Just Sex? Nicola Gavey, 2018-10-26 In the award-winning *Just Sex? The Cultural Scaffolding of Rape*, Nicola Gavey provides an extensive commentary on the existing literature on rape, analysing recent research to examine the psychological and cultural conditions of possibility for contemporary sexual violence. *Just Sex?* argues that feminist theory on sexual victimization has gone both too far and not far enough. It presents the reader with a challenging and original perspective on the issues of rape, sex and the body, incorporating new material on sexism, misogyny and digital culture, as well as debates over gendered analyses of sexual violence. The second edition has been updated and expanded to be extremely timely and relevant, with the most recent high-profile rape cases – the Stanford rape case and the Belfast rape case – being tried in the media and online. The rise of the Hollywood Harvey Weinstein scandal and the #MeToo movement makes this book incredibly useful and necessary to those who are working within the area of sexual violence. This will appeal to academic readers studying psychology, sociology, and criminology, as well as those looking into cultural influences on society. It will also be very useful to those working in the professional sector on prevention and with people who have been subjected to sexual violence.

He's Just Not Up for It Anymore Bob Berkowitz, Susan Yager-Berkowitz, 2009-10-13 An estimated twenty million American men and women are in relationships in which the man has stopped being sexually intimate. Is the problem physical, emotional, or psychological—or are these guys simply bored with their partners? To find answers, bestselling author and relationship expert Dr. Bob Berkowitz and his wife, Susan Yager-Berkowitz, began an unprecedented survey of more than four thousand men and women in this situation, gathering data and following up with hundreds of interviews with selected respondents. *Why Men Stop Having Sex* provides a unique window into the sexless man's mind—so that men and women can

understand this important issue and begin to address the problems that have inhibited intimacy, and ultimately solve them.

A Place Not of My Choosing James Brady Callan, William L. Droel, 2020

Mindmelding William Hirstein, 2012-01-26 In this important and controversial new book, William Hirstein argues that it is possible for one person to directly experience the conscious states of another, by way of what he calls mindmelding. Drawing on a range of research from neuroscience, psychology, and philosophy, he presents a highly original new account of consciousness.

Just Say the Word! G. Robert Jacks, 1996 Over the years, I've heard some wonderful sermons, writes G. Robert Jacks. I've also heard some duds. Some have been so extemporaneous they sounded as if the preacher hadn't prepared anything. Some have been such wondrously crafted literary pieces they sounded as if the preacher wanted to sound wondrously crafted and literary. Some have sounded as though the preacher were giving a lecture or reading a term paper. That's because the preacher had written a lecture or term paper. And some have captured the attention and the imagination and set the spark to ignite faith in the hearer. That's because they were written to be listened to, and to appeal to the sense-world of the hearers. Drawing on nearly thirty years of experience in critiquing sermon delivery, Jacks here offers a practical, hands-on approach to writing sermons that consider listeners first. Jacks gives samples and examples of writing that effectively captures and holds an audience's attention, and he offers practical tips and suggestions intended to help each of us find a preaching style

and voice of our own. He also shows how to translate the jargon of theological textbooks into everyday language, suggests methods for rewriting sermons to avoid some of the pomposity of sermonic proclamation, and demonstrates ways to retell biblical narratives in fresh and imaginative ways. Just Say the Word! Writing for the Ear is a valuable resource that will help pastors and lay leaders communicate as effectively as possible the faith that is ours to share.

The Philosophy of Law Meets the Philosophy of Technology Mireille Hildebrandt, Antoinette Rouvroy, 2011-08-26 Law, Human Agency and Autonomic Computing interrogates the legal implications of the notion and experience of human agency

implied by the emerging paradigm of autonomic computing, and the socio-technical infrastructures it supports. The development of autonomic computing and ambient intelligence – self-governing systems – challenge traditional philosophical conceptions of human self-constitution and agency, with significant consequences for the theory and practice of constitutional self-government. Ideas of identity, subjectivity, agency, personhood, intentionality, and embodiment are all central to the functioning of modern legal systems. But once artificial entities become more autonomic, and less dependent on deliberate human intervention, criteria like agency, intentionality and self-determination, become too fragile to serve as defining criteria for human subjectivity, personality or identity, and for characterizing the processes through which individual citizens become moral and legal subjects. Are autonomic – yet artificial – systems shrinking the distance between (acting) subjects and (acted upon) objects? How ‘distinctively human’ will agency be in a world of autonomic computing? Or, alternatively, does autonomic computing merely disclose that we were never, in this sense, ‘human’ anyway? A dialogue between philosophers of technology and philosophers of law, this book addresses these questions, as it takes up the unprecedented opportunity that autonomic computing and ambient intelligence offer for a reassessment of the most basic concepts of law.

