health issues (and if we are truly honest, that means each and every one of us) It is time for us to let her show us her beautiful, unique, and sometimes frightening path to true health. It is a path that leads directly to heart of God."

Life Is in the Transitions Bruce Feiler, 2021-08-10 A New York Times bestseller! A pioneering and timely study of how to navigate life's biggest transitions with meaning, purpose, and skill Bruce Feiler, author of the New York Times bestsellers *The Secrets of Happy Families* and *Council of Dads*, has long explored the stories that give our lives meaning. Galvanized by a personal crisis, he spent the last few years crisscrossing the country, collecting hundreds of life stories in all fifty states from Americans who'd been through major life changes—from losing jobs to losing loved ones; from changing careers to changing relationships; from getting sober to getting healthy to simply looking for a fresh start. He then spent a year coding these stories, identifying patterns and takeaways that can help all of us survive and thrive in times of change. What Feiler discovered was a world in which transitions are becoming more plentiful and mastering the skills to manage them is more urgent for all of us. The idea that we'll have one job, one relationship, one source of happiness is hopelessly outdated. We all feel unnerved by this upheaval. We're concerned that our lives are not what we expected, that we've veered off course, living life out of order. But we're not alone. *Life Is in the Transitions* introduces the fresh, illuminating vision of the nonlinear life, in which each of us faces dozens of disruptors. One in ten of those becomes what Feiler calls a lifequake, a massive change that leads to a life transition. The average length of these transitions is five years. The upshot: We all spend half our lives in this unsettled state. You or someone you know is going through one now. The most exciting thing Feiler identified is a powerful new tool kit for navigating these pivotal times. Drawing on his extraordinary trove of insights, he lays out specific strategies each of us can use to reimagine and rebuild our lives, often stronger than before. From a master storyteller with an essential message, *Life Is in the Transitions* can move readers of any age to think deeply about times of change and how

to transform them into periods of creativity and growth.
