Making A Spectacle Megan Ruby,Michelle Angelo-Rocha,Mark Hickey,Vonzell Agosto,2020-10-01 This book edition offers a collection of scholarship and reflections that goes beyond theoretical conversations. This volume helps reignite a dialogue not only by scholars but also by educators, activists, and students who believe in inclusive and equal access to education for all individuals regardless of race, ethnicity, immigration status, gender, sexuality, religion, and other identities. In this volume, the authors examine curriculum and pedagogy as a tool for recovery from political trauma and healing. They used this as an opportunity to confront some of the politically shameful situations affecting educational environments, homes, neighborhoods, enclaves, and regions marked by socioeconomic inequality. The authors of Making a Spectacle present wide-open questions: How are educators and school leaders learning to interact with one another, students, their families, and community while facing increased mass school shootings, police violence, racial profiling, unequal access to education and basic needs during a pandemic (COVID-19), and other forms of sociopolitical stress influenced by discrimination, institutional racism, and White nationalism? What curricular and pedagogical geographies are educators and students afforded through which to process their emotional responses to ecological or political activities witnessed in schools and their surrounding areas? These chapters and reflections/perspectives represent a diversity of positionalities within critical intersections of power and privilege as they relate to identity, culture, and curriculum and social justice, schools, and society.

Highlining Balance Jasper Quincy,AI,2025-03-10 Highlining Balance explores the captivating world of highlining, where athletes walk across narrow webbing suspended hundreds of feet in the air. It delves into the unique blend of physical skill and mental fortitude required to succeed in this extreme sport. The book reveals how highlining is as much a mental discipline as it is a physical one, requiring athletes to cultivate unwavering focus and manage fear. Highlining is not just about balance; mastering the art of focused attention and cultivating a deep sense of inner stability are paramount to conquering the challenges posed by highlining. The book progresses from the foundational elements of highliningâincluding equipment and biomechanicsâto the psychological and physiological demands of the sport. It examines the impact of environmental factors like wind and altitude, and it integrates insights from sports psychology, neuroscience, and mindfulness. You'll discover how athletes train their minds to overcome fear, manage anxiety, and maintain unwavering concentration under immense pressure. Ultimately, Highlining Balance reveals how the principles of

focus, stability, and mental resilience learned through highlining can be applied to other areas of life, enhancing both professional performance and personal well-being.

Trends in Language Teaching, Literature, Cultural Studies, and Linguistic Dr. P. Athahar,Dr. S. Mohankumar,Dr. R. Sriganesh,Dr. K. Shaheen ,Dr. Saktheeswar V. B, This book titled “Trends in Language Teaching, Literature, Cultural Studies, and Linguistics” embarks on a journey that transcends borders, delves into the intricacies of language, and celebrates the rich tapestry of human expression. Language is more than mere communication; it’s a mirror reflecting our collective identity, aspirations, and cultural heritage. As educators, scholars, and language enthusiasts, we recognize that our field is ever-evolving. New methodologies emerge, literary landscapes shift, and cultural contexts shape our understanding of words and their power. In this book, we explore four interconnected domains: Language Teaching: How do we inspire language learners? What innovative pedagogies foster fluency and cultural competence? Our contributors share practical insights and theoretical frameworks. Literature: From timeless classics to contemporary voices, literature invites us to explore the human condition. We discuss trends, genres, and the transformative impact of storytelling. Cultural Studies: Culture is the heartbeat of language. We delve into cultural nuances, intercultural communication, and the ways in which literature reflects societal shifts. Linguistics: The science behind language—its structure, evolution, and sociolinguistic dimensions— fuels our curiosity. Linguists unravel mysteries, and we follow their trail. Within these chapters, you’ll encounter passionate educators and rigorous researchers. Their voices harmonize, creating a symphony of ideas. We celebrate diversity—of languages, perspectives, and methodologies. Together, let’s navigate the currents of change, guided by empathy, curiosity, and a shared love for language. Thank you for joining us on this odyssey.

Religion as We Know It: An Origin Story Jack Miles,2019-11-12 A brief, beautiful invitation to the study of religion from a Pulitzer Prize winner. How did our forebears begin to think about religion as a distinct domain, separate from other activities that were once inseparable from it? Starting at the birth of Christianity—a religion inextricably bound to Western thought—Jack Miles reveals how the West’s “common sense” understanding of religion emerged and then changed as insular Europe discovered the rest of the world. In a moving postscript, he shows how this very story continues today in the hearts of individual religious or irreligious men and women.

