How to Make a Killing: Blood, Death and Dollars in American Medicine Tom Mueller, 2023-08-01 “Inspiring and deeply distressing.” —Ezekiel J. Emanuel, author of *Which Country Has the World’s Best Health Care?* How did a lifesaving medical breakthrough become a for-profit enterprise that threatens many of the people it’s meant to save? Six decades ago, visionary doctors achieved the impossible: the humble kidney, acknowledged since ancient times to be as essential to life as the heart, became the first human organ to be successfully replaced with a machine. Yet huge dialysis corporations, ambitious doctor-entrepreneurs and Beltway lobbyists soon turned this medical miracle into an early experiment in for-profit medicine—and one of the nation’s worst healthcare catastrophes. With powerful insight and on-the-ground reporting, New York Times best-selling author Tom Mueller introduces an unforgettable cast of characters. Heroic patients, including a Hollywood stuntman and body double, risk their lives to blow the whistle on how they’ve been mistreated. An unpaid activist living in a south Georgia trailer park fights to save patients from involuntary discharge from their lifesaving care. Industry insiders put their careers on the line to speak out about the endemic wrongs and pervasive inequality they’ve witnessed—and about dialysis executives who dress as musketeers and Star Wars characters to exhort their employees to more aggressive profit-seeking. Mueller evokes the scientific ingenuity and optimism of the 1950s and 1960s, when the burgeoning field of organ transplant and early dialysis machines offered long-awaited hope for lifesaving care. That is, until a New York salesman had himself dialyzed on the floor of the House, and Congress made renal disease the only “Medicare for All” condition—opening the financial floodgates for Big Dialysis. Of the thousands caught in a web of corporate greed, a disproportionate number are Black and Latino, highlighting the stark racial divides already endemic to American medicine. *How to Make a Killing* reveals dialysis as a microcosm of American medicine and poses a vital challenge: find a way to fix dialysis, and we’ll have a fighting chance of fixing our country’s dysfunctional healthcare system as a whole, restoring patients, not profits, as its true purpose.

Crisis of Conscience Tom Mueller, 2019-10-01 A call to arms and to action, for anyone with a conscience, anyone alarmed about the decline of our democracy. — New York Times-bestselling author Wendell Potter *Powerful...* His extensively reported tales of individual whistleblowers and their often cruel fates are compelling...They reveal what it can mean to live in an age of fraud. — The Washington Post Tom Mueller's authoritative and timely book reveals what drives a few brave souls to

expose and denounce specific cases of corruption. He describes the structural decay that plagues many of our most powerful institutions, putting democracy itself in danger. —George Soros A David-and-Goliath story for our times: the riveting account of the heroes who are fighting a rising tide of wrongdoing by the powerful, and showing us the path forward. We live in a period of sweeping corruption -- and a golden age of whistleblowing. Over the past few decades, principled insiders who expose wrongdoing have gained unprecedented legal and social stature, emerging as the government's best weapon against corporate misconduct--and the citizenry's best defense against government gone bad. Whistleblowers force us to confront fundamental questions about the balance between free speech and state secrecy, and between individual morality and corporate power. In *Crisis of Conscience*, Tom Mueller traces the rise of whistleblowing through a series of riveting cases drawn from the worlds of healthcare and other businesses, Wall Street, and Washington. Drawing on in-depth interviews with more than two hundred whistleblowers and the trailblazing lawyers who arm them for battle--plus politicians, intelligence analysts, government watchdogs, cognitive scientists, and other experts--Mueller anatomizes what inspires some to speak out while the rest of us become complicit in our silence. Whistleblowers, we come to see, are the freethinking, outspoken citizens for whom our republic was conceived. And they are the models we must emulate if our democracy is to survive.

