The Seigneurial Transformation Alessio Fiore,2020 Alessio Fiore discusses the transformation of the fabric of power in the kingdom of Italy in the period between the late eleventh century and the early twelfth century: a period in which the structures of local power and the instruments of local political communications were dramatically reshaped.

**Standing on Holy Ground in the Middle Ages** Lucy Donkin,2022-02-15 Standing on Holy Ground in the Middle Ages illuminates how the floor surface shaped the ways in which people in medieval western Europe and beyond experienced sacred spaces. The ground beneath our feet plays a crucial, yet often overlooked, role in our relationship with the environments we inhabit and the spaces with which we interact. By focusing on this surface as a point of encounter, Lucy Donkin positions it within a series of vertically stacked layers—the earth itself, permanent and temporary floor coverings, and the bodies of the living above ground and the dead beneath—providing new perspectives on how sacred space was defined and decorated, including the veneration of holy footprints, consecration ceremonies, and the demarcation of certain places for particular activities. Using a wide array of visual and textual sources, Standing on Holy Ground in the Middle Ages also details ways in which interaction with this surface shaped people's identities, whether as individuals, office holders, or members of religious communities. Gestures such as trampling and prostration, the repeated employment of specific locations, and burial beneath particular people or actions used the surface to express likeness and difference. From pilgrimage sites in the Holy Land to cathedrals, abbeys, and local parish churches across the Latin West, Donkin frames the ground as a shared surface, both a feature of diverse, distant places and subject to a variety of uses over time—while also offering a model for understanding spatial relationships in other periods, regions, and contexts.

**Romanesque and the Past** John McNeill,Richard Plant,2024-11-01 The nineteen papers collected in this volume explore a notable phenomenon, that of retrospection in the art and architecture of Romanesque Europe. They arise from a conference organized by the British Archaeological Association in 2010, and reflect its interest in how and why the past manifested itself in the visual culture of the 11th and 12th centuries. This took many forms, from the casual re-use of ancient material to a specific desire to re-present or emulate earlier objects and buildings. Central to it is a concern for the revival of Roman and early medieval forms, spolia, selective quotation, archaism and the construction of histories. The individual essays presented here cover a wide range of topics and media: the significance of consecration ceremonies in the creation of architectural

memory, the rise of pictorial concepts in 12th-century chronicles, the creation of history in the Paris of Hugh of St-Victor, and the appeal of the works of Bernward of Hildesheim and of Hrabanus Maurus in the centuries after their deaths. There are studies of buildings and the ideological purpose behind them at Tarragona, Ripoll, Cluny, Pannonhalma (Hungary), La Roccelletta (Calabria), and Old St Peter's, comparative studies of Trier, Villenauve and Glastonbury, and of Bury St Edmunds, Rievaulx and Canterbury, and wide-ranging papers on the tantalizing evidence for an engagement with an overseas past in Ireland, an Anglo-Saxon past in England, and a Milanese past among the aisleless cruciform churches of Augustinian Europe. The volume concludes with an assessment of the very concept of Romanesque.

**A Companion to Medieval Pisa**, 2022-04-25 Presenting medieval Pisa in a multidisciplinary study, A Companion to Medieval Pisa provides a comprehensive overview of the city at the time of its greatest fame and prosperity. The volume addresses central aspects of the city's history: its geomorphology and orientation towards the Mediterranean Sea; its ancient past; the archaeological basis for the study of the medieval city and its built environment; Pisa's urban and port infrastructure; its social organization and political and economic history; its cultural achievements in the visual and literary arts; and the legacy of the medieval past for the city today. Contributors are: David Abulafia, Monica Bini, Veronica Rossi, Stefano Bruni, Antonio Alberti, Gabriele Gattiglia, Alma Poloni, Giuseppe Petralia, Gabriella Garzella, Ewa Karwacka Codini, Cédric Quertier, Michele Campopiano, Michel Balard, Fabio Redi, Olimpia Vaccari, Mauro Ronzani, Maria Luisa Ceccarelli Lemut, Ottavio Banti, Marco Collareta, Karen Rose Mathews, Cristina Cagianelli, and Franco Cardini.

