**Enabling Learning** John Kinder, Nicola Frascini, Marinella Caruso, 2024-12-03 Enabling Learning: Language Teaching for Australian Universities illuminates efforts by tertiary language educators to facilitate the learning of languages at the university level. The educators' endeavours recounted in this volume address a range of specific aspects of the language learning experience or language teaching within tertiary education institutions. The chapters offer an overview of learning approaches and experiences, from the beginner to the advanced level, of different learning environments, from the traditional to online and hybrid, and of different languages, from Indigenous to European to East Asian. This work foregrounds the relevance of improved accessibility to language learning in the university context, presents innovative educational solutions informed by the examination of specific contexts, and asserts the importance of developing intercultural competence.

**Frontiers of L2 Chinese Language Education** Yanyin Zhang, Xiaoping Gao, 2021-09-30 Over the past four decades, learning Chinese as a second language has transformed from individual small-scale endeavors to organized mass studies worldwide. In a fast-changing world, the field of L2 Chinese language education is confronted by unprecedented challenges and opportunities. This book presents recent pedagogical practices, innovations and research in L2 Chinese language

education across five continents. Bringing together a diverse range of leading researchers and educators, it showcases the latest knowledge, teaching-led research, innovative curriculum design and pedagogical practice in a variety of instructional contexts. Through a mix of overview chapters, empirical studies and critical discussions, the book addresses four key themes – formal instruction; language education technology; curriculum development; and critical overviews– and reflects the latest challenges and coping strategies for teaching and learning Chinese in an increasingly digital world. It will be essential reading for researchers, teachers and students of Chinese as a second language, as well as curriculum developers and textbook writers.

Chinese as a Second Language Research from Different Angles ,2024-04-02 A crucial question for Chinese as a Second Language research is how to help elevate Chinese language teaching methodology to the level of other world language methodologies such as English, Spanish and German. This work goes in two directs. One explores how to apply research results achieved in Chinese linguistics to Chinese language teaching and the other is engaged in creating a strong applied linguistics research field that supports Chinese language teaching. CASLAR scholars are mainly involved in the latter one. This book is a representative sample of their research endeavors.

**Performed Culture in Chinese Language Education** Guangyan Chen,2020-06-22 Performed Culture in Chinese Language Education: A Culture-Based Approach for U.S. Collegiate Contexts elaborates on a cultural awareness-oriented, cultural performance-based, and cross-cultural communication-focused foreign language pedagogical paradigm—Performed Culture Approach — in the context of U.S. collegiate Chinese language education. Guangyan Chen draws on the data collected through questionnaires, comparisons between this pedagogy and mainstream pedagogical frameworks, and analyses of curricular development, lesson plans, and classroom discourses. Chen promotes the performed culture approach by delineating the theoretical framework of this pedagogy, reporting studies that empirically support cultural primacy in Chinese language education, and illustrating this pedagogy through analyses of a curricular structure, a lesson plan, and classroom discourses. Chen shows how this pedagogy addresses the gaps between the social need for global citizens and the insufficient integration of culture into foreign language education. The performed culture approach also addresses the overall drop in U.S. collegiate foreign language enrollment as this pedagogy connects foreign language programs to university missions and social needs.

**Crossing Boundaries in Researching, Understanding, and Improving Language Education** Dongbo Zhang,Ryan T. Miller,2023-02-08 This volume brings together original papers from language education scholars from around the world to

explore, exemplify, and discuss the multiplicity of boundary crossing in language education. It emphasizes the potential of boundary crossing for expansive learning, and aims to generate new insights, through boundary crossing, into the complexity of language education and approaches to innovative practices. This volume also underscores the important role of expert boundary crossers. In particular, it aims to honor G. Richard Tucker, Paul Mellon University Professor Emeritus of Applied Linguistics at Carnegie Mellon University, celebrating his distinguished scholarship on language education and paying tribute to the inspiration and mentorship he has given to the contributors of this volume to cross boundaries academically and professionally. This volume is organized into four sections, namely, language learning and development; teachers and instructional processes; program innovation, implementation, and evaluation; and language-in-education policy and planning. These sections or themes, which are necessarily cross-cutting, also represent the major areas of scholarship where Prof. Tucker has made distinguished contributions for over half a century.

Integrating Complementary Medicine into Veterinary Practice Paula Jo Broadfoot,Richard E. Palmquist,Karen

Johnston,Jiu Jia Wen,Barbara Fougere,2009-03-03 Integrating complementary treatment options with traditional veterinary practice is a growing trend in veterinary medicine. Veterinarians and clients alike have an interest in expanding treatment options to include alternative approaches such as Western and Chinese Herbal Medicine, Acupuncture, Nano-Pharmacology, Homotoxicology, and Therapeutic Nutrition along with conventional medicine. Integrating Complementary Medicine into Veterinary Practice introduces and familiarizes veterinarians with the terminology and procedures of these complementary treatment modalities in a traditional clinical format that facilitates the easy integration of these methods into established veterinary practices.
