That Was Then, This Is Now S. E. Hinton, 1998-04-01 Another classic from the author of the internationally bestselling *The Outsiders* Continue celebrating 50 years of *The Outsiders* by reading this companion novel. *That Was Then, This is Now* is S. E. Hinton's moving portrait of the bond between best friends Bryon and Mark and the tensions that develop between them as they begin to grow up and grow apart. A mature, disciplined novel which excites a response in the reader . . . Hard to forget.—The New York Times

That Was Then, This is Now S. E. Hinton, 1998-04 Sixteen-year-old Mark and Bryon have been like brothers since childhood, but now, as their involvement with girls, gangs, and drugs increases, their relationship seems to gradually disintegrate.

*Fixing LIBOR* Great Britain: Parliament: House of Commons: Treasury Committee, 2012-08-21 This report follows the Committee's inquiry into the Final Notice issued by the Financial Services Authority with respect to Barclays on 27 June, 2012. The Committee has called for action in a number of areas, including: higher fines for firms that fail to co-operate with

regulators, the need to examine gaps in the criminal law, and a much stronger governance framework at the Bank of England. The manipulations were made possible by a prolonged period of extremely weak internal compliance and board governance at Barclays, as well as a failure of regulatory supervision. Nor was it spotted either by the FSA or the Bank of England at the time. The evidence that Mr Tucker, Mr Diamond and Mr del Missier separately gave about this manipulation describes a combination of circumstances which would excuse all the participants from the charge of deliberate wrongdoing. If they are all to be believed, an extraordinary, but conceivably plausible, series of miscommunications occurred. It is also unlikely that Barclays was the only bank attempting the manipulations. In explaining what was wrong with the general culture at Barclays, the FSA showed some welcome evidence of a new, judgement-led regulatory approach. Regulators should not decide the composition of boards in response to headlines and many will wonder why they did not intervene earlier to remove Mr Diamond. The Bank of England should have had adequate procedures in place for at least the making of a File note of conversations such as that between Mr Tucker and Mr Diamond. The Wheatley review should now look at the role of the BBA in LIBOR setting at that time in detail and publish its findings. The Parliamentary Commission on Banking Standards' examination of the corporate governance of systemically important financial institutions should consider how to mitigate the risk that the leadership style of a chief executive may permit a lack of effective challenge or to the firm committing strategic mistakes