La diocesi di Bobbio. Formazione e sviluppi di un'istituzione millenaria Destefanis, Eleonora; Guglielmotti, Paola, 2015-12-31 Il volume, attingendo a tradizioni disciplinari e storiografiche diverse, offre una serie di sintesi e di affondi tematici, funzionali alla contestualizzazione del peculiare caso dell'episcopato di Bobbio, fondato nel 1014 nell'Appennino piacentino quale sviluppo del celebre monastero di San Colombano. La notevole massa documentaria disponibile grazie al recente riordino degli archivi diocesani, che ha consentito di illustrare anche la biblioteca della cattedrale, ha richiesto una

presentazione d'insieme e una specifica attenzione per gli atti costitutivi della nuova istituzione. L'approfondimento del contesto storico entro cui si dipana la successiva vicenda diocesana è stato condotto in rapporto con il monastero e con una selezione delle città vicine. All'analisi delle dinamiche insediative del centro bobbiese e degli sviluppi strutturali della chiesa e del complesso episcopale fanno da contrappunto sia approfondimenti mirati all'organizzazione del territorio, colta nelle sue articolazioni civili, religiose, assistenziali, sia trattazioni di componenti culturali e liturgiche che animano questa Chiesa.

**1416: Savoie Bonnes Nouvelles.** Gustavo Mola di Nomaglio,2022-06-25 I Savoia, principi e vicari perpetui del Sacro Romano Impero sin dal remoto medioevo (quando erano potenti non solo nei propri Stati ma anche in altri ampi contesti europei), non si curarono mai dei titoli con i quali regnavano sui propri principali domini, essenzialmente interessati e attenti alla concretezza dei loro poteri e della loro effettiva indipendenza. Per questo l'assunzione del titolo ducale sulla Savoia per concessione imperiale, nel 1416 fu da molti studiosi considerata come una sorta di "promozione". In realtà i Savoia erano già

duchi Chiabrese e sulla Valle d'Aosta, domini eretti in ducato sin dal 1238 e il titolo di duchi di Savoia, pur meritando di essere celebrato al traguardo sei volte secolare, non rappresenta una "crescita" dinastica nelle gerarchie dei poteri europei, se non su un piano essenzialmente "simbolico". Esso ebbe, in ogni caso, indubbia rilevanza geopolitica, divenendo l'occasione per riunire sotto la sola denominazione "Savoia" numerosi territori e onorifica in tempi in cui certi aspetti formali tendevano ad assumere una rilevanza pari o superiore a quella sostanziale. Perciò esso fu ricordato a Torino nel 2016 in un grande convegno internazionale. In questi volumi sono raccolti gli studi multidisciplinari presentati in questa occasione e alcuni altri che si sono successivamente aggiunti.

*Reuso Vol. 2: Actas del Congreso Internacional sobre Documentación, Conservación y Reutilización del Patrimonio Arquitectónico*, 2013-12-19 El objetivo del Congreso Reuso celebrado en Madrid fue la puesta en común de experiencias vinculadas a aspectos profesionales y académicos en el campo de la restauración arquitectónica, con un discurso trasladable al panorama internacional, particularmente sensible con estos temas hoy en día. El resultado de este debate se materializó en tres volúmenes, siendo este el segundo tomo de la serie.

**È sotto terra la tradizione di Bano. Archeologia e storia di un monastero femminile** Enrico Giannichedda, 2012-11-01 Il volume pubblica gli studi, le ricerche e lo scavo archeologico (2001-2005) sul monastero femminile di Santa Maria di Bano, nel comune di Tagliolo Monferrato (AL). La prima parte ospita contributi sulla storia del monastero e del territorio attraverso lo studio delle fonti storiche, cartografiche ed archivistiche, mentre nella seconda parte viene presentato lo studio delle strutture, partendo dalle fonti storiche, con particolare attenzione anche alla gestione delle acque, di fondamentale importanza per i monasteri. Il capitolo dedicato ai manufatti d'uso passa in rassegna i reperti rinvenuti nel corso delle campagne di scavo, riguardanti le ceramiche, i materiali architettonici e i reperti faunistici. Nell'ultima parte il curatore tenta di offrire alcune conclusioni e riflessioni, ancora provvisorie, sui risultati dello scavo e delle ricerche.

