Storia della Seconda Guerra Mondiale vol. 2 Henri Michel, 2021-01-12T00:00:00+01:00 Mentre nel mondo si ammassano rovine e innumerevoli miserie colpiscono centinaia di milioni di uomini; mentre fame e malattie devastano Paesi, un tempo opulenti, e milioni di ebrei si avviano verso le camere a gas e i forni crematori, profondi sconvolgimenti agitano il globo e la popolazione civile, impotente, impara a proprie spese il significato dell'espressione "guerra totale". Dal 1943, anno da molti definito come quello della "svolta", al 1945, la potenza delle nazioni va assestandosi poco alla volta secondo una nuova gerarchia.

La seconda guerra mondiale Giovanni Franchi, 2001

La Seconda guerra mondiale in 50 perché Pietro Iacopo Benzi, 2025-03-25 La Seconda guerra mondiale è stato uno degli eventi che hanno cambiato nel profondo il corso del Novecento, portando a nuovi equilibri di forza tra le nazioni e modellando per decenni le relazioni internazionali e la politica globale. A ottant'anni dalla fine del conflitto, questo volume propone un percorso in 50 domande e risposte in cui Pietro Iacopo Benzi - storico e tra i creatori della seguitissima pagina di divulgazione La Storia sul Tubo - affronta gli interrogativi chiave per comprendere ogni passaggio di questa fase complessa e cruciale: dalle cause che portano allo scoppio delle ostilità alle battaglie principali, dai piani (ed errori) strategici nei diversi teatri di guerra al ruolo di figure celebri e altre meno note ma altrettanto decisive, fino alla spaventosa conclusione con il lancio delle bombe nucleari su Hiroshima e Nagasaki. Esplorando in modo semplice, moderno ed efficace i dietro le quinte e le ragioni profonde che hanno guidato i protagonisti e gli schieramenti in campo, questo libro è uno strumento prezioso per orientarsi nel conflitto, arricchito con box e approfondimenti sui personaggi, le armi, le innovazioni tecnologiche e le operazioni militari che hanno contraddistinto una delle pagine più drammatiche della storia umana.

I migliori Caccia della Seconda Guerra Mondiale - La Trilogia - Parte 2 Mantelli - Brown - Kittel - Graf, 2016-02-22 Nuova edizione aggiornata. Si trattò di una sgradevole sorpresa. I piloti degli Spitfire della RAF avevano respinto la Luftwaffe durante la Battaglia d'Inghilterra e ora, nell'estate del 1941, dovevano affrontarla per difendere l'Europa. Non avevano però previsto la comparsa dei Focke-Wulf Fw 190, i nuovi caccia tedeschi, con motore radiale, che riuscivano a contrastare facilmente gli inadeguati Spitfire V. Quando finalmente la RAF riuscì a catturarne un esemplare nel 1942, ci si accorse che le brutte notizie dovevano ancora arrivare. Il 190, infatti, si rivelò più veloce di qualsiasi caccia britannico o statunitense e, con

un armamento poderoso, l'agile velivolo tedesco poteva distruggerli con facilità. Per il Giappone lo Zero fu, in realtà, assai più di un aeroplano, ma il simbolo stesso della potenza aerea dell'Impero; er gli Alleati fu assai più di un implacabile avversario, ma un incubo e al tempo stesso un mito. A lungo gli furono attribuite delle virtù in gran parte immaginarie, poiché le sue uniche e incontestabili doti erano un'eccezionale manovrabilità e un altrettanto eccezionale autonomia. Il Mitsubishi A6M è uno di quegli aerei che non potrebbe suscitare opinioni più contrastanti, ora ignorato, ora temuto, infine ridicolizzato, e poi ancora ripreso in considerazione, mitizzato, analizzato criticamente, sopravvalutato, sottovalutato, e così via senza soluzione di continuità. L'Hawker Hurricane, uragano, a suo tempo non avrebbe potuto esprimere meglio nei fatti quello che era il suo nome. Nato come Fury Monoplane, si proponeva di continuare in versione monoplana il progetto del Fury, uno dei migliori e più raffinati tra i caccia della vecchia generazione. Creato da Sidney Camm della HG Hawker Engineering Company, ideato fin dal 1933 attorno al nuovo motore RR PV 12 e rispondente alla specifica F.5/34, che chiamava per un caccia dotato di 8 mitragliatrici leggere, davvero un aumento impressionante rispetto alle due normalmente portate all'epoca.