Real Food/Fake Food Larry Olmsted,2017-10-03 “Olmsted makes you insanely hungry and steaming mad--a must-read for anyone who cares deeply about the safety of our food and the welfare of our planet.” —Steven Raichlen, author of the *Barbecue! Bible* series “The world is full of delicious, lovingly crafted foods that embody the terrain, weather, and culture of their origins. Unfortunately, it’s also full of brazen impostors. In this entertaining and important book, Olmsted helps us fall in love with the real stuff and steer clear of the fraudsters.” —Kirk Kardashian, author of *Milk Money: Cash, Cows, and the Death of the American Dairy Farm* You’ve seen the headlines: Parmesan cheese made from wood pulp. Lobster rolls containing no lobster at all. Extra-virgin olive oil that isn’t. So many fake foods are in our supermarkets, our restaurants, and our kitchen cabinets that it’s hard to know what we’re eating anymore. In *Real Food / Fake Food*, award-winning journalist Larry Olmsted convinces us why real food matters and empowers consumers to make smarter choices. Olmsted brings readers into the unregulated food industry, revealing the shocking deception that extends from high-end foods like olive oil, wine, and Kobe beef to everyday staples such as coffee, honey, juice, and cheese. It’s a massive bait and switch in which counterfeiting is rampant and in which the consumer ultimately pays the price. But Olmsted does more than show us what foods to avoid. A bona fide gourmand, he travels to the sources of the real stuff to help us recognize what to look for, eat, and savor: genuine Parmigiano-Reggiano from Italy, fresh-caught grouper from Florida, authentic port from Portugal. Real foods that are grown, raised, produced, and prepared with care by masters of their craft. Part cautionary tale, part culinary crusade, *Real Food / Fake Food* is addictively readable, mouthwateringly enjoyable, and utterly relevant.

Environment and Society in Byzantium, 650-1150 Alexander Olson,2020-11-16 This book illuminates Byzantines'

relationship with woodland between the seventh and twelfth centuries. Using the oak and the olive as objects of study, this work explores shifting economic strategies, environmental change, and the transformation of material culture throughout the middle Byzantine period. Drawing from texts, environmental data, and archaeological surveys, this book demonstrates that woodland's makeup was altered after Byzantium's seventh-century metamorphosis, and that people interacted in new ways with this re-worked ecology. Oak obtained prominence after late antiquity, illustrating the shift from that earlier era's intensive agriculture to a more sylvan middle Byzantine economy. Meanwhile, the olive faded into the background, re-emerging in the eleventh and twelfth centuries thanks to the initiative of people adapting yet again to newly changed political and economic circumstances. This book therefore shows that Byzantines' relationship with their ecology was far from static, and that Byzantines' decisions had environmental impacts.

Extra Virginity: The Sublime and Scandalous World of Olive Oil Tom Mueller, 2011-12-05 [Mueller reveals] the brazen fraud in the olive oil industry and [teaches] readers how to sniff out the good stuff. —Dwight Garner, New York Times For millennia, fresh olive oil has been one of life's necessities—not just as food but also as medicine, a beauty aid, and a vital element of religious rituals. But this symbol of purity has become deeply corrupt. A superbly crafted combination of cultural history and food manifesto, *Extra Virginity* takes us on a journey through the world of olive oil, opening our eyes to olive oil's rich past as well as to the fierce contemporary struggle between oil fraudsters of the globalized food industry and artisan producers whose oil truly deserves the name extra virgin.

Between Two Chairs Helmut (Tom) Mueller, 2015-03-29 Who are you if you have lived half your life in one culture and the other half in another? This is the question that Helmut (Tom) Mueller dealt with, often feeling caught between the two cultures. In his memoir, *Between Two Chairs*, Tom details his life from coming of age in Nazi Germany to a successful life in the United States. This is his story. Born into an affluent family in Brandenburg, Germany in 1925, Tom became fascinated with flying in his youth and eventually joined the Luftwaffe where he saw action as a fighter pilot during WWII. At war's end, he surrendered to the American forces, but was turned over to the Russians the next day. His escape, the search for family, and the attempt to create a normal life dominated the decade after the war. Then came an opportunity to pursue the American Dream where Tom learned to appreciate the values of his new country. In the end, who was he? Helmut the German or Tom the American?