**Architetti e committenti nel romanico lombardo** Carlo Tosco, 2013-11-27T00:00:00+01:00 Negli anni intorno al Mille in Italia, come nell'intera Europa, si assiste alla nascita di un'architettura nuova, che oggi definiamo romanica. L'area "lombarda", intesa in senso medievale come l'intera Italia settentrionale, rappresenta uno dei fulcri alla guida del nuovo slancio costruttivo. Le nostre conoscenze in rapporto alle grandi figure di architetti che divengono i protagonisti del nascente romanico rimangono frammentarie, ma in base alle fonti è possibile riconoscere le fasi cruciali di un nuovo rapporto instaurato tra i costruttori e le autorità feudali. Vengono così interpretati sotto una nuova luce due secoli di architettura italiana, tentando di ricostruire l'attività dei singoli artisti e delle maestranze itineranti. Partendo dalle scarse notizie relative

alle prime figure di architetti italiani di cui si conosce il nome, la ricerca prosegue fino alle più note personalità di costruttori al culmine del periodo romanico, come Buscheto a Pisa, Lanfranco e Wiligelmo nel duomo di Modena.

**Alza la tua radio per favor...** Massimo Emanuelli,2025-03-06 Dai primi esperimenti di rottura del monopolio fino alla sentenza della Corte Costituzionale del 1976 che consentiva ai privati di trasmettere in ambito locale. L'evoluzione delle radio libere in radio commerciali: da hobby la radio diventa un lavoro. Passato il periodo pionieristico molte radio chiudono ed aspiranti dj e giornalisti appendono il microfono al chiodo, per fare un "lavoro serio", alcuni fondatori di radio locali diventano editori e fanno nascere aziende, piccole e grandi, rilevando frequenze di altre radio ed allargando il bacino di utenza. Nel 1990 la legge Mammi regolamenta le radio private, nascono i network nazionali, il primo è Radio 105 di Alberto Hazan, seguiranno Radio Milano International (One O One), Radio Deejay, Rtl 102,5, Radio Italia, ecc., tutti al nord eccezion fatta per Rds e Radio Kiss Kiss. Molti pionieri delle radio libere (non tutti) passano alla tv e diventano personaggi nazionali-popolari (Claudio Cecchetto, Gerry Scotti, Fiorello, Carlo Conti, Piero Chiambretti, Tiberio Timperi, Amadeus ecc.), altri, salvo qualche sporadica apparizione restano in radio. La storia dei network, delle radio locali, delle radio politiche, delle radio religiose, degli speaker, dei giornalisti, con testimonianze di Tiberio Timperi, Platinette, Piero Chiambretti, Claudio Cecchetto, Franco Lazzari, Roberto Poletti, Fausto Terenzi, Mario Luzzatto Fegiz e tanti altri.

**San Paragorio di Noli Le fasi del complesso di culto e l'insediamento circostante dalle origini all'XI secolo**  
Alessandra Frondoni,2018-12-20 L'area archeologica circostante la nota e importante chiesa di San Paragorio di Noli (SV), databile ai primi decenni dell'XI secolo, si è rivelata da tempo di primario interesse per la conoscenza dell'insediamento umano nel Ponente ligure, dall'età imperiale al primo Medioevo, con particolare riguardo allo studio della cristianizzazione del territorio. Scopo di questo volume è dar conto degli esiti delle campagne di scavo che hanno interessato il sito già alla fine del secolo XIX e nei primi anni Settanta del Novecento, con il ritrovamento di un battistero paleocristiano ad aula rettangolare absidata e delle prime tracce di frequentazione di età romana. Tema centrale è l'edizione complessiva dei dati emersi dalle indagini archeologiche svoltesi dal 1987 ai primi anni Duemila, dapprima collegate a esigenze di archeologia preventiva, poi programmate in estensione, grazie anche alla rimozione del terrapieno della ex ferrovia che occultava gran parte della facciata e del fianco meridionale dell'edificio religioso. La scoperta di un articolato complesso cultuale con varie fasi e ristrutturazioni tra V e IX secolo, la presenza di tombe privilegiate e l'epigrafe sepolcrale di un vescovo consentono di attribuire al sito di San Paragorio una valenza particolarmente significativa nell'ambito della prima organizzazione ecclesiastica dell'area savonese corrispondente all'antico municipium di Vada Sabatia. Di rilevante importanza sono stati inoltre i risultati degli scavi delle zone adiacenti all'edificio di culto, con la messa in luce di un insediamento abitativo e artigianale, sviluppatosi dal VI alla fine del X secolo; particolare interesse rivestono alcuni impianti metallurgici, testimonianza di un raro sito produttivo del Nord Italia, con fasi dall'età dell'occupazione bizantina della Liguria all'alto

Medioevo. La sequenza stratigrafica presa in esame e il catalogo dei materiali si riferiscono al periodo compreso tra l'età romana e l'XI secolo, quando si pone mano al cantiere di costruzione della nuova chiesa romanica, poi divenuta cattedrale di Noli.