Spie e sabotatori della Seconda guerra mondiale Domenico Vecchiarino, 2025-04-28T00:00:00+02:00 Dietro ogni singola operazione, dietro ogni singola missione ci sono stati uomini e donne che hanno sacrificato la loro vita per i loro ideali e per le loro patrie nello sfondo della più grande lotta ideologica della storia. Il libro racconta le più affascinanti storie di spionaggio e operazioni di sabotaggio della Seconda guerra mondiale, articolate in episodi che spaziano dai casi più noti a quelli meno conosciuti, tutti capaci di influire sul corso del conflitto. Si tratta di resoconti avvincenti, da leggere tutti d'un fiato, che offrono descrizioni dettagliate di eventi, particolari inediti, biografie e aneddoti sulle spie e sui commandos che hanno lasciato un segno nella storia della guerra. L'autore, con lo stile avvincente di un romanzo di spionaggio, ci guida alla scoperta di storie straordinarie e imprese leggendarie, in cui agenti segreti, sabotatori ed eroi, tra intrighi, inganni e doppi giochi, svelano un volto nuovo del secondo conflitto mondiale.

Storia Della Seconda Guerra Mondiale. [With Illustrations.]. Amedeo Tosti, 1948

Storia della Seconda Guerra Mondiale vol. 1 Henri Michel, 2021-01-12T00:00:00+01:00 La Seconda guerra mondiale è finita con la sconfitta di quelli che l'avevano voluta: Germania e Giappone. Ma è cominciata con le loro vittorie, vittorie di una tale ampiezza che avrebbero potuto sembrare decisive. Ed è a questa prima parte del conflitto, ai successi dell'Asse, che Michel dedica il primo volume della sua Storia della Seconda guerra mondiale. Si tratta di una ricerca che indaga gli aspetti socio-politici ed economici, e tiene conto delle complesse e sovrapposte diplomazie interne e internazionali dell'epoca. Magistrale nello sforzo di sintesi, l'opera di Michel mostra anche qual è stato il reale ruolo dell'Italia nel secondo conflitto mondiale, un Paese alleato della Germania nazista, poi travolto dalle vicende belliche in un gioco assai più grande dei suoi

evidenti limiti politici. Popoli assoggettati da secoli sentono venuto il momento di trasformarsi in nazioni. I vinti del primo scontro preparano con la loro rivincita o la loro liberazione le grandi trasformazioni che li faranno rinascere. Con la vittoria degli Alleati si conclude questo secondo volume e la magistrale ricostruzione del secondo conflitto mondiale a opera di Michel.

Germany and the Second World War, 1990 Explores the conduct of the war in the Mediterranean region and examines the dramatic military events of this period

The Second World War Nick Smart, 2017-11-30 The significant and sustained popular interest in the Second World War is matched by the scale and scope of scholarly engagement in the subject. The articles selected for this volume cover a wide range of topics reflecting the fact that the largest recorded war in history and the most intense period of global instability in the twentieth century, was fought by many different states, large and small, over differing periods of time and for many different reasons. In an area where there is no shortage of material to choose from, the articles presented here are distinguished for their depth of scholarship, stylistic elegance and inter-disciplinary confidence.

Seconda guerra mondiale Flavio Fiorani, 2018-02-23 Equilibri e conflitti del mondo in cui oggi viviamo subiscono ancora l'influenza degli esiti della Seconda guerra mondiale, la «guerra totale» che ha coinvolto centinaia di milioni di persone in ogni angolo del mondo. Questo libro è dedicato alla sua storia drammatica e complessa. Un grande racconto che ripercorre, evento per evento, i sei lunghi anni del conflitto, dal 1939 al 1945. Uno strumento di studio insostituibile per capire in ogni suo aspetto l'evento cardine del XX secolo.

Tecniche di addestramento militare. Tutti i segreti dei corpi speciali Chris McNab, 2003

Macchi C.202 Folgore Davide F. Jabes, Alessandro Romanello, Niccolò Tognarini, 2021-12-02 The Macchi C.202 was probably the most successful Italian fighter during the Second World War. It is generally agreed that the performance of the Macchi was superior to both the Hawker Hurricane and the Curtiss P-40 Kittyhawk and on a par with the Supermarine Spitfire Mk. V. It is not by chance that virtually all the Italian top scoring aces flew this plane either with the Regia Aeronautica or the Aeronautica Nazionale Repubblicana. At the same time, the Mc.202 is the symbol of the dysfunctions in the Italian military-industrial complex: the lack of sound industrial planning resulting in orders from the Regia Aeronautica for an exaggerated number of different aircraft; the lack of the development of adequate engines limiting aircraft performance and reducing capacity to house weapons with a proper punch; the corruption of politics and the culpable connivance of the high military spheres. The Mc.202 was therefore produced in limited numbers, while there is consensus

that air war, especially in the African theatre, would have been different had the aircraft been adopted before.