The British Film Industry in 25 Careers Geoffrey Macnab,2021-01-28 The British Film Industry in 25 Careers tells the history of the British film industry from an unusual perspective - that of various mavericks, visionaries and outsiders who, often against considerable odds, have become successful producers, distributors, writers, directors, editors, props masters, publicists, special effects technicians, talent scouts, stars and, sometimes, even moguls. Some, such as Richard Attenborough and David Puttnam, are well-known names. Others, such as the screenwriter and editor Alma Reville, also known as Mrs

Alfred Hitchcock; Constance Smith, the 'lost star' of British cinema, or the producer Betty Box and her director sister Muriel, are far less well known. What they all have in common, though, is that they found their own pathways into the British film business, overcoming barriers of nationality, race, class and gender to do so. Counterpointing the essays on historical figures are interviews with contemporaries including the director Amma Asante, the writer and filmmaker Julian Fellowes, artist and director Isaac Julien, novelist and screenwriter Hanif Kureishi, and media entrepreneur Efe Cakarel, founder of the online film platform MUBI, who've come into today's industry, adjusting to an era in which production and releasing models are changing – and in which films are distributed digitally as well as theatrically.

Absurdist Drama Foundations Ethan Parker, AI, 2025-05-05 Absurdist Drama Foundations delves into the Theatre of the Absurd, a dramatic movement born from post-World War II disillusionment. It explores how playwrights use illogical narratives and existentialist principles to portray the human condition in a world often perceived as meaningless. This book uniquely bridges philosophy and the performing arts, offering a comprehensive look at how playwrights like Samuel Beckett and Eugene Ionesco challenged traditional theatre structures to reflect the absurdity of existence. For example, plays often feature cyclical structures, mirroring the perceived lack of progress in life. The book argues that while seemingly pessimistic, Absurdist drama provides catharsis by confronting the inherent meaninglessness of existence. It begins by laying the philosophical groundwork of existentialism and absurdism, then analyzes key plays, demonstrating how themes of alienation and communication breakdown are conveyed. The analysis includes case studies of plays like *Waiting for Godot*, *Rhinoceros*, and *The Birthday Party*. Finally, the book concludes by examining the lasting impact and modern applications of absurdist principles, including their influence on modern media.

The Wild Longing of the Human Heart William Cooney, 2015-12-01 The search for happiness has been an enduring quest for us all. The greatest minds from history--Plato, Aristotle, Epicurus, Rousseau, Kant, Mill, Gandhi, Einstein and many others—all confirm that happiness is the one thing we all crave after. *The Wild Longing of the Human Heart* is divided into two parts. Part one examines the brief history of happiness which has not always meant exactly the same thing to all cultures and individuals, and then moves on to summarize the latest information from the areas of brain science as well as the field of positive psychology. Part two proposes that it is not happiness (in the psycho-physiological sense of something like tranquility) which is the true goal of human living. Rather, the true goal of the “wild longing” is a meaningful life, guided by the search for truth, beauty and goodness.

Spiritual Reads Influence Olivia Thompson, AI, 2025-02-19 *Spiritual Reads Influence* explores why certain spiritual reads and religious texts continue to resonate across cultures and time, focusing on their influence in providing meaning and purpose. The book emphasizes that these texts address fundamental human needs, offering ethical frameworks and narratives that help individuals navigate life's complexities. Intriguingly, these texts often shape both individual identity and

broader social structures, contributing to cultural norms and personal values. The book adopts a multidisciplinary approach, blending religious studies, sociology, and psychology to analyze the cultural impact and enduring appeal of these texts. Beginning with core concepts, the book explores major themes found in spiritual literature, exemplified by case studies from Hinduism, Buddhism, Christianity, and Islam. It also examines the psychological and sociological factors that contribute to their appeal. By bridging diverse disciplines, *Spiritual Reads Influence* offers a nuanced understanding of these texts' lasting power.

The House of Pure Being Michael Murphy, Máire Geoghegan-Quinn, 2013-09-23 Michael Murphy's second volume of prose, *The House of Pure Being*, charts the author's experiences and revelations since the release of his best-selling memoir, *At Five in the Afternoon*. In this sequel, he brings the inspiring stories of his women friends up to date, tackles difficult subjects like the lingering effects of cancer, and the passing of Aengus Fanning (former editor of the *Sunday Independent*), and writes movingly of his Civil Partnership ceremony to his long-time partner Terry. Michael shares his deeply insightful and unique reflections on writing, art, language, love, family and friendship, and the seductive charms of his beloved Spain. Thought-provoking and eloquent, *The House of Pure Being* explores the inner complexities of an exceptional writer, and in doing so, highlights the warmth and compassion of a much-admired man.