Circle of Lies Douglas Alan, 2010-12-07 *Circle of Lies* is a hot new thriller from newcomer Douglas Alan, featuring John Delaney, an ex-NYPD detective turned lawyer and his lovely wife Katherine Adams, a tough but sexy Atlanta lawyer who gives

as good as she gets. They're an unstoppable team with a love of adventure but no love for the bad guys. Delaney is asked to defend Ted Jordan, a childhood friend who has been arrested for the torture and murder of his law partner. Jordan adamantly maintains his innocence but the police have traced his fingerprints to the dead man's house and a half-million dollars to his bank account. On his way to interview Jordan at the jail, Delaney is approached by a mysterious woman who identifies herself as Ted's friend. She offers to post his bond and warns Delaney to be careful if anyone from the Tissing Corporation contacts him in connection with the case. Ted insists he has been set up by Tissing because he accidentally stumbled onto data showing they deliberately concealed information about suicides in a test group for their latest depression medication. As Delaney and Adams start to dig, they are confronted by an NSA agent who tries to warn them off. When a second dead body is found in Jordan's condominium and Jordan disappears they are left with more questions than answers. But Delaney isn't someone who takes no for an answer and he and Katherine will stop at nothing to find the truth. Beliefs, Reasoning, and Decision Making Roger C. Schank, Ellen Langer, 2013-06-17 It is not unusual for a festschrift to include offerings from several areas of study, but it is highly unusual for those areas to cross disciplinary lines. This book, in doing just that, is a testimony to Bob Abelson's impact on the disciplines of social psychology, artificial intelligence and cognitive science, and the applied areas of political psychology and decision-making. The contributors demonstrate that their association with Abelson, whether as students or colleagues, has resulted in an impressive intellectual cross-fertilization.

High Flight David Hagberg, 2006-11-28 First electronics. Then automobiles. Now the Japanese are ready to strike at our largest industrial export--airplanes. Intrigue and danger heighten as America faces its worst industrial challenge since the Great Depression. With the Cold War over, Japanese industrial espionage may succeed tomorrow where, fifty years ago, their military might failed. Expert saboteurs continue to strike at our vital industries, while hundreds of thousands of American jobs and countless billions of dollars hang in the balance. Ex-CIA field officer Kirk McGarvey is hired by Guerin Airline Company to investigate a recent rash of accidents and restore the company's, and America's, international reputation.

A Dangerous World? Christopher A. Preble, John Mueller, 2014-10-14 In 2013, Chairman of the Joint Chiefs of Staff Gen. Martin Dempsey stated that the world is "more dangerous than it has ever been." Is this accurate? Do we live in a world that is uniquely dangerous? Is it possible that the many threats and dangers promoted by policymakers and the media are exaggerated or overblown? In this timely edited volume, experts on international security assess - and put into context - the supposed dangers to American security. The authors examine the most frequently referenced threats, including wars between nations and civil wars within nations, and discuss the impact of rising nations, weapons proliferation, general

unrest, terrorism, transnational crime, and state failures.

A Deadlier Breed John Wayne Falbey, 2018-11-01 Evolution doesn't stop with Homo sapiens... Thousands of Islamic terrorists have infiltrated America. And they have nukes. One was used to destroy the Los Alamos National Laboratory and the surrounding town. The terrorists have moved the remaining weapons to a point just over the border in Mexico and plan to detonate them in major American cities within days. To avoid the widespread panic that public knowledge of the situation would cause, the newly elected president of the United States privately turns to a secretive paramilitary group known as the Sleeping Dogs. Its dysfunctional members share a rare genetic attribute that makes them the world's deadliest hunter-killer black ops team. But the group's director runs afoul of a special counsel investigating the new president's campaign activities. Their leader, Brendan Whelan, has a marital crisis on his hands. And a traitor within the administration is leaking vital security information to both the special counsel and an entity that seeks to create a one-world government by supporting the terrorists. Compounding the threat, that entity has recruited a group of killers with the same rare genetic attribute as the Sleeping Dogs. Their purpose is to eliminate the Dogs. Time is critical and Whelan and the Sleeping Dogs face their most dangerous challenge yet.