The British Empire and its Italian Prisoners of War, 1940-1947 B. Moore, K. Fedorowich, 2002-03-13 During the Second World War, British and Imperial forces captured more than half a million Italian soldiers, sailors and airmen. Although a symbol of military success, these prisoners created a multitude of problems for the authorities throughout the war. This book looks at how the British addressed these problems and turned liabilities into assets by using the Italians as a labour force, a source of military intelligence and as a political warfare tool before their final repatriation in 1946-47.

Città e guerra : difese, distruzioni, permanenze delle memorie e dell'immagine urbana. Tomo II : tracce e patrimoni Maria Ines Pascariello, Alessandra Verapalumbo, Raffaele Amore, 2023-12-31 [Italiano]: In un momento così significativo per la storia europea e mondiale, questo volume vuole essere la raccolta di riflessioni scientifiche condotte sui rapporti tra le scelte politiche, le azioni militari e la fisionomia delle città e del paesaggio urbano, sull'evoluzione delle strutture e delle tecniche di difesa, sulla rappresentazione della guerra e dei suoi effetti sull'immagine urbana, sul recupero delle tracce della memoria cittadina. Da una parte il campo delle Digital Humanities apre nuove prospettive per studiare l'immagine della città prima, durante e dopo la guerra, dall'altro le tecnologie digitali impegnano studiosi e ricercatori di varie discipline: in particolare nell'ambito del disegno viene esplorato il ruolo della rappresentazione nella formulazione dei progetti urbani di difesa e nella documentazione degli eventi bellici e delle tracce lasciate dai conflitti, mentre nell'ambito del restauro vengono approfondite le sfide teoriche e pratiche imposte dai danni arrecati dai conflitti ai centri storici, passando in rassegna casi studio, soluzioni e dibattiti relativi alla conservazione del patrimonio urbano coinvolto in azioni di guerra, con un'attenzione particolare all'identità e alla memoria collettiva./[English]: At such a significant moment in European and world history, this volume aims to be a collection of scientific reflections about the relationships between political choices, military actions and the physiognomy of cities and the urban landscape, about the evolution of defence structures and techniques, about the representation of war and its effects on the urban image, and about the recovery of the traces of city memory. On the one hand the field of Digital Humanities opens up new perspectives to study the image of the city before, during and after the war, on the other hand digital technologies engage academics and researchers from various disciplines: In particular, in the area of drawing, the role of representation in the formulation of urban defence projects and in the documentation of wartime events and the traces left behind by conflicts is explored, while in the area of conservation, the theoretical and practical challenges imposed by the damage caused by conflicts to historic centres are explored, reviewing case studies, solutions and debates relating to the conservation of urban heritage involved in wartime actions, with a focus on identity and collective memory.

Operation Barbarossa and its Aftermath Dr. Grzegorz Rossoliński-Liebe, 2024-11-01 The 1941 invasion of the Soviet Union, codenamed Operation Barbarossa, remains one of Nazi Germany's most significant military campaigns. Executed by

Hitler's Wehrmacht army, this event saw troops from all over Europe defeat the Red Army and temporarily colonize large swathes of Eastern Europe, ultimately laying the groundwork for the Holocaust. In this illuminating re-examination of this multifaceted event, Operation Barbarossa and its Aftermath refocuses our attention on the multiethnic nature of the campaign, shedding light on the role of soldiers from Slovakia, Italy, Romania, and Spain as well as other important issues. This volume highlights how viewing Operation Barbarossa as a multiethnic campaign, rather than a strictly German-Russian conflict, offers new ways of understanding the Holocaust, World War II and the history of European collaboration.

Struggle for the Middle Sea Vincent O'Hara, 2009-06-01 The Mediterranean is the maritime crossroads where Europe, Asia, and Africa meet. More major naval actions were fought there than in the Atlantic or Pacific yet remarkably little has been written about the subject. This fresh study of the Mediterranean's naval war analyzes the actions and performances of the five major navies-British, Italian, French, German, and American-during the entire five-year campaign and examines the national imperatives that drove each nation's maritime strategy. **Struggle for the Middle Sea** provides a history of the entire campaign from all perspectives and covers Germany's largely unknown-and remarkably successful-struggle to employ sea power in the Mediterranean after the Italian armistice. Defense & Foreign Affairs Strategic Policy (August 2009) has called it "a new and stunningly important view of World War II" and "a fabulously readable and important book."