A Leader Must Be a Leader Jerry S Grafstein, 2019-07-26 Based on impressions and personal encounters with each of the last 11 Canadian Prime Ministers, Senator Jerry Grafstein has explored their paths to power, considering the legacies they have left on the pages of history. Like all politicians, Grafstein became obsessed with the factors that made a leader a leader. Is leadership a natural or a learned skill set? What unique amalgam of oratory skill, ambition, character, persistence, detachment, decisiveness, empathy, intelligence, personality, experiences, memory, common sense, ideas, judgement,

temperament and, most especially, self-awareness, separate wannabe leaders from the pinnacle of leadership? This is a unique book written by an acute legal mind, a powerful political strategist, a very successful media and communication expert, an engaged Canadian, and a most thoughtful Liberal. Senator Grafstein assesses, evaluates, and appreciates these Canadian Prime Ministers with insight, humor, and generosity.

Unseen Jason Chin,

Just Life Neil Abramson, 2016-05-10 From Neil Abramson, USA Today bestselling author of *Unsaid*, comes a riveting novel that explores the complex connection between humans and animals. Veterinarian Samantha Lewis and her team are dedicated to providing a sanctuary for unwanted, abused, and abandoned dogs in New York City. But every day it gets harder to operate her no-kill shelter. Sam is already at her breaking point when she learns of an unidentified, dangerous virus spreading through their neighborhood. The medical community can only determine that animals are the carriers. Amid growing panic and a demand for immediate answers, suspicion abruptly falls on dogs as the source. Soon the governor is calling in the National Guard to enforce a quarantine--no dog may leave the area. Samantha knows from her own painful history that, despite the lack of real evidence against the dogs, a quarantine may only be the beginning. As questions about the source of the virus mount and clash with the pressure for a politically expedient resolution, Sam is forced to make life-altering choices. She finds allies in a motley crew of New Yorkers--a local priest, a troubled teen, a smart-mouthed former psychologist, and a cop desperate to do the right thing--all looking for sanctuary from their own personal demons. But the person Sam needs the most to unravel the mystery of the virus and save the dogs is the last one she'd ever want to call on--because contacting him will mean confronting the traumatic past she has fought so hard to escape.

I JUST CAN'T STOP HERE Aderemi Badru, 2019-05-03 You are on a journey, a journey that did not start accidentally but was initiated and planned by God for you to fulfill a mission in the world! That mission God sent you here to accomplish is your destiny. But, not everyone will fulfill the mission, complete the assignment and fulfill their destiny. Several people who started this journey stopped halfway, many gave up on their mission and others were discouraged by the challenges that they faced on their journey. Therefore, this book will remind you of your journey, motivate you to be sure that you are on the right journey, encourage you to keep moving no matter what challenges you face or how bad and dangerous the road you travel on may be. The author combined his personal experiences on his journey with various testimonies of people in the Bible to inspire you, that at the end, you too will be able to say that come what may, I just can't stop here.

In *Prodigal*

Knowledge Governance Reasserting the Public Interest, Anna Célia Castro, Rainer Kattel, 2014-10-01 This book argues that the current international intellectual property rights regime, led by the World Trade Organization (WTO), has evolved over the past three decades toward overemphasizing private interests and seriously hampering public interests in access to knowledge and innovation diffusion. This approach concentrates on tangible and codified knowledge creation and diffusion in research and development (R&D) that can be protected via patents and other intellectual property rules and regulations. In terms of global policy initiatives, however, it is becoming increasingly clear that the WTO in particular is mostly a conflict-resolution facility rather than a global governance body able to generate cooperation and steer international coordinated policy action. At the same time, rent extraction and profits streaming from legal hyperprotection have become pervasively important for firm strategies to compete in a globalized marketplace. “Knowledge Governance: Reasserting the Public Interest” offers a novel approach – knowledge governance – in order to move beyond the current regime.