Nested Scrolls Rudy Rucker, 2011-12-06 *Nested Scrolls* reveals the true life adventures of Rudolf von Bitter Rudy Rucker—mathematician, transrealist author, punk rocker, and computer hacker. It begins with a young boy growing up in Louisville, Kentucky, the son of a businessman father who becomes a clergyman, and a mother descended from the philosopher Hegel. His career goals? To explore infinity, popularize the fourth dimension, seek the gnarl, become a beatnik writer, and father a family. All the while Rudy is reading science fiction and beat poetry, and beginning to write some pretty strange fiction of his own—a blend of Philip K. Dick and hard SF that qualifies him as part of the original circle of writers in the early 1980s that includes Bruce Sterling, William Gibson, John Shirley, and Lewis Shiner, who were the founders of cyberpunk. At one level, Rucker's genial and unfettered memoir brings us a first-hand account of how he and his contemporaries ushered in our postmodern world. At another, this is the wry and moving tale of a man making his way from one turbulent century to the next. *Nested Scrolls* is like its author: sweet, gentle, honest, and intellectually fierce. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

God and The Twelve Problems of Evil Thomas Ronald Vaughan, 2020-06-08 This book of essays asks the enduring, age-old question, If God is loving and good, why is there so much evil? It answers boldly, Because God creates, sustains, and 'allows' evil in the world. This fact is the greatest and most impenetrable mystery of the Christian faith. Twelve categories of evil are thereafter described and analyzed. The case is made that God is actively involved in the manifestations of evil, mysteriously and paradoxically suffers with her beloved children, but is in control of it all. Whatever harms, causes suffering,

or destroys persons, animals, or the precious earth will be eliminated forever, but only in God's good time. Until then, believers must overcome evil with good, maintaining faith in the God whose thoughts and ways are not ours.

Intelligence, Creativity and Fantasy Mário S. Ming Kong, Maria do Rosário Monteiro, Maria João Pereira Neto, 2019-09-30

The texts presented in *Proportion Harmonies and Identities (PHI) - INTELLIGENCE, CREATIVITY AND FANTASY* were compiled with the intent to establish a multidisciplinary platform for the presentation, interaction and dissemination of research. The aim is also to foster the awareness and discussion on the topics of Harmony and Proportion with a focus on different visions relevant to Architecture, Arts and Humanities, Design, Engineering, Social and Natural Sciences, and their importance and benefits for the sense of both individual and community identity. The idea of modernity has been a significant motor for development since the Western Early Modern Age. Its theoretical and practical foundations have become the working tools of scientists, philosophers, and artists, who seek strategies and policies to accelerate the development process in different contexts.

A Latin American Existentialist Ethos Stephanie Merrim, 2023-05-01 With their emphasis on freedom and engagement, European existentialisms offered Latin Americans transformative frameworks for thinking and writing about their own locales. In taking up these frameworks, Latin Americans endowed them with a distinctive ethos, a turn towards questions of identity and ethics. Stephanie Merrim situates major literary and philosophical works—by the existentialist Grupo Hiperión, Rosario Castellanos, Octavio Paz, José Revueltas, Juan Rulfo, and Rodolfo Usigli—within this dynamic context. Collectively, their writings manifest an existentialist ethos attuned to the matters most alive and pressing in their specific situations—matters linked to gender, Indigeneity, the Mexican Revolution, and post-Revolution politics. That each of these writers orchestrates a unique center of gravity renders Mexican existentialist literature an always shifting, always passionate adventure. A Latin American Existentialist Ethos takes readers on this adventure, conveying the passions of its subjects lucidly and vibrantly. It is at once a detailed portrait of twentieth-century Mexican existentialism and an expansive look at Latin American literary existentialism in relation—and opposition—to its European counterparts.

The Origins of Life and the Universe Paul F. Lurquin, 2003-04-16 *The Origins of Life and the Universe* is the culmination of a university science professor's search for understanding and is based on his experiences teaching the fundamental issues of physics, chemistry, and biology in the classroom. What is life? Where did it come from? How can understanding the origins of life on Earth help us understand the origins of the universe, and vice versa? These are questions that have occupied us all. This is a book, then, about the beginning of things—of the universe, matter, stars, and planetary systems, and finally, of life itself—topics of profound interest that are rarely considered together. After surveying prescientific accounts of the origins of life, the book examines the concepts of modern physics and cosmology, in particular

the two pillars of modern physics, relativity and quantum theory, and how they can be applied to the Big Bang model of the creation of the universe. The author then considers molecular genetics and DNA, the famed building block of life. In addition to assessing various hypotheses concerning the appearance of the first bacterial cells and their evolution into more complex eukaryotic cells, this section explains how protocells may have started a kind of integrated metabolism and how horizontal gene transfer may have speeded up evolution. Finally, the book discusses the possibility that life did not originate on planet Earth but first appeared on other solar planets, or perhaps in other star systems. How would such a possibility affect our understanding of the meaning of life, or of its ultimate fate in the universe? The book ends as it begins, with profound questions and penetrating answers, a state-of-the-art guide to unlocking the scientific mysteries of life and matter.

Quotes by Albert Camus Lilith Regan,2020-04-11 The struggle itself towards the heights is enough to fill a man's heart. One must imagine Sisyphus happy. In the depth of winter, I finally learned that within me there lay an invincible summer. Men must live and create. Live to the point of tears. I rebel; therefore I exist. Freedom is nothing but a chance to be better. Man is the only creature that refuses to be what he is. Life is the sum of all your choices. There is no fate that cannot be surmounted by scorn. Autumn is a second spring when every leaf is a flower. Integrity has no need of rules.
